INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1989, ch. 127, pars. 1001 et seq., as amended).

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF PROPOSED AMENDMENTS

1) The Heading of the Part: Pay Plan

2) The Code Citation: 80 Ill. Adm. Code 310

3)

Section Number:	Proposed Action:
310.30	Amended
310.40	Amended
310.280	Amended
310.290	Amended
310.320	Amended
310. App. A, Table A	Amended
310. App. A, Table B	Amended
310. App. A, Table D	Amended
310. App. A, Table E	Amended
310. App. A, Table F	Amended
310. App. A, Table J	Amended
310. App. A, Table P	Amended
310. App. A, Table U	Amended

4) Statutory Authority: Ill. Rev. Stat. 1989, ch. 127, par. 63b108a(2)

5) A Complete Description of the Subjects and Issues Involved:

In Sections 310.30, 310.40 and 310.320, the current edition of the Illinois Revised Statutes is being updated from 1987 to 1989.

In Section 310.280, the Designated Rate section is being updated to include changes already approved by the Governor.

In Section 310.290, the Accounting and Fiscal Administration Career Trainee title is being deleted from the Out-of-State or Foreign Service Rate section, and replaced by the Revenue Auditor Trainee.

In Section 310. Table A (HR-190, SEIU) and B (HR-200, SEIU), the Building Services Worker's rate is being updated from $1,635.60 to $1,705.20, and the Elevator Operator's rate is being updated from $1,687.80-$1,722.60-$1,740.00 to $1,757.40-$1,792.20-1,809.60, effective retroactive to January 16, 1990.

In Section 310. Tables D, E and F, Teamsters' Local #726, 330 and 25, the rates for the Bridge Crew titles are being corrected as outlined in the text. In Table F, the Highway Maintainer is being corrected from $2,708.00 to $2,678.00.

In Section 310. Table J, RC-014 (Clerical Employees, AFSCME), the titles of Administrative Services Worker Trainee and the Clerical Trainee are being added.

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF PROPOSED AMENDMENTS

In Section 310. Table P, RC-029 (Paraprofessional Investigatory and Law Enforcement Employees, ISEA), the salary range for the Drug Compliance Investigator is being corrected from $2,278.00-2,997.00 to $2,833.00-3,789.00.

In Section 310. Table U, the collective bargaining schedule for the HR-010 (Teachers of the Deaf, Extracurricular Paid Activities) is being revised to represent the extra-curricular activities and accompanied salaries for the 1989/90 and 1990/91 school year.

6) Will this proposed rule replace an emergency rule currently in effect?

No.

7) Does this rulemaking contain an automatic repeal date? ___Yes _X_No
If "yes", please specify date:

8) Do these proposed amendments contain any incorporations by reference?

No

9) Are there any proposed amendments pending to this part? Yes

Section Numbers	Proposed Action	Ill. Reg. Citation
310. Appendix C	Amended	14 Ill. Reg. 15570 (September 21, 1990)

10) Statement of Statewide Objectives:

These amendments to the Pay Plan pertain only to State employees subject to the Personnel Code and do not set out any guidelines that are to be followed by local or other jurisdictional bodies within the State.

11) Time, Place, and Manner in which interested persons may comment on this proposed rulemaking:

Mr. Michael Murphy
Department of Central Management Services
Division of Technical Services
504 William G. Stratton Building
Springfield, Illinois 62706

Telephone: (217) 782-5601

12) Initial Regulatory Flexibility Analysis:

A) Date rule was submitted to the Business Assistance Office of the Department of Commerce and Community Affairs:

The Department of Central Management Services' Pay Plan does not affect private businesses. Amendments made to the Pay Plan are not subject to any guidelines or regulations of the Department of Commerce and Community Affairs.

B) Types of small businesses affected:

None. The Department of Central Management Services' Pay Plan extends only to Personnel Code employees under the jurisdiction of the Governor.

C) Reporting, bookkeeping or other procedures required for compliance:

None

D) Types of professional skills necessary for compliance:

None

The full text of the proposed Rule(s) begins on the next page.

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF PROPOSED AMENDMENTS

Section 310.30 Jurisdiction

All positions of employment in the service of the State of Illinois shall be subject to the provisions of this Part unless specifically excluded now, or hereafter, under Section 4(c) (General Exemptions) or Section 4(d) (Partial Exemptions) of the Personnel Code (Ill. Rev. Stat. ~~1987~~ 1989, ch. 127, pars. 63(b)101 et seq) or other pertinent legislation. Those positions to which jurisdiction of the Personnel Code has been or may be later extended shall also be subject to the provisions of this Part.

(Source: amended at 15 Ill. Reg. _____, effective _____
_____)

Section 310.40 Pay Schedules

The attached Schedule of Salary Grades (Appendix B), Schedule of Rates (Subpart B), Physician Administrator and Medical Facilities Administrator Rates (Appendix C) and the Merit Compensation System (Subpart C) are hereby made a part of this Part. Each employee subject to this Part, except those whose rates of pay is determined under the Schedule of Rates (Subpart B) or the Merit Compensation System (Subpart C) of this Part, or Section 8(a) of the Personnel Code (Ill. Rev. Stat. ~~1987~~ 1989, ch. 127, par. 63(b)101 et seq.), shall be paid at a step in the appropriate salary grade in the Schedule of Salary Grades (Appendix B) for the class of positions in which he-she is employed.

(Source: amended at 15 Ill. Reg. _____, effective _____
_____)

Section 310.280 Designated Rate

The rate of pay for a specific position or class of positions where it is deemed desirable to exclude such from the other requirements of this Pay Plan shall be only as designated by the Governor.

Section 310.290 Out-of-State or Foreign Service Rate

The rate of pay for employees occupying positions which require payment in accordance with the economic conditions and social legislation of another state or foreign country. An adjustment may be made to the salary of an employee stationed in a foreign country to compensate for a change in the currency exchange rate. The Director of the Department of Central Management Services will, before approving an adjustment, consider the need of the employing agency, the treatment of other similar situations, prevailing practices of other employers, and the equity of the particular circumstances.

(Source: Amended at 15 Ill. Reg. _____, effective _____, 1991)

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

1) Heading of the Part: Illinois Small Business Development Program

2) Code Citation: 14 Ill. Adm. Code 570

3)

Section Numbers:	Proposed Action:
570.10	Amendment
570.20	Amendment
570.25	Amendment
570.30	Amendment
570.40	Amendment
570.50	Amendment
570.60	Amendment
570.70	Amendment

4) Statutory Authority: Implementing and authorized by the Small Business Development Act (Ill. Rev. Stat. 1989, ch. 127, pars. 2709-1, 2709-2, 2709-3, 2709-4, 2709-4.2, and 2709-6 et seq.)

5) A Complete Description of the Subjects and Issues Involved: Sections 570.10, 570.30, 570.50, and 570.60 are being modified to allow expanded financial assistance to minority and women owned small businesses, Illinois Department of Transportation (IDOT) certified disadvantaged and women businesses, and businesses owned by disabled persons. Section 570.20 is being amended to allow consideration of applications on a continuous basis. Section 570.25 is being amended to clarify information required of applicants. New start-up companies need not submit a company history or historic financial statements. The site map will be required only on projects with fixed sites. Required land and building information is being changed to include rental information and to allow for appraisals by appraisers certified with designations other than Member Appraisal Institute (MAI). Required descriptions of machinery and equipment are clarified. Changes are also being made to the requirements for application documentation regarding company management and ownership. Section 570.30 is being amended to clarify that applicants notified of deficiencies in their applications need only submit additional documentation to correct the deficiencies, not another entire application. This Section is also being revised to allow the department 45 days from receipt of a complete application for its review and evaluation. The job created/retained to project fund ratio is being changed to more accurately reflect the capitalization rates needed by businesses. Additionally the reference to "Robert Morris Associates Annual Statement Studies" in this Section, is being updated to reflect the 1990 edition and to allow the use of other sources other than the "Robert Morris Associates Annual Statement Studies" when necessary. Section 570.40 is modified to allow field visits or inspections to be made by other than department employees. Section 570.70 is being amended to update administrative requirements. This Section is being divided into subsection(a) loan receipts and (b) grant

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

receipts to clarify the requirements of each. Loan terms are being expanded to better accommodate applicants' financial needs. Subsection(a)(3) is being modified to allow the department the ability to respond more quickly in events of default. Subsections(a)(6) and (a)(7) are being revised to lessen the financial burden on small businesses by reducing the requirements for financial statement submissions by recipients of small loans. Subsections(b)(4) and (b)(5) are being revised to clarify the audit and financial statement requirements for recipients of grants and loans.

6) Will these proposed amendments replace an emergency rule currently in effect? No.

7) Does this rulemaking contain an automatic repeal date? No.

8) Do these proposed amendments contain incorporations by reference? Yes, under Section 6.02(a) of the Illinois Administrative Procedure Act.

9) Are there any proposed amendments pending on this Part? No.

10) Statement of Statewide Policy Objectives: This rulemaking does not create or expand a state mandate as defined in Section 3(b) of the State Mandates Act (Ill. Rev. Stat. 1989, ch. 85, par. 2203).

11) Time, Place, and Manner in which interested persons may comment on this proposed rulemaking: Interested persons may present their comments concerning this proposed rulemaking in writing within 45 days after this edition of the Illinois Register to the following:

Mr. William Rodman, Deputy Director
Department of Commerce and Community Affairs
Small Business Assistance Bureau
620 East Adams Street, 6th floor
Springfield, Illinois 62701
(217) 785-6282

12) Initial Regulatory Flexibility Analysis:

A) Date rule was submitted to the Business Assistance Office of the Department of Commerce and Community Affairs: March 13, 1991.

B) Types of small businesses and small municipalities affected: This rulemaking will affect all for profit small businesses applying for loans under the Illinois Small Business Development Program. Small municipalities will not be directly affected.

C) Reporting, bookkeeping or other procedures required for compliance: All small businesses receiving loans/grants under the Illinois Small Business Development Program must submit

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

statements have been expanded to better accommodate small businesses.

D) Types of professional skills necessary for compliance: The necessary skills are not changed from present rules.

The full text of the Proposed Amendments begins on the next page:

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

TITLE 14: COMMERCE
SUBTITLE C: ECONOMIC DEVELOPMENT
CHAPTER I: DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

PART 570
ILLINOIS SMALL BUSINESS DEVELOPMENT PROGRAM

Section
570.10 Purpose
570.15 Loan Terms (Renumbered)
570.20 Application Cycle
570.25 Application Documentation
570.30 Application Evaluation
570.40 Selection for Funding
570.50 Funding Limitations
570.60 Allowable Leverage
570.70 Administrative Requirements

AUTHORITY: Implementing and authorized by the Small Business Development Act (Ill. Rev. Stat. 1989, ch. 127, pars. 2709-1, 2709-2, 2709-3, 2709-4,, 2709-4.2, and 2709-6 et seq.).

SOURCE: Emergency rules adopted at 9 Ill. Reg. 14368, effective September 6, 1985, for a maximum of 150 days; adopted at 10 Ill. Reg. 3266, effective January 28, 1986; amended at 10 Ill. Reg. 19724, effective November 6, 1986; amended at 13 Ill. Reg. 58, effective December 27, 1988; amended at 15 Ill. Reg. _____, effective _____.

Section 570.10 Purpose

a) Through the Illinois Small Business Development Program (Program), the Department of Commerce and Community Affairs (Department) will provide ~~long-term,~~ fixed-rate, low-interest (i.e., ~~more-than-three-years-~~at or below the prime rate then current in the major money centers) term loans (see Section 570.70(a)) or grants to small businesses in Illinois in cooperation with ~~private-sector~~ participating lenders or other investors. The ultimate purpose of the Program is to provide economic development assistance to Illinois businesses who will provide employment opportunities for Illinois citizens, either through job creation or retention.

b) Any small business operating or to be located in Illinois may make an application for financial assistance under this program. A small business includes, but is not limited to, any for-profit business ~~in--Illinois~~ organized as a sole proprietorship, partnership, corporation, joint venture, association, or cooperative. For the purposes of this program, a small business is one which has, including its affiliates, less than 500 full-time employees, or is determined by the Department not to be dominant in its field.

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

c) Minority and Women Business Loans - Minority and women owned (small) businesses shall be granted waivers with respect to funding limitations in accordance with Section 570.50(b) by the Director in order to encourage economic development and job creation/retention in minority and women owned businesses. For purposes of this Part minority, woman, minority owned business, and women owned business shall have the same definitions as those established under Section 2 of the Minority and Female Business Enterprise Act (Ill. Rev. Stat. 1989, ch. 127, par. 132.602) for minority, female, minority owned business, and female owned business, respectively.

d) Disadvantaged Business Enterprise (DBE)/Women's Business Enterprise (WBE) Contractor Finance - Illinois Department of Transportation (IDOT) certified DBEs/WBEs may apply for contractor finance (working capital financing to fulfill the terms of a contract or subcontract let or administered by IDOT) loan participations (undivided interests the Department obtains in loans made by other lenders) in order to encourage economic development and job creation/retention in DBEs and WBEs. For purposes of this Part, IDOT certified DBEs and WBEs shall have the same definitions as those established under Section 5 of the Illinois Purchasing Act (Ill. Rev. Stat. 1989, ch. 127, par. 132.5) and Sections 3-101, 3-103, and 4-201.1 of the Illinois Highway Code (Ill. Rev. Stat. 1989, ch. 121, pars. 3-101, 3-103 and 4-201.1) and shall be certified under IDOT rules (92 Ill. Adm. Code 10).

e) Disability Business Loans - Businesses owned by persons with disabilities shall be granted the same waivers as those granted in subsection(c) for minority and women owned businesses. For purposes of this Part, disability shall have the same definition as that used in Section 3 of the "Americans with Disabilities Act of 1990" (42 U.S.C. 12102) and businesses owned by persons with disabilities shall mean businesses that are at least 51% owned by one or more persons with disabilities and whose management and daily business operations are controlled by one of the disabled owners).

(Source: Amended at 15 Ill. Reg. _____, effective _____)

Section 570.20 Application Cycle

Applications under the Program will be accepted ~~on--an--ongoing--basis~~ throughout the year until program funds are exhausted. The Department or its designee will supply interested businesses with an application package upon request. ~~Applications-submitted-by-the-25th-of-each-month-will-be-reviewed.~~

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

~~Submissions after the 25th will be held for consideration during the next monthly review cycle until program funds are exhausted.~~

(Source: Amended at 15 Ill. Reg. _____, effective _____)

Section 570.25 Application Documentation

The application must include documentation of the following:

a) History of the Company (if applicable) - a brief history of the business and past employment growth.

b) Market Information - information on the company's products or services and identification of existing and potential major customers and competitors. DBE's/WBE's requesting contractor financing shall have fulfilled the requirements of this subsection upon the submission of a copy of the contract under which the work will be performed.

c) ~~Corporate~~ Historic Financial Statements (if applicable) - ~~historical corporate~~ financial statements for the past three years, if the business is not a new plant start-up or venture opportunity and interim statements dated no more than ninety days prior to application including:

1) Profit and Loss (Income) Statements;

2) Balance Sheets;

~~3) Cash Flow Statements;~~ and

3)~~4)~~ Disclosure of Contingent Liabilities.

d) Three Year Projections - three year projections of the Profit and Loss Statement and Balance Sheet and a one year Monthly Cash Flow Projection. Except that proposed projects of less than three years in duration shall only be required to submit projections appropriate for the projects (e.g., projects of less than one year shall only need to submit cash flow projections).

e) Site Map (if applicable) - an outline of the general location of the project on a site map, including the location of any floodplain areas. DBE's/WBE's requesting contractor financing shall have fulfilled the requirements of this subsection upon the submission of a copy of the contract under which the work will be performed.

f) Land and Building Information (~~if~~ as applicable) - for land and/or building acquisition, ~~an MAI~~ appraisal by a credentialed

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

appraiser acceptable to the Department and a copy of the purchase option or agreement; for building construction or renovation, a contractor or architect's cost estimates; for space rental, a draft rental/lease agreement. If real property and fixtures will be offered as collateral for funding, an appraisal by a credentialed appraiser acceptable to the Department.

g) Description of Machinery and Equipment (if applicable) - major equipment or classes of equipment to be acquired with the Department's program funds identified; for acquisition of new machinery and equipment, attachments of reliable vendor cost estimates; for moving and installation costs, attachments of written estimates; for used machinery and equipment acquisition, ana appraisal demonstrating that the fair market value is in line with the purchase price and a specific description of the equipment including serial numbers, if available.

h) Description of Working Capital (if applicable) - a detailed explanation of the need for and use of the funds.

i) Company Management - a listing of those ~~people that~~ individuals who are responsible for the management of the company, their positions; and responsibilities, and resumès of key senior individuals at the company location ~~percentages of ownership~~.

j) ~~Personal Resumé(s) - a resumé for senior staff at the proposed project site.~~ Ownership - the company will provide a detailed statement of ownership which shall include a percentage of ownership. Such statements shall clearly identify any ownership interest which amounts to 20% or more, any ownership interest which is considered to be controlling the business, and/or any interest which is guaranteeing any financial or contractual activities of the company. For all such entities which meet any conditions of this subsection, a financial statement shall be provided. The financial statements shall include full name. home/corporate address and social security number/federal employer identification number (FEIN).

~~k) Personal Financial Statement - a personal financial statement(s) for each principal owning more than 20 percent of the company.~~

k)~~l)~~ Letters of Commitment - commitment letters documenting all sources of leveraging; loans from financial institutions must have language indicating the loan amount, the specified term and interest, collateral, conditions attendant to the loan, and the fact that the loan is approved; any commitment to purchase a revenue bond must have an executed inducement resolution and the rates, terms, and conditions of approval by the buyer.

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

(Source: Amended at 15 Ill. Reg. _____, effective _____)

Section 570.30 Application Evaluation

The Department shall screen all applications to determine that all requirements of the application package have been addressed. Complete applications will be reviewed and evaluated by Department staff. Applicants will be notified of deficiencies in applications and given an opportunity to correct such deficiencies through resubmission of additional documentation (see Section 570.25). This review and evaluation process will be completed within ~~30~~ 45 days of the ~~monthly-cut-off-date-for~~ Department's receipt of a complete applications. Department staff will conduct a technical and financial evaluation of each application.

a) Technical Evaluation Component - Each application will be reviewed to assure compliance with technical program requirements as specified in Sections 9-~~1~~,-9-2, 9-4, 9-4.2, and 9-6 et seq. of the Small Business Development Act (Act) (Ill. Rev. Stat. ~~1987~~ 1989, ch. 127, pars. 2709-1, 2709-2, 2709-4, 2709-4.2, 2709-6 et seq.). The technical evaluation will address the following criteria:

1) Evidence of Need for Program Funding - The company must demonstrate the need for program funds in accordance with requirements of Section 9-4(c) of the Act including ~~identifieation--of--alternative--funding--sourees--pursued,~~ evidence that the project's financing cannot be obtained without Department participation at an interest rate and term which makes the project viable; and the leverage of other funds in accordance with Sections 9-4(a)and (b)and 9-6(a) and (b) of the Act.

2) Project Implementation Readiness - The company must demonstrate project readiness, including identifying loans and investments from all lenders and investors on letterhead, signed and dated; time schedule for ~~immediate~~ project initiation; and written cost estimates from contractors, suppliers, and/or architects which support project costs.

3) Job Creation/Retention -

A) The application must provide evidence of: jJob creation/retention, including written assurance from the company which identifies the number of jobs to be created/retained; identification of the types of jobs created/retained; evidence that jobs created/retained will generate additional wealth for the community (e.g., final goods or services produced are sold in markets outside Illinois or final goods or services produced and sold locally substitute for those imported from outside the state) - ~~some~~ preference will be given to these types of jobs; and generally a ratio of at least one job created/retained to each ~~$3,000~~ $10,000 in project funds unless waived by the Director. A project with a higher ratio will be considered for funding if the application demonstrates severe need (e.g., distressed community with an unemployment rate which is considerably higher than the state's average; area with limited economic development projects as evidenced by prior and current development activities; funding would support business with potential to generate additional growth in area and creation of jobs as a result of spinoff businesses; funding needed to avert loss of the area's major source of employment, etc.).

B) Minority and Women owned businesses requesting loans of $50,000 or less shall be allowed a ratio of at least one job created/retained to each $15,000 in project funds.

C) IDOT certified DBE's/WBE's requesting contractor finance loan participations of $10,000 up to $100,000 shall be allowed a ratio of at least one full-time equivalent (FTE) job created/retained to each $15,000 in project funds. (One FTE job is equal to 1,950 hours worked.)

b) Financial Evaluation Component - The applicant's financial statements, including the items in Section 570.20(c),(d),(h), and (k), as applicable, ~~annual-balanee-sheets-and-profit-and-loss statements-for-the-past-three-years-as-well-as-the-most-reeent ninety-days;-a-three-year-projected-balance-sheet-and-profit-and loss-statement-as-well-as-a-one-year-monthly-cash-flow-statement~~ will be reviewed through a standard credit analysis which, will determine the: liquidity and debt coverage for the project; ability of the company to manage debt; business trends, and projected earnings. This data will be compared to similar data for companies in the same industry using ~~"Robert-Morris Associates~~ the "RMA Annual Statement Studies" (published by Robert Morris Associates, P.O. Box 8500, S-1140 Philadelphia, PA. 19178), or a comparable source ~~(1987)~~ (1990 with no later amendments or editions) if such industry is evaluated by this source. This standard credit analysis will determine the financial stability of the company in accordance with Section 9-4(f)of the Act.

Section 570.40 Selection for Funding

a) For any application which meets the criteria of Section 570.30, Department staff or designee will then conduct field visit evaluations to verify information in the application, leading to the final funding decision. The field visits will analyze the following:

1) ~~a comparative~~ an assessment of the projects in terms of job creation or retention, in relation to the value of the funds requested and types of jobs preferred as described in Section 570.30 (a)(3);

2) a verification of submitted application information; and

3) past performance of the applicant under previous Departmental programs, if applicable (e.g., success in previous projects and the level of compliance with previous ~~grant~~ agreements).

4) Because of the certification process by IDOT of DBE's/WBE's and the inspections of the work by IDOT staff, subsection(a) shall not apply to DBE/WBE contractor financing.

b) Applications that best meet the objectives of the program and demonstrate the greatest potential for job creation/retention will receive loan or grant funds, until all available funds are expended. The Department will place the highest priority on the making of loans.

(Source: Amended at 15 Ill. Reg. _____, effective _____)

Section 570.50 Funding Limitations

a) In accordance with Sections 9-4(b) and 9-6(b) of the Act, the Director will waive limitations governing the amount of the loan/grant and percentage of leverage when it is determined that these funding limitations would prohibit an otherwise approved project, in accordance with Sections 570.30 and 570.40, and subsequent job creation/retention, from occurring.

b) Minority and women owned businesses applying for loans not exceeding $50,000 shall be granted automatic Director waivers of the 25% of the total amount of any single project limitation up to 50% of the total amount of any single project.

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

(Source: Amended at 15 Ill. Reg. _____, effective _____)

Section 570.60 Allowable Leverage

In addition to the forms of allowable leverage defined in Section 9-4(a) and 9-6(a) of the Act, allowable leverage will include such tangible assets as:

a) under-utilized land and/or buildings which are a part of the project;

b) machinery and equipment brought into the state from another state; ~~and~~

c) cash equity provided by the principal(s), stockholders, or other investors~~.~~;

d) Ffunds expended by the business prior to the date of a loan or grant award; existing in-state equipment, land, buildings, furnishing, inventory (already owned and being utilized); lines of credit; post-project costs~~, (such as operational expenses)~~; and debt refinancing will not be considered as leverage~~.~~; and

e) lines of credit shall be allowed for DBE/WBE contractor finance loan participations with terms not exceeding two years.

(Source: Amended at 15 Ill. Reg. _____, effective _____)

Section 570.70 Administrative Requirements

a) Loan Recipients

1)~~a)~~ Loan Terms - Loans for real estate normally will be ~~amortized~~ repaid over a period of up to ~~15~~ 10 to 25 years; loans primarily utilized for machinery and equipment will generally vary from ~~7~~ 5 to 10 years. ~~Asset based~~ Lloans not secured by a lien on ~~the fixed~~ tangible assets require personal guarantees. Loans primarily intended for short term working capital needs will normally ~~extend for~~ be repaid over a period of 3 months to 5 years. These loans will require personal guarantees from all individuals/entities owning or controlling 20 percent or more of the applicant company. For small companies without major identifiable principals (e.g., no one owns 20 percent or more of the company), the amount of the loan is limited to 80 percent of the value of the fixed asset securing the loan. ~~Monthly~~ Periodic installments shall be due and payable to the Department ~~at a~~ in the method and time(s) specified in the loan agreement. All payments shall be applied first to interest and then to principal.

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

2)b) Reporting - The Recipient (applicant receiving grant/loan funds) will provide, at least annually, information and reports required by the Department (e.g. reports on job creation/retention; financial statement of assets, liabilities, and net worth).

c) Termination of Grants/Loans --- Grants/loans shall be terminated for the following reasons:

1) Termination Due to Loss of Funding --- In the absence of state funding for a grant year, all grants/loans for that year will be terminated in full. In the event of a partial loss of state funding, the Department will make proportionate cuts to all Recipients. In the event the Department suffers such a loss of funding in full or part, the Department will give the Recipient written notice setting forth the effective date of full or partial termination, or if a change in funding is required setting forth the change in funding and changes in the approved budget.

2) Termination for Cause

A) If the Department determines that the Recipient has failed to comply with the terms and conditions of the grant/loan, the Department shall terminate the grant/loan in whole, or in part, at any time before the date of completion. Circumstances which will result in the termination of a grant/loan include, but are not necessarily limited to the following: consistent failure to submit required reports; failure to maintain required records; failure to protect inventory; misuse of equipment purchased with grant/loan funds; evidence of fraud and abuse; consistent failure to meet performance standards and failure to resolve points of the agreement (i.e., narrative, number to be served). These circumstances are explained in the grant/loan agreement.

B) The Department shall promptly notify the Recipient in writing of the determination to terminate, the reasons for such termination, and the effective date of the termination. Payments made to the Recipient or recoveries by the Department shall be made in accordance with legal rights and liabilities explained in the grant/loan agreement.

3) Termination by Agreement --- The Department and the Recipient shall terminate the grant/loan in whole, or in part, when

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

the Department and the Recipient agree that the continuation of the program objectives would not produce beneficial results commensurate with the future expenditures of funds. The Department and the Recipient shall agree upon termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated. Recipient shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Department shall allow full credit to the Recipient for the Department's share of the noncancellable obligations, properly incurred by the Recipient prior to termination.

3)d) Events of Default - The entire unpaid principal of the a loan, and the interest then accrued thereon, shall become and be immediately due and payable upon the written demand of the Department, without any other notice, or demand, presentment or protest of any kind or any presentment of protest, if any one of the following events (hereafter an "event of default") shall occur and be continuing at the time of such demand, whether voluntarily or involuntarily, or and without limitation, occurring or brought about by operation of law or pursuant to or in compliance with any judgment, decree or order of any court or any order, rules or regulations of any administrative or governmental body, provided, however that such sum shall not be then payable if Recipient's payments have been deferred. The Department will make deferrals based upon case by case review of the Recipient's financial statements and projections (see Section 570.25(c) and (d)) to determine if the Recipient will be able to make payments at a future date.

A)1) Non-Payment of Loan - If the Recipient shall fail to make payment when due of any installment of principal on the loan, or interest accrued thereon amount due under the note or other amount payable to the Department under the loan agreement and if the failure to make payment shall remain unremedied for fifteen (15) ten (10) days unless otherwise stated in the loan agreement).

B)2) Non-Payment of Other Indebtedness - If default shall be made in the payment when due of any installment of principal or of interest on any of the Recipient's other indebtedness (any creditor the Recipient owes) and if such default shall remain unremedied for (15) days unless otherwise stated in the loan agreement.

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

C)~~3)~~ Incorrect Representation or Warranty - If any representation or warranty contained in, or made in connection with the execution and delivery of, the loan agreement, or in any certificate furnished pursuant hereto, shall prove to have been incorrect.

D)~~4)~~ Default in Covenants - If the Recipient shall default in the performance of any other term, covenant or agreement contained in the loan agreement, and such default shall continue unremedied for ~~thirty-(30)~~ ten (10) days (unless otherwise stated in the loan agreement) after either:

i)~~A)~~ it becomes known to an executive officer of the Recipient; or

ii)B) written notice thereof shall have been given to the Recipient by the Department.

E)~~5)~~ Voluntary Insolvency - If the Recipient shall cease to pay its debts as they mature or shall voluntarily file a petition seeking reorganization of, or the appointment of a receiver, trustee, or liquidation of its assets or to effect a repayment plan with creditors, or shall be adjudicated bankrupt, or shall make a voluntary assignment for the benefit of creditors.

F)~~6)~~ Involuntary Insolvency - If an involuntary petition shall be filed against the Recipient under any bankruptcy or insolvency law or seeking the reorganization of or the appointment of any receiver, trustee or liquidator for the Recipient, or the property of the Recipient, or a writ or warrant of attachment shall be issued against the property of the Recipient and such petition shall not be dismissed, or such writ or warrant of attachment shall not be released or bonded within thirty (30) days after filing or levy.

G)~~7)~~ Judgments - If any final judgment for the payment of money that is not fully covered by liability insurance shall be rendered against the Recipient, and within thirty (30) days, shall not be discharged, or an appeal therefrom taken and execution thereon effectively stayed pending such appeal, and, if such judgment be affirmed on such appeal, the same shall not be discharged within thirty (30) days.

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

4)~~e)~~ Notice of Default - The Recipient agrees to give written notice to the Department of any event, within 15 days of the event, which constitutes an event of default as specified in Section 570.70~~(d)~~(a)(3).

5)~~f)~~ Monitoring and Evaluation - Recipients must permit any agent authorized by the Department, upon presentation of credentials, to ~~in--accordance--with--the--constitutional limitation-on-administrative-searches,~~ have full access to and the right to examine any documents, papers, and records of the Recipient involving transactions related to a ~~grant/~~loan from the Department.

~~g) -Audits~~

~~1) The-Recipient-shall-be-responsible-for-having-an-audit-of all-grant/loan-records-and-such-audit-must-be-performed-by an-independent-public-accountant,-certified-and-licensed-by authority-of-the-State-of-Illinois.--The-audit-must-be conducted-in-accordance-with-generally-accepted-government auditing-standards-adopted-by-the-AICPA(1981).~~

~~2) The-Recipient-may-secure-an-independent-audit-of-its grant/loan-in-the-same-manner-as-it-secures-its-regular audits,-provided-it-provides-for-maximum-open-and-free competition.--The-audit-should-be-conducted-as-part-of-the Recipient's-normal-annual-audit-or,-when-the-ending-period of-the-audit-covers-the-expenditure-of-all-grant/loan funds,-bi-annual-audit.~~

6) Recipients shall keep detailed records of the project and the use of loan proceeds. Recipients of loans of $100,000 or more shall furnish to the Department, with the submission of financial statements (see Section 570.70(a)(7)) following the expenditure of project funds, a written audit of the project and the use of loan proceeds. The audit shall be conducted by certified public accountants licensed by the State of Illinois in accordance with the Illinois Public Accounting Act (Ill. Rev. Stat. 1989, ch. 111, pars. 5500-5536) unless for good cause, the Department allows the audit to be conducted by an accountant certified by the proper authorities of another state and shall be in accordance with generally accepted auditing standards adopted by the American Institute of Certified Public Accountant. For Recipients of loans of less than $100,000 the Department or its designee will conduct one or more inspections of the project and the use of loan proceeds records to verify the use of project funds.

~~3) The Recipient shall work cooperatively with the audit firm selected; actively work with both the audit firm and the Department to resolve any and all audit findings; and work cooperatively with the Department's staff in preparing for, conducting, and resolving audits.~~

~~4) Any Recipient receiving a grant will provide the Department with 6 copies of its annual audit which addresses Department grant(s). In instances where the grant period or term does not coincide with the Recipient's fiscal year, two fiscal audit reports shall be forwarded to the Department. Any Recipient receiving a loan will provide the Department with 3 copies of its audit which addresses funds expended under the Department's loan, within thirty days of its publication.~~

~~5) The Department reserves the right to conduct special audits, including but not limited to an agency-wide audit, at any time during normal working hours of funds expended under Department grants/loans.~~

~~6) Any independent public accounting firm that provides consultant services to a Recipient is prohibited from conducting an audit of that Recipient for the period during which services were rendered.~~

7) Financial Statements - The Recipient shall provide as often as requested by the Department, an unaudited financial statement of the Recipient as at the end of the quarter of the Recipient's fiscal year then elapsed, certified by the Recipient's principal financial officer and prepared in accordance with generally accepted accounting principles and fairly presenting the financial position and results of all operations of the Recipient for such quarter. The Recipient shall furnish to the Department:

A) if the original amount of the loan is less than $100,000, as soon as available, but not later than 120 days after the end of each fiscal year of the Recipient, a true and correct copy of the Recipient's federal income tax return for such year just ended;

B) if the original amount of the loan is equal to or greater than $100,000 but less than $250,000, as soon as available, but not later than 120 days after the end of each fiscal year of the Recipient, financial statements of the Recipient as at the end of such year (reviewed by certified public accountants, licensed by the State of Illinois or any other state and satisfactory to the Department) containing a certificate of the aforesaid public accountants certifying to the Department that they are not aware of the occurrence or existence of any condition or event which constitutes a default; or

C) if the original amount of the loan is equal to or greater than $250,000, as soon as available, but not later than 120 days after the end of each fiscal year of the Recipient, financial statements of the Recipient as at the end of such year examined by certified public accountants (licensed by the State of Illinois or any other state and satisfactory to the Department) containing the unqualified opinion of such public accountants with respect to the financial statements and a certificate of the aforesaid public accountants certifying to the Department that they are not aware of the occurrence or existence of any condition or event which constitutes a default.

D) if a Recipient has complied with subsection(a)(6) and has submitted financial statements in accordance with subsection(a)(7)(B) or (C) covering the fiscal year ending after the date of funding, the Department may, for good cause (i.e. financial hardship, merger, change of fiscal year end, etc.), accept

i) for a loan with an original amount of at least $100,000 but less than $250,000 a copy of the Recipient's federal tax return and compiled financial statements, or

ii) for a loan with an original amount of $250,00 or more reviewed financial statements, provided the Recipient requests and receives the Department's approval prior to, but nor more than six months before the end of the fiscal year for which the statements are being prepared.

~~h) Complaint Process In the event of a Recipient complaint, the Department will follow the procedures outlined in the Administrative Review Law (Ill. Rev. Stat. 1985, ch. 110, pars. 3-101 et seq.).~~

~~i) Interest on Grant Funds In accordance with Section 10 of the Illinois Grant Funds Recovery Act (Ill. Rev. Stat. 1985 par. 2310), all interest earned on funds held by the Recipient under the grant shall become part of the grant when earned. Any~~

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

~~interest - earned - under - the - grant, - and - not - expended - as - grant principal during the term of the grant, shall be returned to the Department.~~

8)~~j)~~ Nondiscrimination - The Recipient shall refrain from unlawful discrimination in employment and undertake affirmative action to assure equality of employment opportunity and eliminate the effects of past discrimination in accordance with the Illinois Human Rights Act (Ill. Rev. Stat. ~~1985~~ 1989, ch. 68 pars. 1-101 et seq.).

~~k) Financial--Management-----The--Recipient's--financial--management system shall be structured under the Accounting Standards of the Financial Accounting Standards Board of the American Institute of Certified Public Accountants (AICPA) (June, 1984) to maintain control and accountability over grant/loan funds.~~

9)~~l)~~ Maintenance and Insurance of Property

A)~~1)~~ The Recipient shall at all times maintain the property provided as security for the loan in such condition and repair that the Department's security will be adequately protected.

B)~~2)~~ The Recipient shall maintain, during the term of the loan, adequate (at least covering the amount of the loan) hazard (e.g., tornado, hail, acts of God) insurance policies, covering fire and extended coverage for all such other hazards and issued by an insurance company authorized to do business in the State of Illinois with loss payee/additional insured/mortgagee clauses, as applicable, in favor of the Department.

C)~~3)~~ The Recipient shall, if at any time during the life of the loan the Recipient's property is declared to be within a flood hazard area, purchase federal flood insurance if available. Such insurance shall be equal to the amount of the loan.

D)~~4)~~ The Recipient shall maintain general liability and worker's' compensation insurance. The Recipient shall provide written notice to the Department of any public hearing or meeting before any administrative or other public agency which may, in any manner, affect the chattel, personal property or real estate securing the loan.

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

10) For DBE/WBE Contractor Finance loan participations, compliance with subsection(a) shall be obtained, either directly from the Recipient or indirectly through the lender making the participated loan, in accordance with and as stated in the agreements established (and approved by the Department) between the Recipient and the Department, the Recipient and the lender, and the Department and the lender.

b) Grant Recipients

1) Reporting - The Recipient (applicant receiving grant funds) will provide, at least annually, information and reports required by the Department (e.g. reports on job creation/retention).

2) Termination of Grants - Grants shall be terminated for the following reasons:

A) Termination Due to Loss of Funding - In the absence of state funding for a grant year, all grants for that year will be terminated in full. In the event of a partial loss of state funding, the Department will make proportionate cuts to all grant Recipients. In the event the Department suffers such a loss of funding in full or part, the Department will give the grant Recipient written notice setting forth the effective date of full or partial termination, or if a change in funding is required setting forth the change in funding and changes in the approved budget.

B) Termination for Cause

i) If the Department determines that the Recipient has failed to comply with the terms and conditions of the grant, the Department shall terminate the grant in whole, or in part, at any time before the date of completion. Circumstances which will result in the termination of a grant include, but are not necessarily limited to the following: consistent failure to submit required reports; failure to maintain required records; failure to protect inventory; misuse of equipment purchased with grant funds; evidence of fraud and abuse; consistent failure to meet performance standards and failure to resolve points of the agreement (i.e., narrative, number to be served). These circumstances are

explained in the grant agreement.

ii) The Department shall promptly notify the Recipient in writing of the determination to terminate, the reasons for such termination, and the effective date of the termination. Payments made to the Recipient or recoveries by the Department shall be made in accordance with legal rights and liabilities explained in the grant agreement.

C) Termination by Agreement - The Department and the Recipient shall terminate the grant in whole, or in part, when the Department and the Recipient agree that the continuation of the program objectives would not produce beneficial results commensurate with the future expenditures of funds. The Department and the Recipient shall agree upon termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated. The Recipient shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Department shall allow full credit to the Recipient for the Department's share of the noncancellable obligations, properly incurred by the Recipient prior to termination.

3) Monitoring and Evaluation - Recipients must permit any agent authorized by the Department, upon presentation of credentials, to have full access to and the right to examine any documents, papers, and records of the Recipient involving transactions related to a grant from the Department.

4) Audits

A) The Recipient shall be responsible for having an audit of all grant records and such audit must be performed by an independent certified public accountant, licensed by authority of the State of Illinois in accordance with the Illinois Public Accounting Act (Ill. Rev. Stat. 1989, ch. 111, pars. 5500-5536) unless, for good cause, the Department allows the audit to be conducted by an accountant certified by the proper authorities of another state. The audit must be conducted in accordance with generally accepted auditing standards adopted by the AICPA (office located at 1211 Avenue of the Americas,

New York, N.Y. 10036-8775) (1989).

B) The Recipient may secure an independent audit of its grant in the same manner as it secures its regular audits, provided it provides for maximum open and free competition. The audit should be conducted as part of the Recipient's normal annual audit or, when the ending period of the audit covers the expenditure of all grant funds, bi-annual audit.

C) Recipients shall keep detailed records of the project.

D) The Recipient shall work cooperatively with the audit firm selected; actively work with both the audit firm and the Department to resolve any and all audit findings; and work cooperatively with the Department's staff in preparing for, conducting, and resolving audits.

E) Any Recipient receiving a grant will provide the Department with 3 copies of its annual audit which addresses Department grant(s). In instances where the grant period or term does not coincide with the Recipient's fiscal year, two fiscal audit reports shall be forwarded to the Department.

F) The Department reserves the right to conduct special audits, including but not limited to an agency-wide audit, at any time during normal working hours of funds expended under Department grants.

G) Any independent public accounting firm that provides consultant services to a Recipient is prohibited from conducting an audit of that Recipient for the period during which services were rendered.

5) Complaint Process - In the event of a Recipient complaint, the Department will follow the procedures outlined in 47 Ill. Adm. Code 10 (Review and Appeal Procedures).

6) Interest on Grant Funds - In accordance with Section 10 of the Illinois Grant Funds Recovery Act (Ill. Rev. Stat. 1989, ch.127 par. 2310), all interest earned on funds held by the Recipient under the grant shall become part of the grant when earned. Any interest earned under the grant, and not expended as grant principal during the term of the grant, shall be returned to the Department.

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

7) Nondiscrimination - The Recipient shall refrain from unlawful discrimination in employment and undertake affirmative action to assure equality of employment opportunity and eliminate the effects of past discrimination in accordance with the Illinois Human Rights Act (Ill. Rev. Stat. 1989, ch. 68, pars. 1-101 et seq.).

8) Financial Management - The Recipient's financial management system shall be structured under the Accounting Standards of the Financial Accounting Standards Board of the American Institute of Certified Public Accountants (AICPA) (September 19, 1987) to maintain control and accountability over grant funds.

ILLINOIS CONSORTIUM FOR EDUCATIONAL OPPORTUNITY

NOTICE OF PROPOSED AMENDMENTS

1) The Heading of the Part: Illinois Consortium for Educational Opportunity Program

2) Code Citation: 23 Ill. Adm. Code 2400

3) Section Numbers: Proposed Action:
Section 2400.20 Amendment
Section 2400.30 Amendment
Section 2400.50 Amendment

4) Statutory Authority: Ill. Rev. Stat. 1989, ch. 144, pars. 2301 et seq.

5) A complete description of the subjects and issues involved: The proposed amendments will make language within the rules internally consistent and make clear the differentiation between institution of higher education and institution of higher learning.

6) Whether the proposed amendment will replace an emergency rule currently in effect? No.

7) Whether the proposed amendment contains an automatic repeal date: No.

8) Whether the proposed amendment contains incorporation by reference: No.

9) Whether there are any other proposed amendments to this Part pending: No.

10) A statement of Statewide Policy Objectives: This does not impact local governments.

11) The time, place and manner in which interested persons may present their views concerning the proposed action. All persons who submit a request to comment within 14 days after this Notice has been published shall be given a reasonable opportunity to submit data, views, arguments or comments:

Charles Morris, Illinois Consortium for Educational Opportunity
c/o Illinois Board of Higher Education
4 West Old Capitol Square, Room 500
Springfield, Illinois 62701
217/782-2551

12) Initial Regulatory Flexibility Analysis:

A) Date rule was submitted to the Business Assistance Office of the Department of Commerce and Community Affairs: March 13, 1991.

B) Types of small businesses affected: none.

C) Reporting, bookkeeping or other procedures required for compliance: no new procedures.

D) Types of professional skills necessary for compliance: none.

ILLINOIS CONSORTIUM FOR EDUCATIONAL OPPORTUNITY

NOTICE OF PROPOSED AMENDMENTS

TITLE 23: EDUCATION AND CULTURAL RESOURCES
SUBTITLE A: EDUCATION
CHAPTER XV: ILLINOIS CONSORTIUM FOR EDUCATIONAL OPPORTUNITY

PART 2400
ILLINOIS CONSORTIUM FOR EDUCATIONAL OPPORTUNITY PROGRAM

Section
2400.10 Purpose
2400.20 Definitions
2400.30 ICEOP Program Guidelines
2400.40 Determining and Administering Awards
2400.50 Fulfillment of the Conditions of the Award
2400.60 Application Procedures

AUTHORITY: Implementing and authorized by The Illinois Consortium for Educational Opportunity Act (Ill. Rev. Stat. 1989, ch. 144, pars. 2301 et seq.).

SOURCE: Emergency Rule adopted at 10 Ill. Reg. 13402, effective July 28, 1986 for a maximum of 150 days; emergency expired December 25, 1986; adopted at 11 Ill. Reg. 4674, effective March 6, 1987; amended at 14 Ill. Reg. 12262, effective July 16, 1990; amended at 14 Ill. Reg. 19178, effective November 27, 1990; amended at 15 Ill. Reg. , effective

Section 2400.20 Definitions

"Academic Year" means the period of time beginning with fall term in one calendar year and running through the end of summer term in the following calendar year.

"Act" means the Illinois Consortium for Educational Opportunity Act.

"Board" means the Board of Higher Education. ~~"Board" means the Board of Higher Education.~~

"Consortium Board" means the representatives of the institutions of higher education participating in the Consortium established under the Act.

"Illinois Resident" means any United States citizen or lawful permanent resident alien of the United States who meets at least one of the following requirements:

Has earned an educational diploma at an institution of education located in this State, or ~~At least one parent or step parent of the student must reside in Illinois; or~~

Is a registered voter in the state of Illinois and has lived in Illinois for a period of at least three years prior to applying for a grant. ~~The emancipated (self supporting) student must have lived in Illinois for a period of six consecutive months and must be a registered voter in the State of Illinois; or~~

~~The student must be a graduate of an Illinois high school or institution of higher education.~~

ILLINOIS CONSORTIUM FOR EDUCATIONAL OPPORTUNITY

NOTICE OF PROPOSED AMENDMENTS

The status of the Illinois residency of the student at the time of initial matriculation in this program will hold for his or her entire time in his or her graduate or professional study at the ICEOP institution.

"Institution of higher learning" means an educational institution of any kind which offers a postsecondary education and credential upon completion, titled a "degree."

"Traditionally underrepresented minority group" means any of the racial minority groups designated in the Act which are represented in Illinois postbaccalaureate enrollment at a percentage rate less than the percentage of the racial minority group's representation in the total Illinois population. The Board shall annually determine which racial groups are underrepresented based upon census data and annual graduate enrollment reports from Illinois institutions of higher education.

(Source: Amended at 15 Ill. Reg. , effective)

Section 2400.30 ICEOP Program Guidelines

a) An ICEOP participating institution shall:

1) be an institution of higher education as defined in the Act;

2) actively recruit students who will be eligible for ICEOP awards and verify to the Consortium Board that applicants for ICEOP financial assistance meet all eligibility requirements;

3) maintain records for award recipients including program application materials, contracts and records of award payments;

4) provide award recipients with academic and support services, such as mentoring, counseling, and other activities that would enhance the chances for degree completion and success in achieving the goals of the program;

5) supervise payment of awards from the funds awarded by the Consortium Board;

6) collect, process and forward to the Consortium Board by March 1 of each year all new applications and renewal forms from eligible students; and

7) assist award recipients who complete their program of study in seeking a position in teaching or administration in an Illinois institution of higher learning~~education~~ or on an Illinois higher education governing board staff or a position as an employee of this State in an education related capacity which the Consortium Board determines to be education related. Such positions may include but shall not be limited to administrative positions in State elementary/secondary and higher education agencies.

ILLINOIS CONSORTIUM FOR EDUCATIONAL OPPORTUNITY

NOTICE OF PROPOSED AMENDMENTS

b) For the applicant student to be eligible to participate in the ICEOP, the student shall establish and the applicable institution shall verify that the student applicant meets the following criteria:

1) *he or she is an Illinois resident;*

2) *he or she is a citizen or lawful permanent resident alien of the United States;*

3) *he or she is a member of a racial minority identified in the Act;*

4) *he or she has earned a baccalaureate degree from an institution of higher learning;*

~~5) *he or she has earned any educational diploma at an institution of education located in this state or he or she is an Illinois resident for no less than three years prior to applying for the grant;*~~

5 ~~6~~) he or she has been admitted as a student pursuing a doctoral, master's, or postbaccalaureate professional degree and will pursue this degree objective at least as a half-time student, as defined by the institution.

6 ~~7~~) he or she has signed an agreement to meet the Act's employment conditions if an ICEOP award is accepted;

7 ~~8~~) *his or her financial resources are such that in the absence of a ICEOP grant the individual will be prevented from pursuing a graduate or professional degree at the institution; and*

8 ~~9~~) *he or she has above-average academic ability to pursue a graduate or professional degree,* as evidenced by the following:

A) *completion of a baccalaureate degree from an institution of higher learning* (Section 7 of The Illinois Consortium for Educational Opportunity Act (the Act), Ill. Rev. Stat. 1989, ch. 144, par. 2307);

B) minimum grade point average of C+ (2.75 on a grade scale of 4.00 = A) in the last 60 hours of undergraduate work; and

C) admission to a post-baccalaureate degree program at an ICEOP participating institution.

c) In order to maintain eligibility in the program and in order to be considered for subsequent ICEOP grants, an awardee must meet scholastic requirements and eligibility for financial assistance as required by the institution in which she or he is enrolled as an ICEOP participant.

(Source: Amended at 15 Ill. Reg. , effective)

ILLINOIS CONSORTIUM FOR EDUCATIONAL OPPORTUNITY

NOTICE OF PROPOSED AMENDMENTS

Section 2400.50 Fulfillment of the Conditions of the Award

a) *As a condition for acceptance of the award, the recipient shall agree to accept one of the following:*

1) *A teaching or nonteaching full-time appointment at an Illinois institution of higher learning~~education~~; or*

2) *A position at one of the higher education governing boards; or*

3) *A position as an employee of this State in an education related capacity* which the Consortium Board determines to be education related. Such positions may include but shall not be limited to administrative positions in State elementary/secondary and higher education agencies.

b) *The recipient shall accept such position or positions for a period equal to the number of years that he or she was a participant in the ICEOP (Section 10 of the Act).*

c) Failure of the recipient to fulfill the award conditions as provided for in Subsections (a) or (b) above shall require the recipient to repay 20 percent of the total amount of the award on a ten-year repayment schedule.

d) All grants shall be subject to the provisions of the Illinois Grant Funds Recovery Act (Ill. Rev. Stat. 1989, ch. 127, pars. 2206 et seq.).

(Source: Amended at 15 Ill. Reg. , effective)

DEPARTMENT OF EMPLOYMENT SECURITY

NOTICE OF PROPOSED REPEALER

1) Heading of the Part: Supplemental Federal Benefits

2) Code Citation: 56 Ill. Adm. Code 2875

3)

Section Number:	Proposed Action:
2875.1	Repealed Section

2875.60	Repealed Section

4) Statutory Authority: Implementing and authorized by the Federal Supplemental Compensation Act of 1982 (P.L. 97-248) and Sections 1700 and 1701 of the Unemployment Insurance Act (Ill. Rev. Stat. 1989, ch. 48, par. 610 and 611).

5) A Complete Description of the Subjects and Issues Involved: This proposed amendment to Part 2865 repeals Subpart A: General Provisions. This subpart was adopted in 1982 when the Federal Supplemental Compensation program was enacted by the United Stated Congress. However, benefits have not been payable under that program now for several years. Therefore, these rules no longer have any practical application.

6) Will the proposed amendment replace an emergency amendment currently in effect? No.

7) Does this rulemaking contain an automatic repeal date? No.

8) Does this proposed amendment contain an incorporation by reference pursuant to Section 6.02 of the Illinois Administrative Procedure Act? No.

9) Are there any other proposed amendments pending on this Part? No.

10) Statement of Statewide Policy Objective? Not Applicable.

DEPARTMENT OF EMPLOYMENT SECURITY

NOTICE OF PROPOSED REPEALER

11) Time, Place and Manner in which interested persons may comment on this Proposed Rulemaking: All persons who submit a request to comment regarding this proposed amendment within 20 days after this notice has been published in the ILLINOIS REGISTER will be given a reasonable opportunity to submit data, views, arguments or comments. The request shall be addressed to:

Stella Adams Cuthbert, Commissioner
Illinois Department of Employment Security

NOTICE OF PROPOSED REPEALER

SUBPART A: GENERAL PROVISIONS (Repealed)

Section 2875.1 Federal Supplemental Compensation (Repealed)

~~Federal Supplemental Compensation is a program that provides supplemental unemployment benefits for up to ten weeks during the period beginning September 12, 1982 and ending March 31, 1983 under the conditions specified in Federal Supplemental Compensation Act of 1982 to individuals who are eligible to receive the benefits pursuant to 56 Ill. Adm. Code 2875.5. These benefits shall hereafter be referred to as Federal Supplemental Compensation or FSC benefits.~~

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

Section 2875.5 Eligibility Requirements For FSC Benefits (Repealed)

~~a) An individual is entitled to FSC benefits if:~~

~~1) During the base period of the benefit year with respect to which he is an exhaustee as defined in Section 409C of the Act and in 56 Ill. Adm. Code 2875.10, he had been paid wages for insured work equal to or greater than one and one half (1 1/2) times the wages paid in the calendar quarter of his base period in which such wages were highest;~~

~~2) His week of unemployment begins during the period of FSC eligibility; and~~

~~A) The individual's benefit year ends on or after June 1, 1982; or;~~

~~B) The individual was entitled to extended benefits for a week which begins on or after June 1, 1982;~~

~~3) He is an exhaustee, as defined in Section 409C of the Act and in 56 Ill. Adm. Code 2875.10, as of such week;~~

~~4) He files a timely claim for FSC benefits; and~~

~~5) He satisfies the eligibility requirements for extended benefits under the Act which, among others, include a condition that the individual shall be engaged in a systematic and sustained effort de-~~

DEPARTMENT OF EMPLOYMENT SECURITY

NOTICE OF PROPOSED REPEALER

scribed in Ill. Adm. Code 2875.15, to find and accept any work within his capabilities which may or may not be within his regular skill or customary occupation or his past rates of wages.

b) FSC benefits are payable for any week of unemployment beginning in an individual's period of eligibility defined in paragraph (a)(2) above; however, no FSC benefits may be paid to an individual for any week of unemployment which begins more than two years after the end of the individual's most recent benefit year with respect to which he is deemed an exhaustee as defined in Section 409C of the Act.

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

Section 2875.10 Definition Of Exhaustee (Repealed)

An exhaustee for the purposes of qualifying for FSC benefits, is an individual who, as of the week of unemployment:

a) Has exhausted all rights to regular unemployment benefits under the Act because he received all the regular benefits available during his benefit year based on his base period wages applicable, or where his eligibility for regular benefits ended because of the expiration of the benefit year during which regular benefits were payable;

b) Has exhausted all rights to extended benefits because he has received prior to that week all the extended benefits under the Act in his most recent eligibility period, or the individual is not entitled to extended benefits because of the ending of the eligibility period for extended benefits under the Act prior to the beginning of that week; and

c) Has no right to unemployment insurance benefits, including regular, additional, and extended benefits, with respect to that week either under the provisions of this Act, or of the law of any other state or Canada, or under the federal unemployment program for federal civilian employees (UCFE) or ex servicemen (UCX), or under the Railroad Unemployment Insurance Act, or any other similar legislation.

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

DEPARTMENT OF EMPLOYMENT SECURITY

NOTICE OF PROPOSED REPEALER

Section 2875.15 Active And Systematic Search For Work (Repealed)

a) For the purposes of FSC, an individual shall be deemed to be in active and systematic search for work if he can present tangible evidence provided in paragraph (b) below to the local unemployment office that he was engaged in such an effort during a week of unemployment.

b) The tangible evidence required in paragraph (a) above shall consist of, but not limited to, all of the following:

1) A showing that the individual persistently reviewed the newspaper advertisements for work and made an effort to contact the employers placing the advertisements, on each working day during every week as to which he applies for FSC benefits;

2) A showing that the individual actually made significant (at least 5 per week) personal contacts with prospective employers and applied for work on at least three working days during each week for which he applies for FSC benefits;

3) A showing that he has been frequenting or contacting his union hall for information regarding work prospects, if applicable;

4) Registration with the State Job Service.

c) If the claimant's failure to make a showing of his sustained and systematic job search on a particular day or days by the means indicated in paragraph (b) above is due to attending interviews, taking tests and/or physical examinations, or commuting from one place to another searching for jobs, or engaging in any other similar undertakings, he shall not be determined to have failed to meet the requirement in paragraph (a) above for that particular day or days.

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

Section 2875.20 Individual With Pending Appeal Or His Benefits Reduced Or Denied By Reason Of Disqualification (Repealed)

a) An individual shall be considered to have no rights to regular or extended benefits even though as a result of

DEPARTMENT OF EMPLOYMENT SECURITY

NOTICE OF PROPOSED REPEALER

a pending appeal from a determination which did not include some wages received during his period, it may be subsequently decided that he is entitled to more or less benefits.

b) An individual whose wage credits during a benefit year were cancelled or whose right to regular, additional or extended benefits was totally reduced shall be considered to have no rights to such benefits and he shall be eligible for FSC benefits.

c) An individual who has been denied extended benefits because he failed to accept any offer of suitable work as defined in Section 409K(3) of the Act and has not requalified under the Act, or failed to apply for any suitable work to which he was referred by the local employment office or failed to actively engage in seeking work in accordance with the provisions of Section 409K of the Act and has not requalified under the Act, shall be ineligible for the payment of FSC benefits for any week of unemployment in his eligibility period until he has been employed in each of four subsequent weeks, whether or not consecutive, and has earned remuneration equal to at least four times his weekly benefit amount.

d) An individual who has been held ineligible for benefits under the provisions of Sections 601, 602, or 603 of the Act shall be ineligible to receive FSC benefits, otherwise payable under the Federal Supplemental Compensation Act of 1982 and 56 Ill. Adm. Code 2875, with respect to any week of unemployment in his eligibility period if the individual was ineligible for extended benefits as provided by Section 409K(7) of the Act.

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

Section 2875.25 Waiting Week Not Required For FSC Benefits (Repealed)

A claimant for FSC benefits is not required to serve a waiting week before he starts receiving FSC benefits if he is otherwise eligible. However, when an individual claiming FSC benefits becomes eligible for regular benefits, he shall be required to serve a waiting week. If the first week of the new regular claim is a waiting week, no FSC benefits shall be paid for such week.

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

DEPARTMENT OF EMPLOYMENT SECURITY

NOTICE OF PROPOSED REPEALER

Section 2875.30 Claims For FSC Benefits (Repealed)

a) When an individual files an initial claim for FSC benefits, the local unemployment office shall first ascertain if regular or extended benefits are no longer available to such individual under an unemployment insurance program. Only when the Claims Adjudicator is satisfied that the claimant is an exhaustee as defined in Section 409 of the Act and in 56 Ill. Adm. Code 2875.10 shall the claim be processed under the Federal Supplemental Compensation Program.

b) Upon the filing of an initial claim for FSC benefits, the local office shall promptly make a finding of the claimant's eligibility to receive such benefits and, upon the subsequent filing of the bi-weekly certifications, a determination for each week with respect to which he claims benefits and the sum to be paid with respect to such week. The claimant shall be notified of the finding, and his last employing unit shall be informed in writing of the filing of the individual's claim for FSC benefits.

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

Section 2875.35 Right Of Appeal (Repealed)

The provisions of Section 800 and 803 of the Unemployment Insurance Act and Regulations 22, 23, 24, and 25 of the Rules and Regulations For the Administration of the Act shall be applicable to appeals from FSC findings, reconsidered findings, determinations, and reconsidered determinations.

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

Section 2875.40 Amount Of FSC Benefits (Repealed)

a) An individual's FSC weekly benefit amount with respect to any week for which he is eligible to receive FSC benefits shall be the same as his weekly benefit amount for a week of total unemployment during his applicable benefit year, as defined in 20 CFR 615.5(a)(1)(iii), revised as of April 1, 1984, which shall be adopted and incorporated by reference. If the individual has more than one weekly amount of regular compensation during his applicable benefit year, the weekly amount of FSC benefits

shall be the weekly amount specified in the Act with respect to extended benefits.

b) The individual's maximum amount shall be an amount as determined by the applicable federal law.

c) If during the period when the FSC program is in existence, an FSC claimant establishes a new benefit year which would entitle him to receive regular benefits and thereafter becomes an exhaustee as defined in 56 Ill. Adm. Code 2875.10, his subsequent FSC benefits, if any, shall be determined without regard to the amount of FSC benefits the claimant has already received based on the previous benefit year.

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

Section 2875.45 Effect Of Trade Readjustment Allowance (TRA) And Disaster Unemployment Assistance (DUA) Programs On Eligibility For And Amount Of FSC Benefits (Repealed)

a) Whenever an individual is entitled to FSC benefits for a week during his Trade Readjustment Allowance (TRA) (19 USC 2291) eligibility period, he shall not be entitled to TRA benefits for that week during such period.

b) The combination of regular, extended, Federal Supplemental Compensation, and TRA benefits cannot exceed a maximum benefit amount equal to 52 times the TRA weekly benefit amount.

c) Whenever an individual who is eligible for Disaster Unemployment Assistance (DUA) (42 USC 5177) with respect to a week of DUA unemployment is also eligible to receive FSC benefits for that week, he shall have his DUA weekly benefit amount reduced by his weekly FSC benefit amount.

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

Section 2875.50 FSC Benefits Paid To Ineligible Individuals (Repealed)

a) When FSC benefits are obtained fraudulently by an individual who knowingly makes a false statement or knowingly fails to disclose a material fact, such individuals shall be:

1) Ineligible for further FSC benefits in accordance with the provisions of Section 901 of the Act, and

2) Subject to prosecution under Section 1001 of Title 18, USC, or under state law.

b) The payment made to individuals who are entitled to receive FSC benefits shall be recovered either by recoupment from future benefits, if any, or by payment by the individual, within three years from the date the individual received the FSC benefits.

c) Recovery by recoupment may be carried out by deduction of the recoverable benefits from:

1) Any FSC benefits payable, or,

2) Unemployment benefits payable under any federal unemployment compensation law administered by the Director, such as the benefits for federal civilian employees (UCFE) or ex servicemen (UCX), or,

3) Payment of any assistance or allowance with respect to any week of unemployment under any other federal law administered by the Director.

d) No single deduction from the benefits enumerated in paragraph (c) above shall exceed 25% of the amount of the payment pursuant to 56 Ill. Adm. Code 2835.15.

e) Insofar as it is not inconsistent with the provisions of the Federal Supplemental Compensation Act of 1982 and with the applicable rules in 56 Ill. Adm. Code 2875, all applicable rules in 56 Ill. Adm. Code 2835 promulgated pursuant to Sections 900 and 901 of the Act on recoupment of benefits shall apply to the recoupment of FSC benefits paid to ineligible individuals.

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

Section 2875.55 Waiver Of Recovery Of FSC Benefits Paid To Ineligible Individuals (Repealed)

a) The recovery of FSC benefits provided in 56 Ill. Adm. Code 2875.50 may be waived if the benefits were not obtained under fraudulent circumstances as described in Section 901 of the Act and in 56 Ill. Adm. Code

DEPARTMENT OF EMPLOYMENT SECURITY

NOTICE OF PROPOSED REPEALER

~~2875.50(b) and if such recovery would be contrary to equity and good conscience as described in paragraph (b) below.~~

~~b) Recovery of FSC benefits is against equity and good conscience if it would extraordinary and lasting financial hardship to the individual. An extraordinary financial hardship shall exist if recovery of the overpayment would result directly in the individual's loss of or inability to obtain minimal necessities of food, medicine, and shelter for a period lasing more than thirty days.~~

(Source: Repealed at 15 Ill. Reg. ____, effective _____)

Section 2875.60 Application Of Laws On Extended Benefits To FSC Benefits (Repealed)

~~The requirements for eligibility and for the filing of the initial and continued claims for FSC benefits in Section 409 of the Act and the applicable rules pertaining to regular benefits, in the absence of rules on extended benefits, insofar as they are not inconsistent with the provisions of the Federal Supplemental Compensation Act of 1982 and the implementing rules in 56 Ill. Adm. Code 2875.~~

Section 2008.70 Minimum Benefit Standards

No insurance policy or subscriber contract may be advertised, solicited or issued for delivery in this State as a Medicare supplement policy which does not meet the following minimum standards. These are minimum standards and do not preclude the inclusion of other provisions or benefits which are not inconsistent with these standards.

a) General Standards.

The following standards apply to Medicare supplement policies and are in addition to all other requirements of this Part.

1) A Medicare supplement policy may not deny a claim for losses incurred more than six (6) months from the effective date of coverage for a pre-existing condition. The policy may not define a pre-existing condition more restrictively than a condition for which medical advice was given or treatment was recommended by or received from a physician within six (6) months before the effective date of coverage.

2) A Medicare supplement policy may not indemnify against losses resulting from sickness on a different basis than losses resulting from accidents;

3) A Medicare supplement policy shall provide that benefits designed to cover cost sharing amounts under Medicare will be changed automatically to coincide with any changes in the applicable Medicare deductible amount and copayment percentage

factors. Premiums may be modified to correspond with such changes;

4) A "noncancellable," "guaranteed renewable," or "noncancellable and guaranteed renewable" Medicare supplement policy shall not:

A) provide for termination of coverage of a spouse solely because of the occurrence of an event specified for termination of coverage of the insured, other than the nonpayment of premium, or

B) be cancelled or nonrenewed by the insurer solely on the grounds of deterioration of health;

5) An insurer shall:

A) ~~Except as authorized by the commissioner of this state,~~ No policy or certificate issued to an individual shall contain renewal provisions less favorable to the insured than "guaranteed renewable." ~~a~~An insurer shall neither cancel nor nonrenew a Medicare supplement policy or certificate for any reason other than nonpayment of premium or material misrepresentation.

B) If a group Medicare supplement insurance policy is terminated by the group policyholder and not replaced as provided in subsection (5)(d), the insurer shall offer certificate holders an individual Medicare supplement policy. The insurer shall offer the certificate holder at least the following choices:

(i) an individual Medicare supplement policy which provides for continuation of the benefits contained in the group policy; and

(ii) an individual Medicare supplement policy which provides only such benefits as are required to meet the minimum standards.

C) If a membership in a group is terminated, the insurer shall:

(i) offer the certificateholder such conversion opportunities as are described in Paragraph (b); or

(ii) at the option of the group policyholder, offer the certificateholder continuation of coverage under the group policy.

D) If a group Medicare supplement policy is replaced by another group Medicare supplement policy purchased by the same policyholder, the succeeding insurer shall offer coverage to all persons covered under the old group policy on its date of termination. Coverage under the new group policy shall not result in any exclusion for preexisting conditions that would have been covered under the group policy being replaced.

6) Termination of a Medicare supplement policy shall be without prejudice to any continuous loss which commenced while the policy was in force, but the extension of benefits beyond the period the policy was in force may be predicated upon the continuous total disability of the insured, limited to the duration of the policy benefit period, if any, or payment of the maximum benefits.

b) Minimum Benefit Standards.

1) Coverage of Part A Medicare eligible expenses for hospitalization to the extent not covered by Medicare from the 61st day through the 90th day in any Medicare benefit period;

2) Coverage for either all or none of the Medicare Part A inpatient hospital deductible amount;

3) Coverage of Part A Medicare eligible expenses incurred as daily hospital charges during use of Medicare's lifetime hospital inpatient reserve days;

4) Upon exhaustion of all Medicare hospital inpatient coverage including the lifetime reserve days, coverage of ninety percent (90%) of all Medicare Part A eligible expenses for hospitalization not

covered by Medicare subject to a lifetime maximum benefit of an additional 365 days;

5) Coverage under Medicare Part A for the reasonable cost of the first three (3) pints of blood (or equivalent quantities of packed red blood cells, as defined under federal regulations) unless replaced in accordance with federal regulations or already paid for under Part B;

6) Coverage for the coinsurance amount of Medicare eligible expenses under Part B regardless of hospital confinement, subject to a maximum calendar year out-of-pocket amount equal to the Medicare Part B deductible [$75] maximum benefit.

7) Effective January 1, 1990, coverage under Medicare Part B for the reasonable cost of the first three (3) pints of blood (or equivalent quantities of packed red blood cells, as defined under federal regulations) (42 CFR 409.87(a) 1988, no subsequent dates or editions) unless replaced in accordance with federal regulations (42 CFR 209.87(b) 1988, no subsequent dates or editions) or already paid for under Part A, subject to the Medicare deductible amount.

c) Medicare Eligible Expenses.

Medicare eligible expenses shall mean health care expenses of the kinds covered by Medicare, to the extent recognized as reasonable by Medicare. Payment of benefits by insurers for Medicare eligible expenses may be conditioned upon the same or less restrictive payment conditions, including determinations of medical necessity as are applicable to Medicare claims.

(Source: Amended at 15 Ill. Reg. _____, effective _____)

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

1) The Heading of the Part: Definitions and General Provisions

2) Code Citation: 35 Ill. Adm. Code 211

3) Section Number: Proposed Action:

211.122 Amend

4) Statutory Authority: Ill. Rev. Stat. 1989, ch.111½, par. 1027

5) A Complete Description of the Subjects and Issues Involved:

The proposed regulations are applicable to a single portland cement manufacturing plant and related quarry operations owned and operated by Lone Star Industries in Oglesby, Illinois. The proposed regulatory changes would amend Part 211, Definitions General Provisions, 35 Ill. Adm. Code 211.122 and Part 212, Visible and Particulate Matter Emissions, 35 Ill. Adm. Code 212.110, 212.111, 212.113, 212.423 and 212.424. The proposed rule is a federally required rule as defined in Section 28.2(a) of the Illinois Environmental Protection Act ("Act"). The proposed rule is intended to satisfy the federal requirements for a State Implementation Plan ("SIP") for PM-10 for the Oglesby, Illinois area, which area is designated as a "moderate" nonattainment area. The 1990 Clean Air Act Amendments require submission of a PM-10 SIP by Illinois by November 15, 1991.

6) Will this proposed rule replace an emergency rule currently in effect? No.

7) Does this rulemaking contain an automatic repeal date? _____ Yes _X_ No

8) Does this proposed amendment contain incorporations by reference? No.

9) Are there any other amendments pending on this Part?

Yes. In R88-14 Pharmaceutical Manufacturing VOM Emissions.

Section Numbers: Proposed Action: Ill. Reg. Citation:

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

211.122	Amend	June 1, 1990 14 Ill. Reg. 8463

10) Statement of Statewide Policy Objective (if applicable)?

The Agency's policy objective is to propose enforceable State regulations for submission to the USEPA as the PM-10 State Implementation Plan (SIP) for the Oglesby, Illinois area that will bring about attainment and maintenance of the National Ambient Air Quality Standards (NAAQS) for PM-10. See also Ill. Rev. Stat. 1989, ch. 111½, para 1008.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking:

Send written comments concerning R91-6 within 45 days of publication in the Illinois Register to the Clerk of the Pollution Control Board, 100 West Randolph Street, Suite 11-500, Chicago, Illinois 60601.

12) Initial Regulatory Flexibility Analysis (if applicable):

A) Date rule submitted to Business Assistance Office of the Department of Commerce and Community Affairs: March 5, 1991

B) Types of small businesses affected: None

C) Reporting, bookkeeping or other procedures required for compliance: None

D) Types of professional skills necessary for compliance: None

The full text of the adopted amendments begins on the next page:

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

Reg. 9141, effective May 23, 1990; amended in R91-6 at 15 Ill. Reg._____, effective _____.

SUBPART B: DEFINITIONS

Section 211.122 Definitions

"Accumulator": The reservoir of a condensing unit receiving the condensate from a surface condenser.

"Acid Gases": For the purposes of Section 9.4 of the Environmental Protection Act (the Act) (Ill. Rev. Stat. 1989, ch. 111 ½, par. 1009.4), hydrogen chloride, hydrogen fluoride and hydrogen bromide, which exist as gases, liquid mist, or any combination thereof.

"Actual Heat Input": The quantity of heat produced by the combustion of fuel using the gross heating value of the fuel.

"Aeration": The practice of forcing air through bulk stored grain to maintain the condition of the grain.

"Afterburner": A device in which materials in gaseous effluents are combusted.

"Air Dried Coating": Coatings that dry by the use of air or forced air at temperatures up to 363.15° K (194° F).

"Annual Grain Through-Put": Unless otherwise shown by the owner or operator, annual grain through-put for grain-handling operations, which have been in operation for three consecutive years prior to June 30, 1975, shall be determined by adding grain receipts and shipments for the three previous fiscal years and dividing the total by 6. The annual grain through-put for grain-handling operations in operation for less than three consecutive years prior to June 30, 1975, shall be determined by a reasonable three-year estimate; the owner or operator shall document the reasonableness of his three-year estimate.

"Architectural Coating": Any coating used for residential or commercial buildings or their

appurtenances, or for industrial buildings which is site applied.

"Asphalt": The dark-brown to black cementitious material (solid, semisolid or liquid in consistency) of which the main constituents are bitumens which occur natrually or as a residue of petroleum refining.

"Asphalt Prime Coat": A low-viscosity liquid asphalt applied to an absorbent surface as the first of more than one asphalt coat.

"Automobile": Any first division motor vehicle as that term is defined in the Illinois Vehicle Code (Ill. Rev. Stat. 1989, ch. 95½, pars 1-100 et seq.).

"Automobile or Light-Duty Truck Manufacturing Plant": A facility where parts are manufactured or finished for eventual inclusion into a finished automobile or light-duty truck ready for sale to vehicle dealers, but not including customizers, body shops and other repainters.

"Automobile or Light Duty Truck Refinishing": The repainting of used automobiles or light duty trucks.

"Batch Loading": The process of loading a number of individual parts at the same time for degreasing.

"Bead-Dipping": The dipping of an assembled tire bead into a solvent-based cement.

"British Thermal Unit": The quantity of heat required to raise one pound of water from 60° F to 61° F (abbreviated btu).

"Bulk Gasoline Plant": Any gasoline storage and distribution facility that receives gasoline from bulk gasoline terminals by delivery vessels and distributes gasoline to gasoline dispensing facilities.

"Bulk Gasoline Terminal": Any gasoline storage and distribution facility that receives gasoline by pipeline, ship or barge, and distributes gasoline to bulk gasoline plants or gasoline dispensing facilities.

"Can Coating": The application of a coating material to a single walled container that is manufactured from

metal sheets thinner than 29 gauge (0.0141 in).

"Certified Investigation": A report signed by Illinois Environmental Protection Agency (Agency) personnel certifying whether a grain-handling operation (or portion thereof) or grain-drying operation is causing or tending to cause air pollution. Such report must describe the signatory's investigation, including a summary of those facts on which he relies to certify whether the grain-handling or grain-drying operation is causing or threatening or allowing the discharge or emission of any contaminant into the environment so as to cause or tend to cause air pollution in Illinois, either alone or in combination with contaminants from other sources, or so as to violate regulations or standards adopted by the Pollution Control Board (Board) under the Environmental Protection Act (Act). The certified investigation shall be open to a reasonable public inspection and may be copied upon payment of the actual cost of reproducing the original.

"Choke Loading": That method of transferring grain from the grain-handling operation to any vehicle for shipment or delivery which precludes a free fall velocity of grain from a discharge spout into the receiving container.

"Cleaning and Separating Operation": That operation where foreign and undesired substances are removed from the grain.

"Clear Coating": Coatings that lack color and opacity or are transparent using the undercoat as a reflectant base or undertone color.

"Closed Purge System": A system that is not open to the atmosphere and that is composed of piping, connections, and, if necessary, flow inducing devices that transport liquid or vapor from a piece or pieces of equipment to a control device, or return the liquid or vapor to the process line.

"Closed Vent System": A system that is not open to the atmosphere and that is composed of piping, connections, and, if necessary, flow inducing devices that transport gas or vapor from a piece or pieces of equipment to a control device, or return the gas or vapor to the

process line.

"Coal Refuse": Waste products of coal mining, cleaning and coal preparation operations containing coal, matrix material, clay and other organic and inorganic material.

"Coating": For purposes of this Part, a coating includes a material applied to a substrate for decorative, protective or other functional purposes. Such material include, but are not limited to paints, varnishes, sealers, adhesives, diluents and thinners.

"Coating Applicator": Equipment used to apply a surface coating.

"Coating Line": An operation where a surface coating is applied to a material and subsequently the coating is dried and/or cured.

"Coating Plant": Any building, structure or installation that contains a coating line and which is located on one or more contiguous or adjacent properties and which is owned or operated by the same person (or by persons under common control).

"Coil Coating": The application of a coating material to any flat metal sheet or strip that comes in rolls or coils.

"Cold Cleaning": The process of cleaning and removing soils from surfaces by spraying, brushing, flushing or immersion while maintaining the organic solvent below its boiling point. Wipe cleaning is not included in this definition.

"Complete Combustion": A process in which all carbon contained in a fuel or gas stream is converted to carbon dioxide.

"Component": Any piece of equipment which has the potential to leak volatile organic material including, but not limited to, pump seals, compressor seals, seal oil degassing vents, pipeline valves, pressure relief devices, process drains and open ended valves. This definition excludes valves which are not externally regulated, flanges, and equipment in heavy liquid service. For purposes of 35 Ill. Adm. Code 215, Subpart Q, this definition also excludes bleed ports of gear pumps in polymer service.

"Concentrated Nitric Acid Manufacturing Process": Any acid producing facility manufacturing nitric acid with a concentration equal to or greater than 70 percent by weight.

"Condensate": Hydrocarbon liquid separated from its associated gasses which condenses due to changes in the temperature or pressure and remains liquid at standard conditions.

"Condensible Particulate Matter": Particulate matter formed immediately or shortly after a discharge to the atmosphere, as measured by the applicable test method specified in 35 Ill. Adm. Code 212.110. Condensible particulate matter exists in gaseous and/or vapor form prior to release to the atmosphere e.g., in the stack, and forms particulate matter upon condensation, when subject to conditions of cooling and dilution in the atmosphere.

"Control Device": For purposes of Subpart Q, an enclosed combustion device, vapor recovery system, flare, or closed container.

"Conveyorized Degreasing": The continuous process of cleaning and removing soils from surfaces utilizing either cold or vaporized solvents.

"Crude Oil": A naturally occurring mixture which consisits of hydrocarbons and sulfur, nitrogen or oxygen derivatives of hydrocarbons and which is a liquid at standard conditions.

"Crude Oil Gathering": The transportation of crude oil or condensate after custody transfer between a production facility and a reception point.

"Custody Transfer": The transfer of produced petroleum and/or condensate after processing and/or treating in the producing operations, from storage tanks or automatic transfer facilities to pipelines or any other forms of transportation.

"Cutback Asphalt": Any asphalt which has been liquified

by blending with petroleum solvents other than residual fuel oil and has not been emulsified with water.

"Degreaser": Any equipment or system used in solvent cleaning.

"Delivery Vessel": Any tank truck or trailer equipped with a storage tank that is used for the transport of gasoline to a stationary storage tank at a gasoline dispensing facility, bulk gasoline plant or bulk gasoline terminal.

"Distillate Fuel Oil": Fuel oils of grade No. 1 or 2 as specified in detailed requirements for fuel oil A.S.T.M. D-369-69 (1971).

"Dry Cleaning Facility": A facility engaged in the cleaning of fabrics using an essentially nonaqueous solvent by means of one or more solvent washes, extraction of excess solvent by spinning and drying by tumbling in an airstream. The facility includes, but is not limited to, washers, dryers, filter and purification systems, waste disposal systems, holding tanks, pumps and attendant piping and valves.

"Dump-Pit Area": Any area where grain is received at a grain-handling or grain-drying operation.

"Effective Grate Area": That area of a dump-pit grate through which air passes, or would pass, when aspirated.

"Effluent Water Separator": Any tank, box, sump or other apparatus in which any organic material floating on or entrained or contained in water entering such tank, box, sump or other apparatus is physically separated and removed from such water prior to outfall, drainage or recovery of such water.

"Emission Rate": Total quantity of any air contaminant discharge into the atmosphere in any one-hour period.

"End Sealing Compound Coat": A compound applied to can ends which functions as a gasket when the end is assembled on the can.

"Excess Air": Air supplied in addition to the theoretical quantity necessary for complete combustion

of all fuel and/or combustible waste material.

"Excessive Release": A discharge of more than 295g (0.65 pounds) of mercaptans and/or hydrogen sulfide into the atmosphere in any five minute period.

"Existing Grain-Drying Operation": Any grain-drying operation the construction or modification of which was commenced prior to June 30, 1975.

"Existing Grain-Handling Operation": Any grain-handling operation the construction or modification of which was commenced prior to June 30, 1975.

"Exterior Base Coat": An initial coating applied to the exterior of a can after the can body has been formed.

"Exterior End Coat": A coating applied by rollers or spraying to the exterior end of a can.

"External Floating Roof": A storage vessel cover in an open top tank consisting of a double deck or pontoon single deck which is supported by the petroleum liquid being contained and is equipped with a closure seal between the deck edge and tank wall.

"Extreme Performance Coating": Coatings designed for exposure to any of the following: the ambient weather conditions, temperatures above 368.15° K (203° F), detergents, abrasive and scouring agents, solvents, corrosive atmospheres, or other similar extreme environmental conditions.

"Fabric Coating": The coating of a textile substrate.

"Final Repair Coat": The repainting of any coating which is damaged during vehicle assembly.

"Firebox": The chamber or compartment of a boiler or furnace in which materials are burned, but not the combustion chamber or afterburner of an incinerator.

"Flexographic Printing": The application of words, designs and pictures to a substrate by means of a roll printing technique in which the pattern to be applied is raised above the printing roll and the image carrier is made of elastomeric materials.

"Floating Roof": A roof on a stationary tank, reservoir or other container which moves vertically upon change in volume of the stored material.

"Freeboard Height": For open top vapor degreasers, the distance from the top of the vapor zone to the top of the degreaser tank. For cold cleaning degreasers, the distance from the solvent to the top of the degreaser tank.

"Fuel Combustion Emission Source": Any furnace, boiler or similar equipment used for the primary purpose of producing heat or power by indirect heat transfer.

"Fuel Gas System": A system for collection of refinery fuel gas including, but not limited to, piping for collecting tail gas from various process units, mixing drums and controls and distribution piping.

"Fugitive Particulate Matter": Any particulate matter emitted into the atmosphere other than through a stack, provided that nothing in this definition or in 35 Ill. Adm. Code 212, Subpart K shall exempt any source from compliance with other provisions of 35 Ill. Adm. Code 212 otherwise applicable merely because of the absence of a stack.

"Gas Service": Means that the component contains process fluid that is in the gaseous state at operating conditions.

"Gasoline": Any petroleum distillate having a Reid vapor pressure of 4 pounds or greater.

"Gasoline Dispensing Facility": Any site where gasoline is transferred from a stationary storage tank to a motor vehicle gasoline tank used to provide fuel to the engine of that motor vehicle.

"Grain": The whole kernel or seed of corn, wheat, oats, soybeans and any other cereal or oil seed plant; and the normal fines, dust and foreign matter which results from harvesting, handling or conditioning. The grain shall be unaltered by grinding or processing.

"Grain-Drying Operation": Any operation, excluding

aeration, by which moisture is removed from grain and which typically uses forced ventilation with the addition of heat.

"Grain-Handling and Conditioning Operation": A grain storage facility and its associate grain transfer, cleaning, drying, grinding and mixing operations.

"Grain-Handling Operation": Any operation where one or more of the following grain-related processes (other than grain-drying operation, portable grain-handling equipment, one-turn storage space, and excluding flour mills and feed mills) are performed: receiving, shipping, transferring, storing, mixing or treating of grain or other processes pursuant to normal grain operations.

"Green Tire Spraying": The spraying of green tires, both inside and outside, with release compounds which help remove air from the tire during molding and prevent the tire from sticking to the mold after curing.

"Green Tires": Assembled tires before molding and curing have occurred.

"Gross Heating Value": Amount of heat produced when a unit quantity of fuel is burned to carbon dioxide and water vapor, and the water vapor condensed as described in A.S.T.M. D-2015-66, D-900-55, D-1826-64 and D-240-64.

"Heavy Liquid": Liquid with a true vapor pressure of less than 0.3 kPa (0.04 psi) at 294.3° K (70° F) or 0.1 Reid Vapor Pressure as determined by A.S.T.M. method D-323; or which when distilled requires a temperature of 300° F or greater to recover 10% of the liquid as determined by A.S.T.M. method D-86.

"Heavy Metals": For the purposes of Section 9.4 of the Act, elemental, ionic, or combined forms of arsenic, cadmium, mercury, chromium, nickel and lead.

"Heavy, Off-Highway Vehicle Products": For the purposes of Section 215.204(k), heavy off-highway vehicle products shall include: heavy construction, mining, farming or material handling equipment; heavy industrial engines; diesel-electric locomotives and associated power generation equipment; and the components of such

equipment or engines.

"Hot Well": The reservoir of a condensing unit receiving the condensate from a barometric condenser.

"Housekeeping Practices": Those activities specifically defined in the list of housekeeping practices developed by the Joint EPA - Industry Task Force and included herein under 35 Ill. Adm. Code 212.461.

"Incinerator": Combustion apparatus in which refuse is burned.

"Indirect Heat Transfer": Transfer of heat in such a way that the source of heat does not come into direct contact with process materials.

"In-Process Tank": A container used for mixing, blending, heating, reacting, holding, crystallizing, evaporating, or cleaning operations in the manufacture of pharmaceuticals.

"In-situ Sampling Systems": Nonextractive samplers or in-line samplers.

"Interior Body Spray Coat": A coating applied by spray to the interior of a can after the can body has been formed.

"Internal Transferring Area": Areas and associated equipment used for conveying grain among the various grain operations.

"Large Appliance Coating": The application of a coating material to the component metal parts (including but not limited to doors, cases, lids, panels and interior support parts) of residential and commercial washers, dryers, ranges, refrigerators, freezers, water heaters, dishwashers, trash compactors, air conditioners and other similar products.

"Light-Duty Truck": Any second division motor vehicle, as that term is defined in the Illinois Vehicle Code, (Ill. Rev. Stat. 1989, ch. 95½, pars. 1-100 et seq.) weighing less than 3854 kilograms (8500 pounds) gross.

"Liquid-Mounted Seal": A primary seal mounted in

continuous contact with the liquid between the tank wall and the floating roof edge around the circumference of the roof.

"Liquid Service": Means that the equipment or component contains process fluid that is in a liquid state at operating conditions.

"Liquids Dripping": Any visible leaking from a seal including spraying, misting, clouding and ice formation.

"Load-Out Area": Any area where grain is transferred from the grain-handling operation to any vehicle for shipment or delivery.

"Low Solvent Coating": A coating which contains less organic solvent than the conventional coatings used by the industry. Low solvent coatings include water-borne, higher solids, electro-deposition and powder coatings.

"Magnet Wire Coating": The application of a coating of electrically insulating varnish or enamel to conducting wire to be used in electrical machinery.

"Major Dump Pit": Any dump pit with an annual grain through-put of more than 300,000 bushels, or which receives more than 40% of the annual grain through-put of the grain-handling operation.

"Major Metropolitan Area (MMA)": Any county or group of counties which is defined by the following Table:

MAJOR METROPOLITAN AREAS IN ILLINOIS (MMA's)

MMA	COUNTIES INCLUDED IN MMA
Champaign-Urbana	Champaign
Chicago	Cook, Lake, Will, DuPage, McHenry, Kane, Grundy, Kendall, Kankakee
Decatur	Macon
Peoria	Peoria, Tazewell
Rockford	Winnebago
Rock Island -- Moline	Rock Island
Springfield	Sangamon
St. Louis (Illinois)	St. Clair, Madison
Bloomlington -- Normal	McLean

"Major Population Area (MPA)": Areas of major population concentration in Illinois, as described below:

The area within the counties of Cook; Lake; DuPage; Will; the townships of Burton, Richmond, McHenry, Greenwood, Nunda, Door, Algonquin, Grafton and the municipality of Woodstock, plus a zone extending two miles beyond the boundary of said municipality located in McHenry County; the townships of Dundee, Rutland, Elgin, Plato, St. Charles, Campton, Geneva, Blackberry, Batavia, Sugar Creek and Aurora located in Kane County; and the municipalities of Kankakee, Bradley and Bourbonnais, plus a zone extending two miles beyond the boundaries of said municipalities in Kankakee County.

The area within the municipalities of Rockford and Loves Park, plus a zone extending two miles beyond the boundaries of said municipalities.

The area within the municipalities of Rock Island, Moline, East Moline, Carbon Cliff, Milan, Oak Grove, Silvis, Hampton, Greenwood and Coal Valley, plus a zone extending two miles beyond the boundaries of said municipalities.

The area within the municipalities of Galesburg and East Galesburg, plus a zone extending two miles beyond the boundaries of said municipalities.

The area within the municipalities of Bartonville, Peoria and Peoria Heights, plus a zone extending two miles beyond the boundaries of said municipalities.

The area within the municipalities of Pekin, North Pekin, Marquette Heights, Creve Coeur and East Peoria, plus a zone extending two miles beyond the boundaries of said municipalities.

The area within the municipalities of Bloomington and Normal, plus a zone extending two miles beyond the boundaries of said municipalities.

The area within the municipalities of Champaign,

Urbana and Savoy, plus a zone extending two miles beyond the boundaries of said municipalities.

The area within the municipalities of Decatur, Mt. Zion, Harristown and Forsyth, plus a zone extending two miles beyond the boundaries of said municipalities.

The area within the municipalities of Springfield, Leland Grove, Jerome, Southern View, Grandview, Sherman and Chatham, plus a zone extending two miles beyond the boundaries of said municipalities.

The area within the townships of Godfrey, Foster, Wood River, Fort Russell, Chouteau, Edwardsville, Venice, Nameoki, Alton, Granite City and Collinsville located in Madison County; and the townships of Stites, Canteen, Centreville, Caseyville, St. Clair, Sugar Loaf and Stookey located in St. Clair County.

"Manufacturing Process": A process emission source or series of process emission sources used to convert raw materials, feed stocks, subassemblies or other components into a product, either for sale or for use as a component in a subsequent manufacturing process.

"Metal Furniture Coating": The application of a coating material to any furniture piece made of metal or any metal part which is or will be assembled with other metal, wood, fabric, plastic or glass parts to form a furniture piece including, but not limited to, tables, chairs, wastebaskets, beds, desks, lockers, benches, shelving, file cabinets, lamps and room dividers. This definition shall not apply to any coating line coating metal parts or products that is identified under the Standard Industrial Classification Code for Major Groups 33, 34, 35, 36, 37, 38, 39, 40 or 41.

"Miscellaneous Fabricated Product Manufacturing Process":

A manufacturing process involving one or more of the following applications, including any drying and curing of formulations, and capable of emitting volatile organic material:

Adhesives to fabricate or assemble non-furniture components or products

Asphalt solutions to paper or fiberboard

Asphalt to paper or felt

Coatings or dye to leather

Coatings to plastic

Coatings to rubber or glass

Curing of furniture adhesives in an oven which would emit in excess of 10 tons of volatile organic material per year if no air pollution control equipment were used

Disinfectant material to manufactured items

Plastic foam scrap or "fluff" from the manufacture of foam containers and packaging material to form resin pellets

Resin solutions to fiber substances

Rubber solutions to molds

Viscose solutions for food casings

The storage and handling of formulations associated with the process described above.

The use and handling of organic liquids and other substances for clean-up operations associated with the process described above.

"Miscellaneous Formulation Manufacturing Process":

A manufacturing process which compounds one or more of the following and is capable of emitting volatile organic material:

Adhesives

Asphalt solutions

Caulks, sealants or waterproofing agents

Coatings, other than paint and ink

Concrete curing compounds

Dyes

Friction materials and compounds

Resin solutions

Rubber solutions

Viscose solutions

The storage and handling of formulations associated with the process described above.

The use and handling of organic liquids and other substances for clean-up operations associated with the process described above.

"Miscellaneous Metal Parts and Products": For the purpose of 35 Ill. Adm. Code 215.204, miscellaneous metal parts and products shall include farm machinery, garden machinery, small appliances, commercial machinery, industrial machinery, fabricated metal products and any other industrial category which coats metal parts or products under the Standard Industrial Classification Code for Major Groups 33, 34, 35, 36, 37, 38 or 39 with the exception of the following: coating lines subject to 35 Ill. Adm. Code 215.204(a)-(i) and (k), automobile or light-duty truck refinishing, the exterior of marine vessels and the customized top coating of automobiles and trucks if production is less than thirty-five vehicles per day.

"Miscellaneous Organic Chemical Manufacturing Process":

A manufacturing process which produces by chemical reaction, one or more of the following organic compounds or mixtures of organic compounds and which is capable of emitting volatile organic materials:

Chemicals listed in 35 Ill. Adm. Code 215,

Appendix D.

Chlorinated and sulfonated compounds

Cosmetic, detergent, soap or surfactant intermediaries or specialties and products

Disinfectants

Food additives

Oil and petroleum product additives

Plasticizers

Resins or polymers

Rubber additives

Sweeteners

Varnishes

The storage and handling of formulations associated with the process described above.

The use and handling of organic liquids and other substances for clean-up operations associated with the process described above.

"Mixing Operation": The operation of combining two or more ingredients, of which at least one is a grain.

"New Grain-Drying Operation": Any grain-drying operation the construction or modification of which is commenced on or after June 30, 1975.

"New Grain-Handling Operation": Any grain-handling operation the construction of modification of which is commenced on or after June 30, 1975.

"No Detectable Volatile Organic Material Emissions": A discharge of volatile organic material into the atmosphere as indicated by an instrument reading of less than 500 ppm above background as determined in accordance with 40 CFR 60.485(c).

"One Hundred Percent Acid": Acid with a specific gravity of 1.8205 at 30° C in the case of sulfuric acid and 1.4952 at 30° C in the case of nitric acid.

"One-Turn Storage Space": That space used to store grain with a total annual through-put not in excess of

the total bushel storage of that space.

"Opacity": A condition which renders material partially or wholly impervious to transmittance of light and causes obstruction of an observer's view. For the purposes of these regulations, the following equivalence between opacity and Ringelmann shall be employed:

Opacity Percent	Ringelmann
10	0.5
20	1.
30	1.5
40	2.
60	3.
80	4.
100	5.

"Open Top Vapor Degreasing": The batch process of cleaning and removing soils from surfaces by condensing hot solvent vapor on the colder metal parts.

"Operator of Gasoline Dispensing Facility": Any person who is the lessee of or operates, controls or supervises a gasoline dispensing facility.

"Organic Material": Any chemical compound of carbon including diluents and thinners which are liquids at standard conditions and which are used as dissolvers, viscosity reducers or cleaning agents, but excluding methane, carbon monoxide, carbon dioxide, carbonic acid, metallic carbonic acid, metallic carbide, metallic carbonates and ammonium carbonate.

"Organic Materials": For the purposes of Section 9.4 of the Act, any chemical compound of, carbon including diluents and thinners which are liquids at standard conditions and which are used as dissolvers, viscosity reducers or cleaning agents, and polychlorinated dibenzo-p-dioxins, polychlorinated dibenzofurans and

polynuclear aromatic hydrocarbons are organic materials, while methane, carbon monoxide, carbon dioxide, carbonic acid, metallic carbonic acid, metallic carbide, metallic carbonates and ammonium carbonate are organic materials.

"Organic Vapor": Gaseous phase of an organic material or a mixture of organic materials present in the atmosphere.

"Overvarnish": A coating applied directly over ink or printing.

"Owner of Gasoline Dispensing Facility": Any person who has legal or equitable title to a stationary storage tank at a gasoline dispensing facility.

"Packaging Rotogravure Printing": Rotogravure printing upon paper, paper board, metal foil, plastic film and other substrates, which are, in subsequent operations, formed into packaging products or labels for articles to be sold.

"Paint Manufacturing Plant": A plant that mixes, blends, or compounds enamels, lacquers, sealers, shellacs, stains, varnishes or pigmented surface coatings.

"Paper Coating": The application of a coating material to paper or pressure sensitive tapes, regardless of substrate, including web coating on plastic fibers and decorative coatings on metal foil.

"Particulate Matter": Any solid or liquid material, other than water, which exists in finely divided form.

"Petroleum Liquid": Crude oil, condensate or any finished or intermediate product manufactured at a petroleum refinery, but not including Number 2 through Number 6 fuel oils as specified in A.S.T.M. D-396-69, gas turbine fuel oils Numbers 2-GT through 4-GT as specified in A.S.T.M. D-2880-71 or diesel fuel oils Numbers 2-D and 4-D, as specified in A.S.T.M. D-975-68.

"Petroleum Refinery": Any facility engaged in producing gasoline, kerosene, distillate fuel oils, residual fuel oils, lubricants, or other products through distillation, cracking, extraction or reforming of

unfinished petroleum derivatives.

"Pharmaceutical": Any compound or mixture, other than food, used in the prevention, diagnosis, alleviation, treatment or cure of disease in man and animal.

"Photochemically Reactive Material": Any organic material with an aggregate of more than 20 percent of its total volume composed of the chemical compounds classified below or the composition of which exceeds any of the following individual percentage composition limitations. Whenever any photochemically reactive material or any constituent of any organic material may be classified from its chemical structure into more than one of the above groups of organic materials it shall be considered as a member of the most reactive group, that is, the group having the least allowable percent of the total organic materials.

A combination of hydrocarbons, alcohols, aldehydes, esters, ethers or ketones having an olefinic or cyclo-olefinic types of unsaturation: 5 percent. This definition does not apply to perchlorethylene or trichloroethylene.

A combination of aromatic compounds with eight or more carbon atoms to the molecule except ethylbenzene: 8 percent.

A combination of ethylbenzene, ketones having branched hydrocarbon structures or toluene: 20 percent.

"PM-10": Particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers, as measured by the applicable test methods specified in 35 Ill. Adm. Code 212.110.

"Pneumatic Rubber Tire Manufacture": The production of pneumatic rubber tires with a bead diameter up to but not including 20.0 inches and cross section dimension up to 12.8 inches, but not including specialty tires for antique or other vehicles when produced on equipment separate from normal production lines for passenger or truck type tires.

"Polybasic Organic Acid Partial Oxidation Manufacturing

Process": Any process involving partial oxidation of hydrocarbons with air to manufacture polybasic acids or their anhydrides, such as maleic anhydride, phthalic anhydride, terephthalic acid, isophthalic acid, trimelletic anhydride.

"Portable Grain-Handling Equipment": Any equipment (excluding portable grain dryers) that is designed and maintained to be movable primarily for use in a non-continuous operation for loading and unloading one-turn storage space, and is not physically connected to the grain elevator, provided that the manufacturer's rated capacity of the equipment does not exceed 10,000 bushels per hour.

"Portland Cement Manufacturing Process Emission Source": Any items of process equipment or manufacturing processes used in or associated with the production of portland cement, including, but not limited to, a kiln, clinker cooler, raw mill system, finish mill system, raw material dryer, material storage bin or system, material conveyor belt transfer point, bagging operation, bulk unloading station, or bulk loading station.

"Portland Cement Process" or "Portland Cement Manufacturing Plant": Any facility or plant manufacturing portland cement by either the wet or dry process.

"Power Driven Fastener Coating": The coating of nail, staple, brad and finish nail fasteners where such fasteners are fabricated from wire or rod of 0.0254 inch diameter or greater, where such fasteners are bonded into coils or strips, such coils and strips containing a number of such fasteners, which fasteners are manufactured for use in power tools, and which fasteners must conform with formal standards for specific uses established by various federal and national organizations including Federal Specification FF-N-105b of the General Services Administration dated August 23, 1977 (does not include any later amendments or editions; U.S. Army Armament Research and Development Command, Attn: DRDAR-TST, Rock Island, IL 61201), Bulletin UM-25d of the U.S. Department of Housing and Urban Development - Federal Housing Administration dated September 5, 1973 (does not include any later amendments or editions; Department of HUD, 547 W. Jackson Blvd., Room 1005, Chicago, IL

60606), and the Model Building Code of the Council of American Building Officials, and similar standards. For the purposes of this definition, the terms "brad" and "finish nail" refer to single leg fasteners fabricated in the same manner as staples. The application of coatings to staple, brad, and finish nail fasteners may be associated with the incremental forming of such fasteners in a cyclic or repetitious manner (incremental fabrication) or with the forming of strips of such fasteners as a unit from a band of wires (unit fabrication).

"PPM (Vol) - (Parts per Million) (Volume)": A volume/volume ratio which expresses the volumetric concentration of gaseous air contaminant in a million unit volumes of gas.

"Pressure Release": The emission of materials resulting from system pressure being greater than set pressure of the pressure relief device.

"Pressure Tank": A tank in which fluids are stored at a pressure greater than atmospheric pressure.

"Prime Coat": The first film of coating material applied in a multiple coat operation.

"Prime Surfacer Coat": A film of coating material that touches up areas on the surface not adequately covered by the prime coat before application of the top coat.

"Process": Any stationary emission source other than a fuel combustion emission source or an incinerator.

"Process Unit": Components assembled to produce, as intermediate or final products, one or more of the chemicals listed in 35 Ill. Adm. Code 215 Appendix D. A process unit can operate independently if supplied with sufficient feed or raw materials and sufficient storage facilities for the product.

"Process Unit Shutdown": A work practice or operational procedure that stops production from a process unit or part of a process unit. An unscheduled work practice or operational procedure that stops production from a process unit or part of a process unit for less than 24 hours is not a process unit shutdown. The use of spare

components and technically feasible bypassing of components without stopping production is not a process unit shutdown.

"Process Weight Rate": The actual weight or engineering approximation thereof of all materials except liquid and gaseous fuels and combustion air, introduced into any process per hour. For a cyclical or batch operation, the process weight rate shall be determined by dividing such actual weight or engineering approximation thereof by the number of hours of operation excluding any time during which the equipment is idle. For continuous processes, the process weight rate shall be determined by dividing such actual weight or engineering approximation thereof by the number of hours in one complete operation, excluding any time during which the equipment is idle.

"Production Equipment Exhaust System": A system for collecting and directing into the atmosphere emissions of volatile organic material from reactors, centrifuges and other process emission sources.

"Publication Rotogravure Printing": Rotogravure printing upon paper which is subsequently formed into books, magazines, catalogues, brochures, directories, newspaper supplements or other types of non-packaging printed materials.

"Purged Process Fluid": Liquid or vapor from a process unit that contains volatile organic material and that results from flushing or cleaning the sample line(s) of a process unit so that an uncontaminated sample may then be taken for testing or analysis.

"Reactor": A vat, vessel or other device in which chemical reactions take place.

"Reasonably Available Control Technology (RACT)": The lowest emission limitation that an emission source is capable of meeting by the application of control technology that is reasonably available considering technological and economic feasibility.

"Refinery Fuel Gas": Any gas which is generated by a petroleum refinery process unit and which is combusted at the refinery, including any gaseous mixture of

natural gas and fuel gas.

"Refinery Unit, Process Unit or Unit": A set of components which are a part of a basic process operation such as distillation, hydrotreating, cracking or reforming of hydrocarbons.

"Residual Fuel Oil": Fuel oils of grade No. 4, 5 and 6 as specified in detailed requirements for fuel oils A.S.T.M. D-396-69 (1971).

"Restricted Area": The area within the boundaries of any "municipality" as defined in the Illinois Municipal Code, plus a zone extending one mile beyond the boundaries of any such municipality having a population of 1000 or more according to the latest federal census.

"Ringelmann Chart": The chart published and described in the Bureau of Mines, U.S. Department of Interior, Information Circular 8333 (Revision of IC7718) May 1, 1967, or any adaptation thereof which has been approved by the Agency.

"Roadway": Any street, highway, road, alley, sidewalk, parking lot, airport, rail bed or terminal, bikeway, pedestrian mall or other structure used for transportation purposes.

"Roll Printing": The application of words, designs and pictures to a substrate usually by means of a series of hard rubber or metal rolls each with only partial coverage.

"Rotogravure Printing": The application of words, designs and pictures to a substrate by means of a roll printing technique in which the pattern to be applied is recessed relative to the non-image area.

"Safety Relief Valve": A valve which is normally closed and which is designed to open in order to relieve excessive pressures within a vessel or pipe.

"Sandblasting": The use of a mixture of sand and air at high pressures for cleaning and/or polishing any type of surface.

"Sensor": A device that measures a physical quantity or

the change in a physical quantity such as temperature, pressure, flow rate, pH, or liquid level.

"Set of Safety Relief Valves": One or more safety relief valves designed to open in order to relieve excessive pressures in the same vessel or pipe.

"Sheet Basecoat": A coating applied to metal when the metal is in sheet form to serve as either the exterior or interior of a can for either two-piece or three-piece cans.

"Shotblasting": The use of a mixture of any metallic or non-metallic substance and air at high pressures for cleaning and/or polishing any type of surface.

"Side-Seam Spray Coat": A coating applied to the seam of a three-piece can.

"Smoke": Small gas-borne particles resulting from incomplete combustion, consisting predominately but not exclusively of carbon, ash and other combustible material, that form a visible plume in the air.

"Smokeless Flare": A combustion unit and the stack to which it is affixed in which organic material achieves combustion by burning in the atmosphere such that the smoke or other particulate matter emitted to the atmosphere from such combustion does not have an appearance density or shade darker that No. 1 of the Ringelmann Chart.

"Solvent Cleaning": The process of cleaning soils from surfaces by cold cleaning, open top vapor degreasing or conveyorized degreasing.

"Specialty High Gloss Catalyzed Coating": Commercial contract finishing of material prepared for printers and lithographers where the finishing process uses a solvent-borne coating, formulated with a catalyst, in a quantity of no more than 12,000 gallons/year as supplied, where the coating machines are sheet fed and the coated sheets are brought to a minimum surface temperature of 190° F, and where the coated sheets are to achieve the minimum specular reflectance index of 65 measured at a 60 degree angle with a gloss meter.

"Splash Loading": A method of loading a tank, railroad tank car, tank truck or trailer by use of other than a submerged loading pipe.

"Stack": A flue or conduit, free-standing or with exhaust port above the roof of the building on which it is mounted, by which air contaminants are emitted into the atmosphere.

"Standard Conditions": A temperature of 70° F and a pressure of 14.7 pounds per square inch absolute (psia).

"Standard Cubic Foot (scf)": The volume of one cubic foot of gas at standard conditions.

"Startup": The setting in operation of an emission source for any purpose.

"Stationary Emission Source": An emission source which is not self-propelled.

"Stationary Storage Tank": Any container of liquid or gas which is designed and constructed to remain at one site.

"Submerged Loading Pipe": Any loading pipe the discharge opening of which is entirely submerged when the liquid level is 6 inches above the bottom of the tank. When applied to a tank which is loaded from the side, any loading pipe the discharge of which is entirely submerged when the liquid level is 18 inches or two times the loading pipe diameter, whichever is greater, above the bottom of the tank. The definition shall also apply to any loading pipe which is continuously submerged during loading operations.

"Sulfuric Acid Mist": Sulfuric acid mist as measured according to the method specified in 35 Ill. Adm. Code 214.101(b).

"Surface Condenser": A device which removes a substance from a gas stream by reducing the temperature of the stream, without direct contact between the coolant and the stream.

"Synthetic Organic Chemical or Polymer Manufacturing Plant": A plant that produces, as intermediates or

final products, one or more of the chemicals or polymers listed in 35 Ill. Adm. Code 215, Appendix D.

"Top Coat": A film of coating material applied in a multiple coat operation other than the prime coat, final repair coat or prime surfacer coat.

"Transfer Efficiency": The weight or volume of coating adhering to the material being coated divided by the weight or volume of coating delivered to the coating applicator and multiplied by 100 to equal a percentage.

"Tread End Cementing": The application of a solvent-based cement to the tire tread ends.

"True Vapor Pressure": The equilibrium partial pressure exerted by a petroleum liquid as determined in accordance with methods described in American Petroleum Institute Bulletin 2517, "Evaporation Loss From Floating Roof Tanks" (1962).

"Turnaround": The procedure of shutting down an operating refinery unit, emptying gaseous and liquid contents to do inspection, maintenance and repair work, and putting the unit back into production.

"Undertread Cementing": The application of a solvent-based cement to the underside of a tire tread.

"Unregulated Safety Relief Valve": A safety relief valve which cannot be actuated by a means other than high pressure in the pipe or vessel which it protects.

"Vacuum Producing System": Any reciprocating, rotary or centrifugal blower or compressor, or any jet ejector or device that creates suction from a pressure below atmospheric and discharges against a greater pressure.

"Valves Not Externally Regulated": Valves that have no external controls, such as in-line check valves.

"Vapor Balance System": Any combination of pipes or hoses which creates a closed system between the vapor spaces of an unloading tank and a receiving tank such that vapors displaced from the receiving tank are transferred to the tank being unloaded.

"Vapor Collection System": All piping, seals, hoses, connections, pressure-vacuum vents, and other possible sources between the gasoline delivery vessel and the vapor processing unit and/or the storage tanks and vapor holder.

"Vapor Control System": Any system that prevents release to the atmosphere of organic material in the vapors displaced from a tank during the transfer of gasoline.

"Vapor-Mounted Primary Seal": A primary seal mounted with an air space bounded by the bottom of the primary seal, the tank wall, the liquid surface and the floating roof.

"Vinyl Coating": The application of a topcoat or printing to vinyl coated fabric or vinyl sheets.

"Volatile Organic Liquid": Any liquid which contains volatile organic material.

"Volatile Organic Material" or "Volatile Organic Material Content (VOMC)": The emissions of volatile organic material which would result from the exposure of a coating, printing ink, fountain solution, tire spray, dry cleaning waste or other similar material to the air, including any drying or curing, in the absence of any control equipment. VOMC is typically expressed as kilogram (kg) VOM/liter (lb VOM/gallon) of coating solids, or Kg VOM/Kg (lb VOM/lb) of coating material. Any organic material which participates in atmospheric photochemical reactions unless specifically exempted from this definition. Volatile organic material emissions shall be measured by the reference methods specified under 40 CFR 60, Appendix A (1986) (no future amendments or editions are included), or, if no reference method is applicable, may be determined by mass balance calculations.

For purposes of this definition, the following are not volatile organic materials:

Chlorodifluoroethane (HCFC-142b)
Chlorodifluoromethane (CFC-22)
Chloropentafluoroethane (CFC-115)
Dichlorodifluoromethane (CFC-12)

Dichlorofluoroethane (HCFC-141b)
Dichlorotetrafluoroethane (CFC-114)
Dichlorotrifluoroethane (HCFC-123)
Ethane
Methane
Dichloromethane (Methylene chloride)
Tetrafluoroethane (HFC-134a)
1,1,1-Trichloroethane (Methyl chloroform)
Trichlorofluoromethane (CFC-11)
Trichlorotrifluoroethane (CFC-113)
Trifluoromethane (FC-23)

"Volatile Petroleum Liquid": Any petroleum liquid with a true vapor pressure that is greater than 1.5 psia (78 millimeters of mercury) at standard conditions.

"Wastewater (Oil/Water) Separator": Any device or piece of equipment which utilizes the difference in density between oil and water to remove oil and associated chemicals of water, or any device, such as a flocculation tank or a clarifier, which removes petroleum derived compounds from waste water.

"Weak Nitric Acid Manufacturing Process": Any acid producing facility manufacturing nitric acid with a concentration of less than 70 percent by weight.

"Woodworking": The shaping, sawing, grinding, smoothing, polishing and making into products of any form or shape of wood.

(Source: Amended at ___ Ill. Reg. _____, effective _____)

1) The Heading of the Part: Standards for Existing Landfills and Units

2) Code Citation: 35 Ill. Adm. Code 814

3)

814.104	Amended
814.901	New Section
814.902	New Section
814.920	New Section
814.921	New Section
814.930	New Section
814.931	New Section

4) Statutory Authority: Illinois Environmental Protection Act (Ill. Rev. Stat. 1989, ch. 111 1/2, pars. 1005, 1021, 1021.1, 1022, 1022.17, 1028.1 and 1027).

5) A Complete Description of the Subjects and Issues Involved:

A description of the proposed amendments and rules in Board Docket R90-25 is contained in the Board's March 14, 1991 First Notice Opinion and Order entitled, "In the Matter of: Utilities Industry Amendments to the Landfill Regulations (Parts 810-815)". The Opinion and Order are available from the address below. The Opinion explains the reasons for the Board's proposed amendments to existing Parts 811 and 814, and proposed new Part 816, all of which appear in this issue.

In summary, the proposed amendments to Part 814 establish standards for existing landfills that dispose of coal combustion wastes generated by electric utilities as of the effective date of the proposed amendments. The proposed amendments establish requirements for new disposal units and existing disposal units within such landfills. Landfill operators are required to determine the date on which their facilities must begin closure, which is dependent upon the ability of existing units to meet the design and performance standards contained in the proposed amendments.

6) Will these proposed amendments replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Do these proposed amendments contain incorporations by reference? No

9) Are there any other amendments pending on this Part? Yes
Section Numbers: Proposed Action: Ill. Reg. Citation:

814.601	New Section	15 Ill. Reg. 3155	(March 1, 1991)
814.602	New Section	15 Ill. Reg. 3155	(March 1, 1991)
814.701	New Section	15 Ill. Reg. 3155	(March 1, 1991)
814.702	New Section	15 Ill. Ref. 3155	(March 1, 1991)
814.801	New Section	15 Ill. Reg. 3155	(March 1, 1991)

10) Statement of Statewide Policy Objective:

Part 814 imposes various requirements on existing landfills. The proposed amendments will impose alternative, less restrictive requirements on existing landfills that dispose of coal combustion wastes generated by electric utilities. The only units of local government affected by the proposed amendments are those that operate existing landfills that dispose of coal combustion wastes generated by electric utilities.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking:

The Board will accept written public comment on this proposal for a period of 45 days after the date of this publication. Comments should reference Board Docket R90-26 and be addressed to:

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
State of Illinois Center, Suite 11-500
100 West Randolph
Chicago, IL 60601

Persons who wish additional information concerning hearings and filing requirements should contact the Hearing Officer, Deborah Stonich, Illinois Pollution Control Board, State of Illinois Center, 100 W. Randolph, Suite 11-500, Chicago, IL 60601, (312) 814-6926.

12) Initial Regulatory Flexibility Analysis (if applicable):

A) Date rule submitted to Business Assistance Office of the Department of Commerce and Community Affairs:

March 18, 1991

B) Types of small businesses affected:

The proposed amendments may affect existing landfills that dispose of coal combustion wastes generated by electric utilities.

C) Reporting, bookkeeping or other procedures required for compliance:

Compliance may require a hydrogeologic investigation of a proposed landfill site, preparation of a site design and operations plan, preparation of and recordkeeping concerning a construction quality assurance plan, groundwater monitoring, recordkeeping concerning the nature of the wastes received at the site, preparation of a plan for closure and postclosure care, and receipt of a financial assurance instrument to guarantee compliance with such plan.

D) Types of professional skills necessary for compliance:

Compliance may require the services of an attorney, a registered professional engineer, a professional land surveyor, a hydrologist, and a certified public account.

The full text of the proposed amendments begins on the next page:

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

SUBPART A: GENERAL REQUIREMENTS

Section 814.104 Applications for Significant Modification of Permits

a) All operators of landfills permitted pursuant to Section 21(d) of the Environmental Protection Act (Act) (Ill. Rev. Stat. 1989, ch. 111 1/2, par. 1021(d)) shall file an application for a significant modification to their permits for existing units, unless the units will be closed pursuant to Subpart E or Subpart K within 2 years of the effective date of this Part.

b) The operator of an existing unit shall submit information required by 35 Ill. Adm. Code 812 to demonstrate compliance with Subpart B, Subpart C, ~~or~~ Subpart D, Subpart I, or Subpart J, whichever is applicable.

(Source: Amended at 15 Ill. Reg. , effective).

SUBPART I: STANDARDS FOR EXISTING ELECTRIC UTILITY FOSSIL FUEL COMBUSTION WASTE LANDFILLS WHICH REMAIN OPEN FOR MORE THAN SEVEN YEARS AFTER THE EFFECTIVE DATE OF THESE REGULATIONS, AND FOR THE CLOSURE AND POST-CLOSURE MONITORING OF EXISTING ASH POND SURFACE IMPOUNDMENTS WHICH WERE OPERATED UNDER THE NPDES PERMIT PROGRAM AND WHICH INITIATE CLOSURE MORE THAN SEVEN YEARS AFTER THE EFFECTIVE DATE OF THESE REGULATIONS

Section 814.901 Scope and Applicability

a) The standards of this Subpart are applicable to all existing units of landfills, including those exempt from permit requirements in accordance with Section 21(d) of the Act, that have accepted or accept only fossil fuel combustion wastes from electric utility boilers. Based upon the information submitted pursuant to Subpart A, and any Agency site inspection, units that meet the requirements of this Subpart may remain open for an indefinite period of time beyond seven years after the effective date of this Subpart.

b) Based upon an evaluation of the information submitted pursuant to Subpart A and any Agency site inspection, units which are unable to meet the requirements of this Subpart are subject to the requirements of Subparts J or K.

c) The closure and post-closure monitoring of ash pond units which are constructed, operated and regulated under the NPDES permit program, and which subsequently initiate closure more than seven years following the effective date of these regulations, shall upon closure be regulated under this Subpart.

(Source: Added at 15 Ill. Reg. , effective).

Section 814.902 Applicable Standards

a) All of the requirements for new units described in 35 Ill. Adm. Code 816 shall apply to units regulated under this Subpart except the following:

1) The general location standards in 35 Ill. Adm. Code 816.102;

2) The technical facility location requirements in 35 Ill. Adm. Code 816.110;

3) The foundation and mass stability analysis standards in 35 Ill. Adm. Code 816.112;

4) The foundation construction standards in 35 Ill. Adm. Code 816.113;

5) The liner system requirements in 35 Ill. Adm. Code 816.114;

6) The final cover requirements of 35 Ill. Adm Code 816.116 shall not apply to units or parts of units closed, covered and vegetated prior to the effective date of this Part; and

7) The hydrogeologic site investigation requirements in 35 Ill. Adm. Code 816.117, except that information shall be collected to implement a groundwater monitoring program in accordance with 35 Ill. Adm. Code 816.120, 816.121 and 816.122.

b) Units regulated under this Subpart shall be subject to the following standards:

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

1) The operator shall provide a long-term static safety factor of at least 1.5 to protect a completed unit against slope failure;

2) Calculation of the Design Period

For the purpose of calculating financial assurance, the design period shall be calculated as follows:

A) The design period shall be no less than the operating life of the unit plus 15 years of post-closure care; and

B) The post-closure care period shall be extended by three years for each year the unit is expected to be in operation, up to the applicable design period required by 35 Ill. Adm. Code 816.

(Source: Added at 15 Ill. Reg. , effective).

SUBPART J: STANDARDS FOR EXISTING ELECTRIC UTILITY FOSSIL FUEL COMBUSTION WASTE LANDFILLS WHICH INITIATE CLOSURE WITHIN SEVEN YEARS AFTER THE EFFECTIVE DATE OF THESE REGULATIONS, AND FOR THE CLOSURE AND POST-CLOSURE MONITORING OF EXISTING ASH POND SURFACE IMPOUNDMENTS WHICH WERE OPERATED UNDER THE NPDES PERMIT PROGRAM AND WHICH INITIATE CLOSURE WITHIN SEVEN YEARS AFTER THE EFFECTIVE DATE OF THESE REGULATIONS

Section 814.920 Scope and Applicability

a) The standards of this Subpart are applicable to all existing units of landfills, including those exempt from permit requirements in accordance with Section 21(d) of the Act, that have accepted or accept only fossil fuel combustion wastes from electric utility boilers, and which initiate closure within seven years of the effective date of these regulations.

b) Based upon an evaluation of the information submitted pursuant to Subpart A, and any Agency site inspection, units which are unable to comply with the requirements of this Section are subject to the requirements of Subpart K.

c) The closure and post-closure monitoring of ash pond units which are constructed, operated and regulated under the NPDES permit program, and which subsequently initiate closure within seven years following the effective date of these regulations, shall upon closure be regulated under this Subpart.

(Source: Added at 15 Ill. Reg. , effective).

Section 814.921 Applicable Standards

a) All of the requirements for new units described in 35 Ill. Adm. Code 816 shall apply to units regulated under this Subpart except the following:

1) The general location standards in 35 Ill. Adm. Code 816.102;

2) The technical facility location requirements in 35 Ill. Adm. Code 816.110;

3) The foundation and mass stability analysis standards in 35 Ill. Adm. Code 816.112;

4) The foundation construction standards in 35 Ill. Adm. Code 816.113;

5) The liner system requirements in 35 Ill. Adm. Code 816.114;

6) The final cover requirements of 35 Ill. Adm Code 816.116 shall not apply to units or parts of units closed, covered and vegetated prior to the effective date of this Part:

7) The hydrogeologic site investigation requirements in 35 Ill. Adm. Code 816.117;

8) The groundwater impact assessment standards of 35 Ill. Adm. Code 816.119;

9) The groundwater monitoring requirements of 35 Ill. Adm. Code 816.121; and

10) The groundwater quality standards of 35 Ill. Adm. Code 811.122.

b) The following standards shall apply to units regulated under this Subpart:

1) No new units shall be opened and an existing unit may not expand beyond the area included in a permit issued prior to the effective date of this Part, or, in the case of permit-exempt facilities, beyond the area needed for landfilling to continue until closure is initiated;

2) Groundwater Standards

A unit shall not contaminate a source of drinking water at the compliance boundary, defined as any point on the edge of the unit at or below the ground surface. At any point on the compliance boundary, the concentration of constituents shall not exceed the water quality standards specified in 35 Ill. Adm. Code 302.301, 302.303, 302.304, and 302.305. The Board may approve for a zone of attenuation and adjust the compliance boundary in accordance with Section 28.1 of the Act, and the procedures of 35 Ill. Adm. Code 106.Subpart G, upon petition demonstration by the operator that the alternative compliance boundary will not result in contamination of groundwater which may be needed or used for human consumption. In reviewing such petitions, the Board shall consider the following factors:

A) The hydrogeologic characteristics of the unit and surrounding land, including any natural attenuation and dilution characteristics of the aquifer;

B) The volume and physical and chemical characteristics of the leachate;

C) The quantity, quality and direction of flow of groundwater underlying the facility;

D) The proximity and withdrawal rates of groundwater users;

E) The availability of alternative drinking water supplies;

F) The existing quality of the groundwater, including other sources of contamination and their cumulative impacts on the groundwater;

G) Public health, safety and welfare effects; and

H) In no case shall the zone of compliance extend beyond the facility property line or beyond the annual high water mark of any navigable surface water.

3) Calculation of the Design Period

For the purpose of calculating financial assurance, the design period shall be calculated as follows:

A) The design period shall be no less than five years; and

B) The post-closure care period shall be extended by three years for each year the unit is expected to be in operation, up to the applicable design period required by 35 Ill. Adm. Code 816.

(Source: Added at 15 Ill. Reg. , effective).

SUBPART K: STANDARDS FOR EXISTING ELECTRIC UTILITY FOSSIL FUEL COMBUSTION WASTE LANDFILLS WHICH INITIATE CLOSURE WITHIN TWO YEARS AFTER THE EFFECTIVE DATE OF THESE REGULATIONS, AND FOR THE CLOSURE AND POST-CLOSURE MONITORING OF EXISTING ASH POND SURFACE IMPOUNDMENTS WHICH WERE OPERATED UNDER THE NPDES PERMIT PROGRAM AND WHICH INITIATE CLOSURE WITHIN TWO YEARS AFTER THE EFFECTIVE DATE OF THESE REGULATIONS

Section 814.930 Scope and Applicability

a) The standards in this Subpart are applicable to all existing units of landfills, including those exempt from permit requirements in accordance with Section 21(d) of the Act, that accept or have accepted only fossil fuel combustion wastes from electric utility boilers and which will initiate closure within two years after the effective date of these regulations.

b) All units which cannot demonstrate compliance with the requirements of Subparts I or J of this Part, or which are scheduled to initiate closure within two years after the effective date of this Part must begin closure within two years of the effective date of this Part.

c) The closure and post-closure monitoring of ash pond units which are constructed, operated and regulated under the NPDES permit program, and which subsequently initiate closure within two years following the effective date of these regulations, shall be regulated under this Subpart.

d) A new permit shall not be required for any facility at which all units will close within two years of the effective date of this Part.

(Source: Added at 15 Ill. Reg. , effective).

Section 814.931 Applicable Standards

a) All units regulated by this Subpart are subject to all applicable requirements of 35 Ill. Adm. Code 807; and

b) All units regulated by this Subpart are subject to all conditions of the existing permit.

(Source: Added at 15 Ill. Reg. , effective).

4) Statutory Authority: Illinois Environmental Protection Act (Ill. Rev. Stat. 1989, ch. 111 1/2, pars. 1005, 1021, 1021.1, 1022, 1022.17, 1028.1 and 1027).

5) A Complete Description of the Subjects and Issues Involved:

A description of the proposed amendments and rules in Board Docket R90-25 is contained in the Board's March 14, 1991 First Notice Opinion and Order entitled, "In the Matter of: Utility Industry Amendments to the Landfill Regulations (Parts 810-815)". The Opinion and Order are available from the address below. The Opinion explains the reasons for the Board's proposed amendments to existing

Parts 811 and 814, and proposed new Part 816, all of which appear in this issue.

In summary, new Part 816 applies to new landfills that dispose of coal combustion wastes generated by electric utilities. It establishes standards for 1) location, design, and operation, 2) identification and management of waste, 3) construction quality assurance programs, and 4) financial assurance for closure and post closure care.

6) Will this proposed rule replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Does this proposed rule contain incorporations by reference? Yes

9) Are there any other amendments pending on this Part? No
Section Numbers: Proposed Action: Ill. Reg. Citation:

10) Statement of Statewide Policy Objective:

Part 811 imposes various requirements on new landfills. The proposed rules will impose alternative, less restrictive requirements on new landfills that dispose of coal combustion wastes generated by electric utilities. The only units of local government affected by the proposed rules are those that operate new landfills that dispose of coal combustion wastes generated by electric utilities.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking:

The Board will accept written public comment on this proposal for a period of 45 days after the date of this publication. Comments should reference Board Docket R90-26 and be addressed to:

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
State of Illinois Center, Suite 11-500
100 West Randolph
Chicago, IL 60601

Persons who wish additional information concerning hearings and filing requirements should contact the Hearing Officer,

Deborah Stonich, Illinois Pollution Control Board, State of Illinois Center, 100 W. Randolph, Suite 11-500, Chicago, IL 60601, (312) 814-6926.

12) Initial Regulatory Flexibility Analysis (if applicable):

A) Date rule submitted to Business Assistance Office of the Department of Commerce and Community Affairs:

March 18, 1991

B) Types of small businesses affected:

The proposed rules may affect new landfills that dispose of coal combustion wastes generated by electric utilities.

C) Reporting, bookkeeping or other procedures required for compliance:

Compliance may require a hydrogeologic investigation of a proposed new landfill site, preparation of a site design and operations plan, preparation of an recordkeeping concerning a construction quality assurance plan, groundwater monitoring, recordkeeping concerning the nature of the wastes received at the site, preparation of a plan for closure and postclosure care, and receipt of a financial assurance instrument to guarantee compliance with such plan.

D) Types of professional skills necessary for compliance:

Compliance may require the services of an attorney, a registered professional engineer, a professional land surveyor, a hydrologist, and a certified public account.

The full text of the proposed rules begins on the next page:

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

Section 816.101 Scope and Applicability

a) The standards of this Part apply to all new electric utility fossil fuel combustion waste landfills.

b) Utility NPDES-permitted surface impoundments, upon closure, shall comply with Sections 816.109 and 816.116 (closure), and 816.121 (groundwater monitoring).

c) All general provisions and definitions of 35 Ill. Adm. Code 810 apply to this Part.

d) New waste management units, located at existing facilities, should not be required to comply with:

1) The location standards in Sections 816.102 (a), (b), (c), (d), and (g); and

2) The foundation and mass stability analysis standards in Section 816.112.

e) For the purpose of this Part, electric utility fossil fuel combustion wastes shall include all fly ash, bottom ash, miscellaneous ashes, air pollution control wastes, scrubber sludges and other combustion wastes produced by the combustion of fossil fuels for the production of electricity in utility boilers. Further, for the purposes of this Part, disposal shall not include the sale or re-use of electric utility fossil fuel combustion wastes for beneficial purposes, including, but not limited to, use as fill or for coal mine reclamation purposes.

Section 816.102 Location Standards

a) The facility shall not invade or diminish the scenic, recreational and fish and wildlife values for any river designated for protection under the Wild and Scenic Rivers Act (16 U.S.C. 1271 et seq.).

b) The facility shall not restrict the flow of a 100-year flood, result in washout of solid waste from the 100-year flood, or reduce the temporary water storage capacity of the 100-year floodplain, unless measures are undertaken to provide alternative storage capacity.

c) The facility shall not be located in areas where it may

pose a threat of harm or destruction to the features for which an irreplaceable historic or archaeological site was listed pursuant to the National Historic Preservation Act (16 U.S.C. 470 et seq.) or the Illinois Historic Preservation Act (Ill. Rev. Stat. 1989, ch. 127, pars. 133d1 et seq.) for which a Natural Landmark was designated by the National Park Service or the Illinois State Historic Preservation Officer, or for which a natural area was designated as a Dedicated Illinois Nature Preserve pursuant to the Illinois Natural Areas Preservation Act (Ill. Rev. Stat. 1989, ch. 105, pars. 701 et seq.).

d) The facility shall not be located in areas where it may jeopardize the continued existence of any designated endangered species, result in the destruction or adverse modification of the critical habitat listed for such species, or cause or contribute to the taking of any endangered or threatened species of plant, fish or wildlife listed pursuant to the Endangered Species Act (16 U.S.C. 1531 et seq.), or the Illinois Endangered Species Protection Act (Ill. Rev. Stat. 1989, ch. 8, pars. 331 et seq.).

e) The facility shall not cause a violation of Section 404 of the Clean Water Act (33 U.S.C. 1344).

f) The facility shall not cause a nonpoint source of pollution that violates applicable legal requirements implementing an area-wide or statewide water quality management plan that has been approved under Section 208 of the Clean Water Act (33 U.S.C. 1288).

g) The facility shall comply with the technical location standards in Section 816.110.

Section 816.103 Surface Water Drainage

a) Runoff From Disturbed Areas

1) Runoff from disturbed areas resulting from precipitation events less than or equal to the 25-year, 24-hour precipitation event that is discharged to waters of the State shall meet the requirements of 35 Ill Adm. Code 304.

2) All discharges of runoff from disturbed areas to waters of the State shall be permitted by the Agency in accordance with 35 Ill. Adm. Code 309.

3) All treatment facilities shall be equipped with bypass outlets designed to pass the peak flow of runoff from the 100-year, 24-hour precipitation event without damage to the treatment facilities or surrounding structures.

4) All surface water control structures shall be operated until the final cover is placed and erosional stability is provided by the vegetative or other cover meeting the requirements of Section 816.116.

5) All discharge structures shall be designed to prevent erosion and scouring of the receiving stream channel.

b) Diversion of Runoff From Undisturbed Areas

1) Runoff from undisturbed areas shall be diverted around disturbed areas to the maximum practical extent.

2) Diversion facilities shall be designed to prevent runoff from the 25-year, 24-hour precipitation event from entering disturbed areas.

3) Runoff from undisturbed areas which becomes commingled with runoff from disturbed areas shall be handled as runoff from disturbed areas and treated in accordance with subsection (a).

4) All diversion structures shall be designed to prevent erosion and scouring in the diversion channel and downstream channels.

5) All diversion structures shall be operated until the final cover is placed and erosional stability is provided by the vegetative or other cover meeting the requirements of Section 816.116.

Section 816.104 Survey Controls

a) The boundaries of all waste disposal units, property boundaries, disturbed areas, and the permit area for facilities subject to the requirements of Section 21 of the Environmental Protection Act (Act) (Ill. Rev. Stat. 1989, ch. 111 1/2, par. 1021) shall be surveyed and marked.

b) All stakes and monuments shall be clearly marked for identification.

c) All stakes and monuments shall be inspected annually and surveyed no less frequently than once in five years. Any missing or damaged stakes and monuments discovered during an inspection shall be replaced in a timely manner.

d) Control monuments shall be established to check vertical elevations. The control monuments shall be established and maintained.

Section 816.105 Operating Standards

a) Phasing of Operations

1) Waste shall be placed in a manner and at such a rate that mass stability is provided during all phases of operation.

2) The phasing of operations at the facility shall be designed in such a way as to allow the sequential construction, filling, and closure of discrete units or parts of units.

3) The operator shall dispose of wastes in a manner which will facilitate the filling to final grade and minimize the operational phase of each discrete unit or parts of units.

b) Size and Slope of Working Face

1) The working face of the unit shall be no larger than is necessary to conduct operations in a safe and efficient manner.

2) The slopes of the working face area shall be no steeper than two-to-one (horizontal-to-vertical) unless the waste is stable at steeper slopes.

c) Equipment

Equipment shall be maintained and available for use at the facility during all hours of operations, so as to achieve and maintain compliance with the requirements of this Part.

d) Utilities

All utilities, including but not limited to heat, lights, power and communications equipment, necessary for safe operation in compliance with the requirements of this Part shall be available at the facility at all times.

e) Maintenance

The operator shall maintain and operate all systems and related appurtenances and structures in a manner that facilitates proper operations in compliance with this Part.

f) Open Burning

Open burning is prohibited except in accordance with 35 Ill. Adm. Code 200 through 245.

g) Dust Control

The operator shall implement methods for controlling dust to meet the fugitive dust control regulations at 35 Ill. Adm. Code 212.

h) Noise Control

The facility shall be designed, constructed and maintained to minimize the level of equipment noise audible outside the facility. The facility shall not cause or contribute to a violation of 35 Ill. Adm. Code 900 through 905 or of Section 24 of the Act.

i) Mud Tracking

The facility shall implement methods, such as use of wheel washing units, to prevent tracking of mud by hauling vehicles onto public roadways.

Section 816.106 Combustion Waste Sale or Re-Use

Although these regulations deal with the effective disposal management of coal combustion wastes, nothing in this Part is in any way meant to discourage or impede the productive sale or re-use of electric utility fossil fuel combustion byproducts in commerce, including, but not limited to, use as fill materials or as part of coal mine reclamation projects.

Section 816.107 Boundary Control

a) Access to the open face area of the unit and all other areas within the boundaries of the facility shall be restricted to prevent unauthorized entry at all times.

b) A permanent sign shall be posted at the entrance to the facility stating that disposal of chemical and domestic waste is prohibited, and an identification record along with the following information:

1) Permit number, if the facility is subject to the permit requirements of Section 21 of the Act;

2) Hours of operation;

3) The penalty for unauthorized trespassing and dumping;

4) The name and telephone number of the appropriate emergency response agencies who shall be available to deal with emergencies and other problems, if different than the operator; and

5) The name, address and telephone number of the company operating the facility.

Section 816.108 Closure and Written Closure Plan

a) The final slopes and contours shall be designed to complement and blend with the surrounding topography of the proposed final land use of the area.

b) All drainage ways and swales shall be designed to safely pass the runoff from the 100-year, 24-hour precipitation event without scouring or erosion.

c) The final configuration of the facility shall be designed in a manner that minimizes the need for further maintenance.

d) Written closure plan

1) The operator shall maintain a written plan describing all actions that the operator will undertake to close the unit or facility in a manner that fulfills the provisions of the Act, of this Part and of other applicable Parts of 35 Ill. Adm. Code: Chapter I. The written closure plan shall fulfill the minimum information requirements of 35 Ill. Adm. Code 812.114.

2) A modification of the written closure plan shall constitute a significant modification of the permit for the purposes of 35 Ill. Adm. Code 813.Subpart B.

Section 816.109 Post-Closure Maintenance

a) The operator shall treat, remove from the site, or dispose of all ancillary wastes and waste residues from site operations, excluding the fossil fuel combustion wastes themselves, within 30 days after receipt of the final volume of fossil fuel combustion wastes.

b) The operator shall remove all equipment or structures not necessary for the post-closure land use, unless otherwise authorized by permit.

c) Maintenance and Inspection of the Final Cover and Vegetation

1) Frequency of Inspections

A) The operator shall conduct a quarterly inspection of all vegetated surfaces for a minimum of five years after closure, and after five years, the operator may reduce the frequency of annual inspections until settling has stopped and there are no eroded or scoured areas.

B) For landfills, other than those used exclusively for disposing waste generated at

the site, inspections shall be continued for a minimum period of 15 years after closure.

2) All rills, gullies and crevices six inches or deeper identified in the annual inspection shall be filled. Areas identified by the operator or the Agency as particularly susceptible to erosion shall be re-contoured.

3) All eroded and scoured drainage channels shall be repaired and lining material shall be replaced if necessary.

4) All holes and depressions created by settling shall be filled and re-contoured so as to prevent standing water.

5) All reworked surfaces, and areas with failed or eroded vegetation in excess of 100 square feet cumulatively, shall be re-vegetated in accordance with the approved closure plan for the facility.

Section 816.110 Facility Location--Technical Requirements

a) No part of a unit shall be located within a setback zone established pursuant to Section 14.2 or 14.3 of the Act.

b) No part of a unit shall be located within the recharge zone or within 366 meters (1200 feet), vertically or horizontally, of a sole-source aquifer designated by the United States Environmental Protection Agency pursuant to Section 1424(e) of the Safe Drinking Water Act (42 U.S.C. 300h-3(e)) unless there is a stratum between the bottom of the waste disposal unit and the top of the aquifer that meets the following minimum requirements:

1) The stratum has a minimum thickness of 15.2 meters (50 feet);

2) The maximum hydraulic conductivity in both the horizontal and vertical directions is no greater than $1x10^{-7}$ centimeters per second, as determined by in situ borehole or equivalent tests; and

3) There is no indication of continuous sand or silt seams, faults, fractures or cracks within the stratum that may provide paths for migration.

c) A facility located within 152 meters (500 feet) of the right-of-way of a township or county road or state or interstate highway shall have its area of active operations screened from view as much as is practical by a barrier of natural objects, fences, barricades, or plants no less than 2.44 meters (8 feet) in height.

d) No part of a unit shall be located closer than 152 meters (500 feet) from an occupied dwelling, school, or hospital that was occupied on the date when the operator first applied for a permit to develop the unit or the facility containing the unit, unless the owner of such dwelling, school, or hospital provides permission to the operator, in writing, for a lesser distance.

e) The facility shall not be located closer than 1525 meters (5000 feet) of any runway used by piston-type aircraft, or within 3050 meters (10,000 feet) of any runway used by turbojet aircraft, unless the Federal Aviation Administration provides the operator with written permission, including technical justification, for a lesser distance.

Section 816.111 Design Period

The design period for electric utility fossil fuel combustion waste disposal units shall be the estimated operating life plus 15 years. For the purpose of this Part, electric utility fossil fuel combustion wastes shall include all fly ash, bottom ash, miscellaneous ashes, air pollution control wastes, scrubber sludges and other combustion wastes produced by the combustion of fossil fuels for the production of electricity in utility boilers. Further, for the purposes of this Part, disposal shall not include the sale or re-use of electric utility fossil fuel combustion wastes for beneficial purposes, including, but not limited to, use as fill materials or for use in coal mine reclamation projects.

Section 816.112 Foundation and Mass Stability Analysis

a) The material beneath the unit shall have sufficient strength to support the weight of the unit during all phases of construction and operation.

b) The solid waste disposal unit shall achieve a safety factor against bearing capacity failure of 1.5 under

static conditions and 1.3 under seismic loadings.

c) The waste disposal unit shall comply with all applicable Department of Transportation regulations governing dikes and berms.

d) In calculating factors of safety, both long-term and short-term conditions shall be considered.

e) The potential for earthquake or blast induced liquefaction, and its effect on the stability and integrity of the unit shall be considered and taken into account in the design. The potential for landslides or earthquake induced liquefaction outside the unit shall be considered if such events could affect the unit.

Section 816.113 Foundation Construction

a) If the in situ material provides insufficient strength to meet the requirements of Section 816.112, the insufficient material shall be removed and replaced with clean materials sufficient to meet the requirements of Section 816.112.

b) All trees, stumps, roots, boulders and debris shall be removed.

c) All material shall be compacted to achieve the strength and density properties necessary to demonstrate compliance with this Part in conformance with a construction quality assurance plan pursuant to 35 Ill. Adm. Code 811.Supbart E.

d) Placement of frozen soil or soil onto frozen ground is prohibited.

e) The foundation shall be constructed and graded to provide a smooth, workable surface on which to construct the liner.

Section 816.114 Liner Systems

a) All units shall be equipped with a liner designed as an integrated system in compliance with the requirements of this Section.

b) The liner shall be stable during all phases of construction and operation. The side slopes shall achieve a minimum static safety factor 1.5 and a minimum seismic safety factor of 1.3 at all times.

c) The liner shall be designed to function for the entire design period, which for the purposes of this regulation shall be the estimated operating life of the facility plus 15 years.

d) Liner System Standards

1) The minimum allowable thickness shall be 0.91 meters (3 feet).

2) The liners shall be compacted to achieve a maximum hydraulic conductivity of $1x10^{-7}$ centimeters per second.

3) The liner shall be compacted to minimize void spaces and support the loadings imposed by the waste disposal operation.

4) The liner shall be constructed from materials compatible with the constituents of the leachate expected to be produced.

5) Modified liners, using standard construction techniques, for hydraulic conductivity and liner thickness may be utilized if equivalent groundwater protection is provided.

6) The modified liner shall operate to achieve equivalent or superior performance to the requirements of this subsection. Equivalent performance shall be evaluated at maximum annual leachate flow conditions.

e) Geomembrane Liners

1) Geomembranes may be used to achieve the performance standards equivalent to the performance requirements of subsection (d). In general, those performance requirements may be summarized as achieving a maximum hydraulic conductivity of 10^{-7} centimeters per second.

2) The geomembrane shall be supported by a compacted base free from sharp objects. The geomembrane shall be chemically compatible with the supporting soil materials.

3) The geomembrane material shall be compatible with the leachate expected to be generated.

4) Geomembrane shall have sufficient strength and durability to function at the site for the design period under the maximum expected loadings imposed by the waste and equipment and stresses imposed by settlement, temperature, construction and operation.

5) Seams shall be made in the field according to the liner manufacturer's specifications. All sections shall be arranged so that the use of field seams is minimized and seams are oriented in the direction subject to the least amount of stress.

f) Slurry Trenches and Cutoff Walls Used to Prevent Migration of Leachate

1) Slurry trenches may be required for some sites to meet these design requirements. If required, slurry trenches and cutoff walls built to contain leachate migration shall be used with a compacted earth liner or geological units with sufficient vertical and horizontal uniformity and low permeability to protect groundwater.

2) Slurry trenches and cutoff walls shall extend into the bottom confining layers or unit to a depth that will establish and maintain a continuous hydraulic connection and prevent seepage.

3) Exploration borings shall be drilled along the route of the slurry trench or cutoff wall to confirm the depth to the confining layer. In situ tests shall be conducted to determine the hydraulic conductivity of the confining layer.

4) Slurry trenches and cutoff walls shall be stable under all conditions during the design period of the facility. They shall not be susceptible to

displacement or erosion under stress or hydraulic gradient.

5) Slurry trenches and cutoff walls shall be constructed in conformance to a construction quality assurance plan, pursuant to 35 Ill. Adm. Code 811.Subpart E, that ensures that all material and construction methods meet design specification.

g) Liner configurations other than those specified in this Section, special construction techniques, and admixtures may be utilized, provided that:

1) The alternative technology or material(s) provide(s) equivalent, or superior, performance to the requirements of this Section;

2) Methods for manufacturing quality control and construction quality assurance can be implemented; and

3) Liner configurations will be site-specific, and may include no liner, liners made of only natural materials, geomembrane liners, or some combination thereof.

Section 816.115 Intermediate Cover

Daily cover for electric utility fossil fuel combustion wastes will generally not be required unless fugitive dust emissions criteria are exceeded. If those emissions criteria are exceeded, then operating adjustments and/or intermediate cover equivalent to that provided by 0.30 meter (1 foot) of compacted clean soil material must be used.

Section 816.116 Final Cover System

a) The unit shall be covered by a final cover consisting of a low-permeability layer overlain by a final protective layer constructed in accordance with the requirements of this Section.

b) Standards for the Low-Permeability Layer

1) Not later than 180 days after placement of the final lift of solid waste, a low-permeability layer shall be constructed.

2) The low-permeability layer shall cover the entire unit and connect with any liner or slurry wall system, as applicable and appropriate.

3) The low-permeability layer shall consist of any one of the following:

A) A compacted earth layer constructed in accordance with the following standards:

i) The minimum allowable thickness shall be 0.3 meter (1 foot); and

ii) The layer shall be compacted to achieve a permeability of not more than $1x10^{-7}$ centimeters per second, and to minimize void spaces; or

iii) Alternative specification may be utilized provided that the performance of the low-permeability layer is equal to, or superior to, the performance of a layer meeting the requirements of subsections (b)(3)(A)(i) and (b)(3)(A)(ii).

B) A geomembrane constructed in accordance with the following standards:

i) The geomembrane shall provide performance equal to, or superior to, the compacted earth layer described in subsection (b)(3)(A);

ii) The geomembrane shall have strength to withstand the normal stresses imposed by the waste stabilization process; and

iii) The geomembrane shall be placed over a prepared base free from sharp objects and other materials which may cause damage.

C) Any other low-permeability layer construction techniques or materials, provided that they provide equivalent or superior performance to the requirements of this subsection.

c) Standards for the Final Protective Layer

1) The final protective layer shall cover the entire low-permeability layer.

2) The thickness of the final protective layer shall be sufficient to protect the low-permeability layer from freezing, and minimize root penetration of the low-permeability layer, but shall not be less than 0.91 meter (3 feet).

3) The final protective layer shall be placed as soon as possible after placement of the low-permeability layer to prevent desiccation, cracking, freezing or other damage to the low-permeability layer.

4) Any other final protective layer construction design may be used as long as that design provides equivalent or superior performance to the requirements of this subsection.

Section 816.117 Hydrogeologic Site Investigations

a) Purpose

The operator shall conduct a hydrogeologic investigation to develop hydrogeologic information for the following uses:

1) Provide information to perform a groundwater impact assessment; and

2) Provide information to establish a groundwater monitoring system.

b) General Requirements

1) The investigation shall be conducted in a minimum of three phases prior to submission of any application to the Agency for a permit to develop and operate a utility fossil fuel combustion waste landfill facility.

2) The study area shall consist of the entire area occupied by the facility and any adjacent related areas, to the extent necessary to characterize the site hydrogeology.

3) All borings shall be sampled continuously at all recognizable points of geologic variation, except that where continuous sampling is impossible or where non-continuous sampling can provide equivalent information, samples shall be obtained at intervals no greater than 1.52 meters (5 feet) in homogeneous strata.

c) Minimum Requirements for a Phase I Investigation

1) The operator shall conduct a Phase I Investigation to develop the following information:

A) Climatic aspects of the study area;

B) The regional and study area geologic setting, including a description of the geomorphology and stratigraphy of the area;

C) The regional groundwater regime including water table depths and aquifer characteristics; and

D) Information for the purpose of designing a Phase II Hydrogeologic Investigation.

2) Specific Requirements

The regional hydrogeologic setting of the unit shall be established by using material from reasonably available and known sources, including, but not limited to, the Illinois Scientific Surveys, the Agency, other State and Federal organizations, water well drilling logs, and previous investigations.

d) Minimum Requirements for a Phase II Investigation

1) Information to be developed

Using the information developed in the Phase I survey, a Phase II study shall be conducted to collect the site-specific information listed below as needed to augment data collected during the Phase I Investigation and to prepare for the Phase III Investigation:

A) Structural characteristics and distribution of underlying strata including bedrock;

B) Chemical and physical properties including, but not limited to, lithology, mineralogy, and hydraulic characteristics of underlying strata including those below the uppermost aquifer;

C) Soil characteristics, including soil types, distribution, geochemical and geophysical characteristics;

D) The hydraulic conductivity of the uppermost aquifer and all strata above it;

E) The vertical extent of the uppermost aquifer;

F) The direction and rate of groundwater flow.

2) Specific Requirements

A) One boring shall be located as close as feasible to the topographical high point, and another shall be located as close as feasible to the topographical low point of the study area.

B) Additional borings may be located at intermediate points at locations and spacings necessary to establish the continuity of the stratigraphic units.

C) Piezometers and groundwater monitoring wells shall be established to determine the direction and flow characteristics of the groundwater in all strata including the uppermost aquifer. Groundwater samples taken from such monitoring wells shall be used to develop preliminary information needed for establishing background concentrations in accordance with subsection (e)(1)(G).

D) Other methods may be utilized to confirm or accumulate additional information. Such methods may be used only as a supplement to, not in lieu of, site-specific boring information. Other methods may include, but

are not limited to, geophysical well logs, geophysical surveys, aerial photography, age dating, and test pits.

e) Minimum Standards for a Phase III Investigation

1) Using the information developed during the Phase I and Phase II Investigations, the operator shall conduct a Phase III Investigation. This investigation shall be conducted to collect or augment the site-specific information needed to carry out the following:

A) Verification and reconciliation of the information collected in the Phase I and II investigations;

B) Characterization of potential pathways for contaminant migration;

C) Correlation of stratigraphic units between borings;

D) Continuity of petrographic features including, but not limited to, sorting, grain size distribution, cementation and hydraulic conductivity;

E) Identification of zones of potentially high hydraulic conductivity;

F) Identification of the confining layer, if present;

G) Concentrations of the following physical and chemical constituents present in the groundwater in each permeable geological unit(s) below the unit, including the uppermost aquifer (Concentrations, except for temperature, pH, and conductance, determined on a dissolved basis):

arsenic
boron
calcium
chemical
chloride

chronium
conductance
dissolved oxygen
magnesium
manganese
pH
selenium
temperature
total dissolved solids

H) Prediction of the seasonal and temporal, naturally or artificially induced, variations in groundwater quality and groundwater flow; and

I) Identification of unusual or unpredicted geologic features, including: fault zones, fracture traces, facies changes, solution channels, buried stream deposits, cross cutting structures and other geologic features that may affect the ability of the operator to monitor the groundwater or predict the impact of the disposal facility on groundwater.

2) In addition to the specific requirements applicable to Phase I and II Investigations, the operator shall collect information needed to meet the minimum standards of a Phase III Investigation by using methods they may include, but not be limited to, excavation of test pits, additional borings located at intermediate points between boreholes placed during the Phase II Investigation, placement of piezometers and monitoring wells, and institution of procedures for sampling and analysis.

f) The operator may conduct the hydrogeologic investigation in any number of alternative ways provided that the necessary information is collected in a systematic sequence consisting of at least three phases that is equal to or superior to the investigation procedures of this Section.

Section 816.118 Plugging and Sealing of Drill Holes

All bore holes, including exploration borings that are not converted into monitoring wells, monitoring wells that are no

longer necessary to the operation of the site, and other holes that may cause or facilitate contamination of groundwater, shall be sealed in accordance with the following standards:

a) If not sealed or plugged immediately, the hole shall be covered to prevent injury to people or animals.

b) All holes no longer intended for use shall be backfilled with materials that are compatible with the geochemistry of the site and with the leachate in sufficient quantities and in such a way as to prevent the creation of a pathway for contaminants to migrate.

c) For holes in gravels and other permeable strata, where a watertight seal is not necessary to prevent the creation of a pathway, drill cuttings and other earthen materials may be utilized as backfill.

d) All excess drilling mud, oil, drill cuttings, and any other contaminated materials uncovered during or created by drilling shall be disposed of in accordance with the requirements of 35 Ill. Adm. Code 700 through 759, 807, and 809 through 815. Non-contaminated materials may be re-used without disposal.

e) If applicable and appropriate, the operator shall restore the area around the drill hole to its original condition.

Section 816.119 Groundwater Impact Assessment

The impacts of the seepage of leachate from the unit shall be assessed in a systematic fashion using the techniques described in this Section.

a) Procedures for Performing the Groundwater Impact Assessment

1) The operator shall estimate the amount of seepage from the unit during operations. That estimate shall assume:

A) That the minimum design standards for slope configuration, cover, and liner apply; and

B) That the actual design standards planned for the unit apply. Other designs for the unit

may be used if determined by the operator to be appropriate to demonstrate the impacts to groundwater, pursuant to subsection (b).

2) The concentration of constituents in the leachate shall be determined from actual leachate samples from the waste or similar waste, laboratory-derived extracts, other available data, or equivalent sources.

3) A contaminant transport model meeting the standards of subsection (c) shall be utilized to estimate the concentrations of the leachate constituents over time and space. The Agency must review a groundwater contaminant transport model for acceptance in accordance with 35 Ill. Adm. Code 813.111.

b) Acceptable Groundwater Impact Assessment

The groundwater contaminant transport (GCT) model results shall be used in the assessment of the groundwater impact. The groundwater impact shall be considered acceptable if the GCT model predicts that the concentrations of all the constituents of the leachate outside the zone of attenuation are less than the applicable groundwater quality standards of Section 816.122, within 100 years of closure of the unit.

c) Standards for the Contaminant Transport Model

1) The model shall have supporting documentation that establishes its ability to represent groundwater flow and contaminant transport and any history of its previous applications.

2) The set of equations representing groundwater movement and contaminant transport must be theoretically sound and well-documented.

3) The numerical solution methods must be based upon sound mathematical principles and be supported by verification and checking techniques.

4) The model must be calibrated against site-specific field data developed pursuant to this Part.

5) A sensitivity analysis shall be conducted to measure the model's response to changes in the values assigned to major parameters, specified error tolerances, and numerically assigned space and time segments.

6) Mass balance calculations on selected elements in the model shall be performed to verify physical validity. Where the model does not prescribe the amount of mass entering the system as a boundary condition, this step may be ignored.

7) The values of the model's parameters requiring site specific data shall be based upon actual field or laboratory measurements.

8) The values of the model's parameters which do not require site specific data shall be supported by laboratory test results or equivalent methods documenting the validity of the chosen parametric values.

Section 816.120 Design, Construction and Operation of Groundwater Monitoring Systems

a) All potential sources of discharges to groundwater within the facility, including, but not limited to, all waste disposal units shall be identified and studied through a network of monitoring wells operated during the active life of the facility and for the time after closure specified in accordance with Section 816.108. Monitoring wells designed and constructed as part of the monitoring network shall be maintained along with records that include, but are not limited to, exact well location, well size, type of well, the design and construction practice used in its installation and well and screen depths.

b) Standards for the Location of Monitoring Points

1) A network of monitoring points shall be established at sufficient locations down-gradient with respect to groundwater flow and not excluding the downward direction, to detect any discharge of contaminants from any part of a potential source of discharge.

2) Monitoring wells shall be located in stratigraphic horizons that could serve as contaminant migration pathways.

3) Monitoring wells shall be established within half the distance from the edge of the potential source of discharge to the edge of the zone of attenuation down-gradient, with respect to groundwater flow, from the source.

4) At least one monitoring well shall be located up-gradient of the potential source of discharge in each geologic unit which may serve as a conduit for leachate migration.

5) The network of monitoring points of several potential sources of discharge within a single facility may be combined into a single monitoring network, provided that discharges from any part of all potential sources can be detected.

6) A minimum of one monitoring well shall be established at the edge of the zone of attenuation and shall be located down-gradient with respect to groundwater flow and not excluding the downward direction, from the unit. Such well or wells shall be used to monitor any statistically significant increase in the concentration of any constituent, in accordance with Section 816.122(e) and shall be used for determining compliance with an applicable groundwater quality standard of Section 816.122. An observed statistically significant increase above the applicable groundwater quality standards of Section 816.122 in a well located at or beyond the compliance boundary shall constitute a violation.

c) Maximum Allowable Predicted Concentrations

The operator shall use the same calculation methods, data, and assumptions as used in the groundwater impact assessment to predict the concentration over time and space of all constituents chosen to be monitored in accordance with Section 816.121 at all monitoring points. The predicted values shall be used to establish the maximum allowable predicted concentrations (MAPCs) at each monitoring point. MAPC shall not exceed the

standards contained in Section 816.122 unless an adjusted standard is approved by the Board. The MAPCs calculated in this subsection shall be applicable within the zone of attenuation.

d) Standards for Monitoring Well Design and Construction

1) All monitoring wells shall be cased in a manner that maintains the integrity of the bore hole. The casing material shall be inert so as not to affect the collection or integrity of water samples.

2) Wells shall be screened to allow sampling only at the desired interval. Annular space between the borehole wall and well screen section shall be packed with gravel appropriately sized, or utilize compressed, native borehole material where appropriate, to avoid clogging by the material in the zone being monitored. The filter pack shall extend at least 1 foot above the screen. The slot size of the screen shall be designed to minimize clogging. Screens shall be fabricated from material expected to be inert with respect to the constituents of the groundwater to be sampled.

3) Annular space above the well screen section shall be sealed with a relatively impermeable, expandable material such as a cement/bentonite grout, which does not react with or in any way affect the sample, in order to prevent contamination of samples and groundwater and avoid interconnections. The lower seal shall extend to at least 2 feet above the filter pack.

4) The annular space shall be back-filled with expanding cement grout from an elevation below the frost line and mounded above the surface and sloped away from the casing so as to divert surface water away (upper seal).

5) The annular space between the upper and lower seals and in the unsaturated zone may be back-filled with uncontaminated cuttings.

6) All wells shall be covered with vented caps and equipped with devices to protect against tampering and damage.

7) All wells shall be developed to allow free entry of water, minimize turbidity of the sample, and minimize clogging.

8) The transmissivity of the zone surrounding all well screens shall be established by field testing techniques.

9) Other sampling methods and well construction techniques may be utilized if they provide equal or superior performance to the requirements of this subsection.

e) Standards for Sample Collection and Analysis

1) The groundwater monitoring program shall include consistent sampling and analysis procedures to assure that monitoring results will provide a reliable indication of groundwater quality in the zone being monitored.

2) The operator shall utilize procedures and techniques to insure that collected samples are representative of the zone being monitored and that prevent cross contamination of samples from other monitoring wells or from other samples. At least 95 percent of a collected sample shall consist of groundwater from the zone being monitored.

3) The operator shall establish a quality assurance program that provides quantitative detection limits and the degree of error for analysis of each chemical constituent.

4) The operator shall establish a sample preservation and shipment procedure that maintains the reliability of the sample collected for analysis.

5) The operator shall institute a chain of custody procedure to prevent tampering and contamination of the collected samples prior to completion of analysis.

6) At a minimum, the operator shall sample the following parameters at all wells at the time of sample collection and immediately before filtering and preserving samples for shipment:

A) The elevation of the water table;

B) The depth of the well below ground;

C) pH;

D) The temperature of the sample; and

E) Specific Conductance.

Section 816.121 Groundwater Monitoring Programs

a) Detection Monitoring Program

The operator shall implement a detection monitoring program in accordance with the following requirements:

1) Monitoring Schedule and Frequency

A) The monitoring period shall begin as soon as waste is placed into any unit of a new electric utility fossil fuel combustion waste landfill. Monitoring shall continue for a minimum period of five years after closure. The operator shall sample monitoring wells quarterly, or may institute more frequent sampling throughout the time the source constitutes a potential threat to groundwater. For the purposes of this Section, the source shall be considered a threat to groundwater, if the results of the monitoring indicate that the concentrations of any of the constituents monitored within the zone of attenuation are above the maximum allowable predicted concentration for that constituent. Sample frequency and protocols shall be contained in the Sampling and Analysis Plan (SAP) proposed by the Agency as part of the facility permit.

B) Beginning two years after closure, the monitoring frequency may change to an annual schedule if the following conditions exist. However, monitoring shall return to the original schedule at any well where a statistically significant change is determined to have occurred in accordance with Section

816.122(e), in the concentration or value of any constituent with respect to the previous sample.

i) All constituents monitored within the zone of attenuation have returned to a concentration where a statistical increase above the maximum predicted concentration is not occurring; and

ii) All constituents monitored within the zone of attenuation are statistically less than or equal to their maximum allowable predicted concentrations for four consecutive quarters.

C) Monitoring beyond the minimum period may be continued if a statistically significant increase is detected in the concentration of any constituent above that measured and recorded during the immediately preceding scheduled sampling.

2) Criteria for choosing constituents to be monitored shall be listed in the Agency-approved SAP, within the following guidelines:

A) The operator shall monitor each well for constituents that will provide a means for detecting groundwater contamination, such that:

i) The constituent appears in, or is expected to be in, the leachate; and

ii) The Board has established for the constituents a groundwater quality standard under the Illinois Groundwater Protection Act (Ill. Rev. Stat. 1989, ch. 111 1/2, pars. 7451 et seq.).

B) Indicator constituents (such as total dissolved solids or some other appropriate parameter), representative of the transport processes of constituents in the leachate, may be chosen for monitoring in place of the constituents the indicator represents. The

use of such indicator constituents must be included in an Agency-approved permit SAP.

3) Confirmation of Monitored Increase

A) The confirmation procedures of this subsection shall be used only if the concentrations of the constituents monitored can be measured at or above the practical quantitation limit (PQL). The PQL is defined as the lowest concentration that can be reliably measured within specified limits of precision and accuracy, under routine laboratory operating conditions. The operator shall initiate confirmation procedures of subsection (a)(4)(B) after notifying the Agency, in writing, within 10 days of the following observed increases:

i) The concentration of any constituent exceeds statistically the maximum allowable predicted concentration at an established monitoring point within the zone of attenuation; and/or

ii) The concentration of any constituent monitored at or beyond the zone of attenuation exceeds the applicable groundwater quality standards of Section 816.122.

B) The confirmation procedures shall include the following:

i) The operator shall verify any observed increase by taking additional samples within 45 days of becoming aware of the initial observation, and shall ensure that the samples and sampling protocol used will detect any statistically significant increase in the concentration of the suspect constituent in accordance with subsection 816.122(e), so as to confirm the observed increase. The operator shall notify the Agency of any

confirmed increase before the end of the next business day after becoming aware of the confirmation.

ii) The operator shall, if possible, determine the source of any confirmed increase, which may include, but shall not be limited to, natural phenomena, sampling or analysis errors, or an off-site source.

iii) The operator shall notify the Agency in writing of any confirmed increase and state the source of the confirmed increase, if known, and provide the rationale used in such a determination within ten days of the determination.

b) Assessment Monitoring

The operator shall begin an assessment monitoring program in order to confirm that the solid waste disposal facility is the source of the contamination and to provide information needed to carry out a groundwater impact assessment in accordance with subsection (c). The assessment monitoring program shall be conducted in accordance with the following requirements:

1) The assessment monitoring shall be conducted to collect information to assess the nature and extent of groundwater contamination, which may consist of, but not be limited to, the following steps:

A) More frequent sampling of the wells in which the observation occurred;

B) More frequent sampling of any surrounding wells;

C) The placement of additional monitoring wells to determine the source and extent of the contamination;

D) Monitoring of additional constituents that might indicate the source and extent of contamination; and

E) Any other investigative techniques that will assist in determining the nature and extent of the contamination.

2) The operator of the facility for which assessment monitoring is required shall file the plans for an assessment monitoring program with the Agency. If the facility is permitted by the Agency, then the plans shall be filed for review as a significant permit modification pursuant to 35 Ill. Adm. Code 813.Subpart B. The assessment monitoring program shall be implemented within 90 days of confirmation of any monitored increase in accordance with subsection (a)(4) or, in the case of permitted facilities, within 90 days of Agency approval.

3) If the analysis of the assessment monitoring data shows that the concentration of one or more constituents, monitored at or beyond the zone of attenuation, is above the applicable groundwater quality standards of Section 816.122 and is attributable to the electric utility fossil fuel combustion waste disposal facility, then the operator shall determine the nature and extent of the groundwater contamination including an assessment of the potential impact on the groundwater should waste continue to be accepted at the facility and shall implement remedial action in accordance with subsection (d).

4) If the analysis of the assessment monitoring data shows that the concentration of one or more constituents is attributable to the solid waste disposal facility and exceeds the maximum allowable predicted concentration within the zone of attenuation, then the operator shall conduct a groundwater impact assessment in accordance with the requirements of subsection (c).

c) Assessment of Potential Groundwater Impact

An operator required to conduct a groundwater impact assessment in accordance with subsection (b)(4) shall assess the potential impacts outside the zone of attenuation that may result from confirmed increases above the maximum allowable predicted concentration within the zone of attenuation, attributable to the

facility, in order to determine if there is need for remedial action. In addition to the requirements of Section 816.119, the following shall apply:

1) The operator shall utilize any new information developed since the initial assessment and information from the detection and assessment monitoring programs and such information may be used for the re-calibration of the GCT model; and

2) The operator shall submit the groundwater impact assessment and any proposed remedial action plans determined necessary pursuant to subsection (d) to the Agency within 180 days of the start of the assessment monitoring program.

d) Remedial Action

1) The operator shall submit a plan for the remedial action to the Agency. That plan and all supporting information including data collected during the assessment monitoring shall be submitted within 90 days of determination of either of the following:

A) The groundwater impact assessment performed in accordance with subsection (c), indicates that remedial action is needed; or

B) Any confirmed increase above the applicable groundwater quality standards of Section 816.122 is determined to be attributable to the electric utility fossil fuel combustion waste disposal facility in accordance with subsection (b).

2) If the facility has been issued a permit by the Agency, then the operator shall submit this information as an application for significant modification to the permit.

3) The operator shall implement the plan for remedial action within 90 days of the following:

A) Completion of the groundwater impact assessment under subsection (c) that requires remedial action;

B) Establishing that a violation of an applicable groundwater quality standard of Section 816.122 is attributable to the solid waste disposal facility in accordance with subsection (b)(3); and a variance from the standard is not available and appropriate; or

C) Agency approval of the remedial action plan, where the facility has been permitted by the Agency.

4) The remedial action program shall consist of one or a combination of one or more of the following solutions:

A) Retrofit additional groundwater protective measures within the unit;

B) Construct an additional hydraulic barrier, such as a cutoff wall or slurry wall system;

C) Pump and treat the contaminated groundwater; or

D) Any other equivalent technique which will prevent further contamination of groundwater.

5) Termination of the Remedial Action Program

A) The remedial action program shall continue in accordance with the plan until additional monitoring shows that the concentrations of all monitored constituents are below the maximum allowable predicted concentration within the zone of attenuation, and below the applicable groundwater quality standards of Section 816.122 at or beyond the zone of attenuation, over a period of 4 sampling events per the SAP.

B) The operator shall submit to the Agency all information collected under subsection (d)(5)(A). If the facility is permitted then the operator shall submit this information as significant modification of the permit.

Section 816.122 Groundwater Quality Standards

a) Applicable Groundwater Quality Standards

1) Groundwater quality shall be maintained beyond the zone of attenuation at the groundwater quality standard established by the Board. For any constituent for which there is not a Board established standard, the standard shall be the background concentration as determined during the site assessment.

2) Any statistically significant increase above an applicable groundwater quality standard established pursuant to subsection (a) that is attributable to the facility an which occurs at or beyond the zone of attenuation within 100 years after closure of the last unit accepting waste within such a facility shall constitute a violation.

3) For the purpose of this Part:

A) "Background concentration" means that concentration of a constituent that is established as the background in accordance with subsection (d); and

B) "Board established standard" is the groundwater quality standard adopted by the Board pursuant to Section 14.4 of the Act or Section 8 of the Illinois Groundwater Protection Act (Ill. Rev. Stat. 1989, ch. 111 1/2, par. 7458).

b) Justification for Adjusted Groundwater Quality Standards

1) An operator may petition the Board for an adjusted groundwater quality standard in accordance with the procedures specified in Section 28.1 of the Act and 35 Ill. Adm. Code 106.410 through 106.416.

2) For groundwater which contains naturally occurring constituents which do not meet the standards in subsection (a), the Board will specify adjusted groundwater quality standards, upon a demonstration by the operator that:

A) The groundwater does not presently serve as a source of drinking water;

B) The change in standards will not interfere with, or become injurious to, any present or potential beneficial uses for such waters;

C) The change is necessary for economic or social development; and

D) The groundwater cannot presently, and will not in the future, serve as a source of drinking water because:

i) It is impossible to remove water in usable quantities;

ii) The groundwater is situated at a depth or location such that recovery of water for drinking purposes is not technologically feasible or economically reasonable;

iii) The groundwater is so contaminated that it would be economically or technologically impractical to render that water fit for human consumption;

iv) The total dissolved solids content of the groundwater is more than 3,000 mg/l and that water is not reasonably expected to serve a public water supply system; or

v) The total dissolved solids content of the groundwater exceeds 10,000 mg/l.

c) Determination of the Zone of Attenuation

1) The zone of attenuation, within which concentrations of constituents in leachate discharged from the unit may exceed the applicable groundwater quality standard of this Section, is a volume bounded by a vertical plane at the property boundary or 100 feet from the edge of the unit, whichever is less, extending from the ground surface to the bottom of the uppermost aquifer and excluding the volume occupied by the waste.

2) Zones of attenuation shall not extend to the annual high water mark of navigable surface waters.

3) Overlapping zones of attenuation from units within a singly facility may be combined into a single zone for the purposes of establishing a monitoring network.

d) Establishment of Background Concentrations

1) The initial monitoring to determine background concentrations shall commence during the hydrogeologic assessment required by Section 816.117. The background concentrations for those parameters identified shall be listed in the SAP and shall be established based on quarterly sampling of wells for at least one year, monitored in accordance with the requirements of the SAP, which may be adjusted during the operation of a facility. Statistical tests and procedures shall be employed, in accordance with subsection (e), depending on the number, type and frequency of samples collected from the wells, to establish the background concentrations. Adjustments to the background concentrations shall be made only if changes in the concentrations of constituents observed in upgradient wells over time are determined, in accordance with subsection (e), to be statistically significant. Background concentrations determined in accordance with this subsection shall be used for the purposes of establishing groundwater quality standards, in accordance with subsection (a). The operator shall prepare a list of the background concentrations established in accordance with this subsection. The operator shall maintain such a list at the facility, shall submit a copy of the list to the Agency for establishing standards in accordance with subsection (a), and shall provide updates to the list within ten days of any change to the list.

2) A network of monitoring wells shall be established upgradient from the unit, with respect to groundwater flow, in accordance with the following standards, in order to determine the background concentrations of constituents in the groundwater:

A) The wells shall be located at such a distance that discharges of contaminants from the unit will not be detectable;

B) The wells shall be sampled at the same frequency as other monitoring points to provide continuous background concentration data, throughout the monitoring period; and

C) The wells shall be established in locations and at depth that account for spatial variability.

3) A determination of background concentrations may include the sampling of wells that are not hydraulically upgradient of the waste unit where:

A) Hydrogeologic conditions do not allow the owner or operator to determine that wells are hydraulically upgradient of the waste; and

B) Sampling at other wells will provide an indication of background concentrations that is representative of that which would have been provided by upgradient wells.

4) If background concentrations cannot be determined on site, then alternative background concentrations may be determined from actual monitoring data from the aquifer of concern, which includes, but is not limited to, data from another landfill site that overlies the same aquifer.

e) Statistical Analysis of Groundwater Monitoring Data

1) Statistical tests shall be used to analyze groundwater monitoring data. One or more of the normal theory statistical tests listed in subsections (e)(3) and (e)(4) shall be chosen first for analyzing the data set or transformations of the data set. Where such normal theory tests are demonstrated to be inappropriate, tests listed in subsection (e)(5) or a test in accordance with subsection (e)(6) shall be used. For any statistical test chosen from subsections (e)(4) or (e)(5), the level of significance (Type 1 error level) shall be no less than 0.01, for individual well comparisons, and no less than 0.05, for multiple well comparisons. The statistical analysis shall include, but not be limited to, the accounting of data below the detection limit of the

analytical method used, the establishment of background concentrations and the determination of whether statistically significant changes have occurred in:

A) The concentration of any chemical constituent with respect to the background concentration or maximum allowable predicted concentration; and

B) The established background concentration of any chemical constituents over time.

2) The statistical test or tests used shall be based upon the sampling and collection protocol of Sections 816.120 and 816.121.

3) Monitored data that are below the level of detection shall be reported as not detected (ND). The level of detection for each constituent shall be the minimum concentration of that constituent which can be reliably measured and reported within standard confidence limits, under routine laboratory operating conditions, which is defined as the PQL. The following procedures shall be used to analyze such data, unless an alternative procedure in accordance with subsection (e)(6), is shown to be applicable:

A) Where the percentage of non-detects in the data base used is less than 15 percent, the operator shall replace NDs with the PQL divided by two, then proceed with the use of one or more of the Normal Theory statistical tests listed in subsection (e)(4);

B) Where the percentage of non-detects in the data base or data transformations used is between 15 and 50 percent, and the data are normally distributed, the operator shall use Cohen's adjustment to the sample mean and standard deviation, followed by one or more of the tests listed in subsection (e)(4)(C). However, where data are not normally distributed, the operator shall use an applicable non-parametric test from subsection (e)(5);

C) Where the percentage of non-detects in the database used is above 50 percent, then the owner or operator shall use the test of proportions listed in subsection (e)(4).

4) Normal theory statistical tests

A) Student t-test including, but not limited to, Cochran's Approximation to the Behren-Fisher (CABF) t-test and Averaged Replicate (AR) t-test.

B) Parametric analysis of variance (ANOVA) followed by one or more of the multiple comparison procedures including, but not limited to, Fisher's Least Significant Difference (LSD), Student Newman-Kuel procedure, Duncan's New Multiple Range Test and Tukey's W procedure.

C) Control Charts, Prediction Intervals and Tolerance Intervals, for which the type I error levels shall be specified by the Agency in accordance with the requirements of 35 Ill. Adm. Code 724.197(i).

5) Non-parametric statistical tests shall include: Mann-Whitney U-test, Kruskal-Wallis test, a non-parametric analysis of variance (ANOVA) for multiple comparisons or the Wilcoxon Rank Sum test.

6) Any other statistical test based on the distribution of the sampling data may be used, if it is demonstrated to meet the requirements of 35 Ill. Adm. Code 724.197(i).

Section 816.123 Final Slope and Stabilization

a) All final slopes shall be designed and constructed to a grade capable of supporting vegetation and which minimizes erosion.

b) All slopes shall be designed to drain runoff away from the cover and which prevents ponding. No permanent standing water shall be allowed anywhere in or on the unit.

c) Vegetation

1) Vegetation shall be promoted on all reconstructed surfaces to minimize wind and water erosion of the final protective cover.

2) Vegetation shall be compatible with the climatic conditions.

3) Vegetation shall require little maintenance.

4) Vegetation shall consist of a diverse mix of native and introduced species that is consistent with the post-closure land use.

5) The root depth of the vegetation shall not exceed the depth of the final protective cover system;

6) Temporary erosion control measures, including but not limited to mulch straw, netting and chemical soil stabilizers, shall be undertaken while vegetation is being established.

d) Structures Constructed Over the Unit

1) Structures constructed over the unit must be compatible with the land use.

2) Such structures must in no way interfere with the operation of a cover system, or any monitoring system.

Section 816.124 Waste Checking Program

The operator shall annually certify the uniformity of the waste being received at the facility. At such time as the processes generating the waste and the projected waste characteristics change significantly, the operator shall, prior to changing the process, demonstrate pursuant to Section 811.119 that the design and SAP are still appropriate. The change shall not be initiated until Agency approval of an amended permit, except that if the Agency has not acted to approve or deny an amendment request within 90 days of receipt of that request, the change shall be considered approved from that time on. For the purposes of this Section, significant changes include, but are not necessarily limited to, changes in fuel type, gross design changes in the combustion process or gross design changes in pollution control

equipment affecting the type or quantity of combustion wastes produced.

1) The Heading of the Part: Standards for New Solid Waste Landfills

2) Code Citation: 35 Ill. Adm. Code 811

3)

Section Number:	Proposed Action:
811.101	Amended Section
811.301	Amended Section
811.401	Amended Section

4) Statutory Authority: Illinois Environmental Protection Act (Ill. Rev. Stat. 1989, ch. 111 1/2, pars. 1005, 1021, 1021.1, 1022, 1022.17, 1028.1 and 1027).

5) A Complete Description of the Subjects and Issues Involved:

A description of the proposed amendments and rules in Board Docket R90-25 is contained in the Board's March 14, 1991 First Notice Opinion and Order entitled, "In the Matter of: Utility Industry Amendments to the Landfill Regulations (Parts 810-815)". The Opinion and Order are available from the address below. The Opinion explains the reasons for the Board's proposed amendments to existing Parts 811 and 814, and proposed new Part 816, all of which appear in this issue.

In summary, the proposed amendments to Part 811 cross-reference proposed new Part 816, which regulates new landfills that dispose of coal combustion wastes generated by electric utilities.

6) Will these proposed amendments replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Do these proposed amendments contain incorporations by reference? No

9) Are there any other amendments pending on this Part? Yes

Section Numbers:	Proposed Action:	Ill. Reg. Citation:
811.101	Amended Section	15 Ill. Reg. 3166 (March 1, 1991)
811.401	Amended Section	15 Ill. Reg. 3166 (March 1, 1991)

10) Statement of Statewide Policy Objective:

The proposed amendments impose no new mandates on units of local government because the amendments reference new landfills that dispose of coal combustion wastes generated by electric utilities and that will be regulated by proposed new Part 816.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking:

The Board will accept written public comment on this proposal for a period of 45 days after the date of this publication. Comments should reference Board Docket R90-26 and be addressed to:

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
State of Illinois Center, Suite 11-500
100 West Randolph
Chicago, IL 60601

Persons who wish additional information concerning hearings and filing requirements should contact the Hearing Officer, Deborah Stonich, Illinois Pollution Control Board, State of Illinois Center, 100 W. Randolph, Suite 11-500, Chicago, IL 60601, (312) 814-6926.

12) Initial Regulatory Flexibility Analysis (if applicable):

A) Date amendments submitted to Business Assistance Office of the Department of Commerce and Community Affairs:

March 18, 1991

B) Types of small businesses affected:

The proposed amendments will affect new landfills that dispose of coal combustion wastes generated by electric utilities and that will be regulated by proposed new Part 816.

C) Reporting, bookkeeping or other procedures required for compliance:

The proposed amendments do not specify any reporting, bookkeeping, or other procedures required for compliance.

D) Types of professional skills necessary for compliance:

The proposed amendments do not specify any professional skills necessary for compliance.

The full text of the proposed amendments begins on the next page:

AUTHORITY: Implementing Sections 5, 21, 21.1, 22, 22.17 and 28.1 and authorized by Section 27 of the Environmental Protection Act (Ill. Rev. Stat. 1989, ch. 111 1/2, pars. 1005, 1021, 1021.1, 1022, 1022.17, 1028.1 and 1027.).

SOURCE: Adopted in R88-7 at 14 Ill. Reg. 15861, effective September 18, 1990; amended in R90-25 at 15 Ill. Reg. , effective .

NOTE: Capitalization indicates statutory language.

SUBPART A: GENERAL STANDARDS FOR ALL LANDFILLS

Section 811.101 Scope and Applicability

a) The standards of this Part apply to all new landfills, except those regulated pursuant to 35 Ill. Adm. Code 700 through 749. Subpart A contains general standards applicable to all new landfills. Subpart B contains additional standards for new landfills which dispose of only inert wastes. Subpart C contains additional

standards for new landfills which dispose of chemical and putrescible wastes, except for electric fossil fuel combustion waste landfills, which are regulated under 35 Ill. Adm. Code 816. 35 Ill. Adm. Code 816 contains standards for new landfills which dispose of electric utility fossil fuel combustion wastes.

b) This Part shall not apply until one year after the effective date of this Part to new landfills solely receiving the following wastes generated by the following industries, provided that proposed regulations of general applicability to that industry category are filed with the Board no later than December 1, 1990: wastes generated by foundries and primary steel production facilities and coal combustion wastes generated by electric utilities. The requirements of 35 Ill. Adm. Code 807 shall apply to such landfills during the interim period of one year after the effective date of this Part. This Part shall become effective immediately after December 1, 1990 if no proposal has been filed by that date.

c) All general provisions of 35 Ill. Adm. Code 810 apply to this Part.

(Source: Amended at 15 Ill. Reg. , effective).

SUBPART C: PUTRESCIBLE AND CHEMICAL WASTE LANDFILLS

Section 811.301 Scope and Applicability

In addition to the requirements of Subpart A, the standards f this Subpart apply to all landfills in which chemical and putrescible wastes are to be placed, except for electric fossil fuel combustion waste landfills, which are regulated under 35 Ill. Adm. Code 816.

(Source: Amended at 15 Ill. Reg. , effective).

SUBPART D: MANAGEMENT OF SPECIAL WASTES AT LANDFILLS

Section 811.401 Scope and Applicability

a) This Subpart applies to all landfills permitted by the Agency pursuant to Section 21 of the Act, including

landfills operated onsite, with or without a permit, that accept special wastes, except for electric fossil fuel combustion waste landfills, which are regulated under 35 Ill. Adm. Code 816.

b) The standards of this Subpart apply in addition to the standards of 35 Ill. Adm. Code 809.

c) Inspection, testing or acceptance of waste by a solid waste management facility shall not relieve the generator or transporter of responsibility for compliance with the requirements of 35 Ill. Adm. Code: Subtitle G.

(Source: Amended at 15 Ill. Reg. , effective).

1) The Heading of the Part: Visible and Particulate Matter Emissions

2) Code Citation: 35 Ill. Adm. Code 212

3)

Section Number:	Proposed Action:
212.110	Amend
212.111	Amend
212.113	Amend
212.423	New Section
212.424	New Section

4) Statutory Authority: Ill. Rev. Stat. 1989, ch.111½, par. 1027.

5) A Complete Description of the Subjects and Issues Involved:

The proposed regulations are applicable to a single portland cement manufacturing plant and related quarry operations owned and operated by Lone Star Industries in Oglesby, Illinois. The proposed regulatory changes would amend Part 211, Definitions General Provisions, 35 Ill. Adm. Code 211.122 and Part 212, Visible and Particulate Matter Emissions, 35 Ill. Adm. Code 212.110, 212.111, 212.113, 212.423 and 212.424. The proposed rule is a federally required rule as defined in Section 28.2(a) of the Illinois Environmental Protection Act ("Act"). The proposed rule is intended to satisfy the federal requirements for a State Implementation Plan ("SIP") for PM-10 for the Oglesby, Illinois area which area is designated as a "moderate" nonattainment area. The 1990 Clean Air Act Amendments require submission of a PM-10 SIP by Illinois by November 15, 1991.

6) Will this proposed rule replace an emergency rule currently in effect? No.

7) Does this rulemaking contain an automatic repeal date? _____ Yes _X_ No

8) Does this proposed amendment contain incorporations by reference? Yes. See Section 212.113 referred to herein. 35 Ill. Adm. Code 212.113.

9) Are there any other amendments pending on this Part?

Yes. R89-7(B) Continuous Monitoring Rules and Repeal of New Source Performance and Hazardous Air Pollutant Rules

Section Numbers:	Proposed Action:	Ill. Reg. Citation:
212.205	Amend	January 25, 1991 15 Ill. Reg. 791
212.443	Amend	January 25, 1991 15 Ill. Reg. 791

10) Statement of Statewide Policy Objective (if applicable)?

The Agency's policy objective is to propose enforceable State regulations for submission to the USEPA as the PM-10 State Implementation Plan (SIP) for the Oglesby, Illinois area that will bring about attainment and maintenance of the National Ambient Air Quality Standards (NAAQS) for PM-10. See also Ill. Rev. Stat. 1989, ch. 111½, par. 1008.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking:

Send written comments concerning R91-6 within 45 days of publication in the Illinois Register to the Clerk of the Pollution Control Board, 100 West Randolph Street, Suite 11-500, Chicago, Illinois 60601.

12) Initial Regulatory Flexibility Analysis (if applicable):

A) Date rule submitted to Business Assistance Office of the Department of Commerce and Community Affairs: March 5, 1991

B) Types of small businesses affected: None

C) Reporting, bookkeeping or other procedures required for compliance: The reporting, bookkeeping or other procedures have not been changed from the existing requirements.

D) Types of professional skills necessary for compliance: This regulation requires no change in the type of professional skills necessary for compliance.

Reg. 1410, effective December 30, 1986; amended in R82-1 (Docket B) at 12 Ill. Reg. 12492, effective July 13, 1988; amended in R91-6 at 15 Ill. Reg. _____, effective _____.

Section 212.110 Measurement Methods

a) Particulate Matter Measurement. Particulate matter emissions from stationary emission sources subject to this Part shall be determined by the procedures described in the American Society of Mechanical Engineers Power Test Code 27-1957 (Determining Dust Concentration in a Gas Stream) as revised from time to time, or by any other equivalent procedures approved by the Illinois Environmental Protection Agency (Agency).

b) Flow Rate and Gas Velocity Measurement. The volumetric flow rate and gas velocity shall be determined in accordance with 40 CFR 60, Appendix A, Methods 1, 1A, 2, 2A, 2C, 2D, 3 and 4, incorporated by reference in Section 212.113.

c) Opacity Measurement. Measurement of opacity shall be conducted in accordance with 40 CFR 60, Appendix A, Method 9 and 40 CFR 60.675(c) and (d), incorporated by reference in Section 212.113.

d) Visible Emissions Measurement. Detection of visible emissions shall be conducted in accrodance with 40 CFR 60, Appendix A, Method 22, incorporated by reference in Section 212.113.

e) Test Methods for PM-10 Emissions. Emissions of PM-10 shall be measured by any of the following methods at the option of the owner or operator of an emissions source.

1) 40 CFR 51, Appendix M, Method 201 and 55 FR 41546, Method 202, incorporated by reference in Section 212.113.

2) 40 CFR 51, Appendix M, Method 201A and 55 FR 41546, Method 202, incorporated by reference in Section 212.113.

3) 40 CFR 60, Appendix A, Method 5, incorporated by reference in Section 212.113, and 55 FR 41546, Method 202, incorporated by reference in Section 212.113, provided that all Particulate Matter measured by Method 5 shall be considered to be PM-10.

f) Upon a written request by the Agency, the owner or operator of a PM-10 emission source subject to this Section shall conduct the applicable testing specified in this Section for PM-10 emissions, opacity, or visible emissions at such person's own expense, to demonstrate compliance. Such test results shall be submitted to the Agency within 30 days of conducting the test or within 5 days of receipt of final results whichever is later.

g) A person planning to conduct testing for PM-10 emissions to demonstrate compliance shall give written notice to the Agency of that intent at least 30 days before the planned initiation of the tests so that the Agency may observe the test. Such notification shall state the specific test methods from this Section that will be used.

h) The owner or operator of an emission source subject to this Section shall retain records of all tests which are performed. These records shall be retained for at least three years after the date a test is performed.

i) This Section shall not affect the recordkeeping, inspections, monitoring, and entry authority of the U.S. Environmental Protection Agency under Section 114 of the Clean Air Act (42 U.S.C.A. par. 7401 et seq. (1990)).

(Source: Amended at ___ Ill. Reg. _____, effective _____)

Section 212.111 Abbreviations and Units

a) The following abbreviations are used in this Part:

btu	British thermal units (60¼ F)
dscf	dry standard cubic foot
ft	foot
fpm	feet per minute
gr	grains
gr/scf	grains per standard cubic foot
gr/dscf	grains per dry standard cubic foot
J	Joule
kg	kilogram
kg/MW-hr	kilograms per megawatt-hour
km	kilometer
l	liter
lbs	pounds
lbs/hr	pounds per hour
lbs/mmbtu	pounds per million btu
m	meter
mph	miles per hour
mg	milligram
mg/scm	milligrams per standard cubic meter
mg/dscm	milligrams per dry standard cubic meter
mg/l	milligrams per liter
Mg	megagram, metric tone or tonne
mi	mile
mmbtu	million British thermal units
mmbtu/hr	million British thermal units per hour
MW	megawatt; one million watts
MW-hr	megawatt-hour
ng	nanogram; one billionth of a gram
ng/J	nonograms per Joule
scf	standard cubic foot

scfm	standard cubic feet per minute
scm	standard cubic meter
T	English ton

b) The following conversion factors have been used in this Part:

English	Metric
2.205 lb	1 kg
1 T	0.907 Mg
1 lb/T	0.500 kg/Mg
mmbtu/hr	0.293 MW
1 lb/mmbtu	1.548 kg/MW-hr or 430 ng/J

English	Metric
1 mi	1.61 km
1 gr	64.81 mg
1 gr/scf	2289 mg/scm
1 square foot	0.0929 square meter
1 foot	0.3048 m

Section 212.113 Incorporations by Reference

The following materials are incorporated by reference. These incorporations do not include any later amendments or editions.

a) ASME Power Test Code 27-1957, Determining Dust Concentration in a Gas Stream, American Society of Mechanical Engineers, United Engineering Center, 345 E. 47th Street, New York, NY 10017.

b) Ringelmann Chart, Information Circular 833 (Revision of IC7718), Bureau of Mines, U.S. Department of Interior, May 1, 1967.

c) 40 CFR 60, Appendix A ~~(1987)~~ (1990)~~:~~:

1) Method 1: Sample and Velocity Traverses for Stationary Sources;

2) Method 1A: Sample and Velocity Traverses for Stationary Sources with Small Stacks or Ducts;

3) Method 2: Determination of Stack Gas Velocity and Volumetric Flow Rate (Type S pitot tube);

4) Method 2A: Direct Measurement of Gas Volume Through Pipes and Small Ducts;

5) Method 2C: Determination of Stack Gas Velocity and Volumetric Flow Rate in Small Stacks or Ducts (Standard Pitot Tube);

6) Method 2D: Measurement of Gas Volumetric Flow Rates in Small Pipes and Ducts;

7) Method 3: Gas Analysis for Carbon Dioxide, Oxygen, Excess Air, and Dry Molecular Weight;

8) Method 4: Determination of Moisture Content in Stack Gases;

9) Method 5: Determination of Particulate Emissions From Stationary Sources;

10) Method 9: Visual Determination of the Opacity of Emissions from Stationary Sources;

11) Method 22: Visual Determination of Fugitive Emissions from Material Sources and Smoke Emissions from Flares.

d) 40 CFR 51 Appendix M (1990):

1) Method 201: Determination of PM-10 Emissions;

2) Method 201A: Determination of PM-10 Emissions (Constant Sampling Rate Procedure).

e) 40 CFR 60.672(b), (c), (d) and (e) (1990).

f) 40 CFR 60.675(c) and (d) (1990).

SUBPART Q: STONE, CLAY, GLASS AND CONCRETE MANUFACTURING

Section 212.423 Emissions Limits for Portland Cement Manufacturing Plants Located in LaSalle County, South of the Illinois River.

a) Applicability. This Section shall apply to portland cement manufacturing plants in operation before September 1, 1990 located in LaSalle County, south of the Illinois River. This Section shall not alter the applicability of Sections 212.321 and 212.322 to portland cement manufacturing processes other than those for which alternate emission limits are specified in subsection (b). This Section shall not affect the applicability of 35 Ill. Adm. Code 201. 149.

b) No person shall cause or allow emissions of PM-10 to exceed either of the emission limits specified for each portland cement manufacturing process emission source listed below:

	PM-10 Emission Limits			
	Rate		Concentration	
	kg/hr	(lbs/hr)	mg/scm	(gr/scf)
1) Raw Mill Roller Mill(RMRM)	6.08	(13.4)	27.5	(0.012)
2) Kiln without RMRM operating	19.19	(42.3)	91.5	(0.040)
3) Kiln with RMRM operating	11.43	(25.2)	89.2	(0.039)
4) Clinker Cooler	4.85	(10.7)	32.0	(0.014)
5) Finish Mill High Efficiency Air Separator	2.77	(6.1)	27.5	(0.012)

c) No person shall cause or allow visible emissions from any portland cement manufacturing process emission source not listed in subsection (b).

d) Maintenance and Repair. The owner or operator of any process emission cource subject to subsections (b) or (c) shall maintain and repair all air pollution control equipment in a manner that assures that the applicable emission limits and standards in subsections (b) or (c) shall be met at all times. Proper maintenance shall include at least the following requirements:

1) Visual inspections of air pollution control equipment shall be conducted:

2) An adequate inventory of spare parts shall be maintained:

3) Prompt and immediate repairs shall be made upon identification of the need:

4) Written records of inventory and documentation of inspections, maintenance, and repairs of all air pollution control equipment shall be kept in accordance with subsection (e).

e) Recordkeeping of Maintenance and Repair.

1) Written records shall be kept documenting inspections, maintenance, and repairs of all air pollution control equipment. All such records required under this Section shall be kept and maintained for at least three (3) years, shall be available for inspection by the Agency, and, upon request, shall be copied and furnished to Agency representatives during working hours.

2) The owner or operator shall document any period during which any process emission source was in operation when the air pollution control equipment was not in operation or was not operating properly. These records shall be delivered to the Agency at least quarterly and shall include documentation of causes for pollution control equipment not operating or not operating properly, and shall state what corrective actions were taken and what repairs were made.

3) A written record of the inventory of all spare parts not readily available from locak suppliers shall be kept and updated.

4) Upon written request by the Agency, the owner or operator shall submitt any information required pursuant to Subpart Q, for any period of time specified in the request. Such information shall be submitted within ten (10) working days from the date on which the request is received.

f) Compliance Determination. Determination of compliance with PM-10, opacity and detection of visible particulate emissions limitations shall be made in accordance with the measurement methods specified in Section 212.110.

(Source: Added at ___ Ill. Reg. _____, effective _____)

Section 212.424 Fugitive Particulate Matter Control for Portland Cement Manufacturing Plants and Associated Quarry Operations Located in LaSalle County, South of the Illinois River.

a) Applicability. This section shall apply to portland cement manufacturing plants in operation before September 1, 1990 and associated quarry operations located in LaSalle County, south of the Illinois River. Associated quarry operations are those operations involving the removal and disposal of overburden, and the extraction, crushing, sizing, and transport of limestone and shale for usage at the portland cement manufacturing plant.

b) Applicability of Subpart K of this Part. This Section shall not alter the applicability of Subpart K: Fugitive Particulate Matter.

c) Fugitive Particulate Matter Control Measures For Roadways at the Plant.

1) For the unpaved access roadway to the Illinois Central Silos Loadout, the owner or operator shall spray a 30 percent solution of calcium chloride once every 16 weeks at an application rate of at least 1.58 liters per square meter (0.35 gallons per square yard) followed by weekly application of water at a rate of at least 1.58 liters per square meter (0.35 gallons per square yard).

2) The owner or operator of the Portland cement manufacturing plant shall keep written records in accordance with subsection (e).

d) Fugitive Particulate Matter Control Measures for Associated Quarry Operations.

1) For the primary crusher, the primary screen, the #3 conveyor from the primary screen to the surge pile, and the surge pile feeders to the #4 conveyor, the owner or operator shall spray a chemical foam spray of at least 1 percent solution of chemical foaming agent in water continuously during operations at a rate of at least 1.25 liters per megagram (0.30 gallons per ton) of rock processed.

2) The owner or operator shall water all roadways traveled by trucks to and from the primary crusher in the process of transporting raw limestone and shale to the crusher at an application rate of at

least 0.50 liters per square meter (0.10 gallons per square yard) applied once every eight hours of operation except under conditions specified in subsection (d)(3). Watering shall begin within one hour of commencement of truck traffic each day.

3) Subsection (d)(2) shall be followed at all times except under the following circumstances:

A) Precipitation is occurring such that there are no visible emissions or if precipitation occurred during the previous 2 hours such that there are no visible emissions;

B) If the ambient temperature is less than or equal to 0°C (32°F);or

C) If ice or snow build-up has occurred on roadways such that there are no visible emissions.

4) The owner or operator of the associated quarry operations shall keep written records in accordance with subsection (e).

e) Recordkeeping and Reporting

1) The owner or operator of any portland cement manufacturing plant and/or associated quarry operations subject to this Section shall keep written daily records relating to the application of each of the fugitive particulate matter control measures required by this Section.

2) The records required under this Section shall include at least the following:

A) the name and address of the plant;

B) the name and address of the owner or operator of the plant and associated quarry operations;

C) a map or diagram showing the location of all fugitive particulate matter sources controlled including the location, identification, length, and width of roadways;

D) for each application of water or calcium chloride solution, the name and location of the roadway controlled, the water capacity of each truck, application rate of each truck, frequency of each application, width of each application, start and stop time of each application, identification of each water truck used, total quantity of water or calcium chloride, including the concentration of calcium chloride used for each application;

E) for each application of chemical foam spray solution, the application rate and frequency of application, name of foaming agent, and total quantity of solution used each day;

F) name and designation of the person applying control measures; and

G) a log recording all failures to use control measures required by this Section with a statement explaining the reasons for each failure and, in the case of a failure to comply with the roadway watering requirements of subsection (d)(2), a record showing that one of the circumstances for exceptions listed in subsection (d)(3) existed during the period of the failure. Such record shall include, for example, the periods of time when the measured temperature was less than or equal to 0°C (32°F).

3) Copies of all records required by this Section shall be submitted to the Agency within ten (10) working days of a written request by the Agency.

4) The records required under this Section shall be kept and maintained for at least three (3) years and shall be available for inspection and copying by Agency representatives during working hours.

5) A quarterly report shall be submitted to the Agency stating the following: the required control measures, the dates required control measures were not implemented, the reasons that the control measures were not implemented, and the corrective actions taken. This report shall include those

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

times when subsection (e) is involved. This report shall be submitted to the Agency 30 calendar days from the end of a quarter. Quarters end March 31, June 30, September 30, and December 31.

SECRETARY OF STATE

NOTICE OF PROPOSED AMENDMENT(S)

1) Heading of Part: Certificates of Title, Registration of Vehicles

2) Code Citation: 92 Ill. Adm. Code 1010

3)

Section Number	Proposed Action
1010.425	New Section
1010.426	New Section
1010.740	Amendment

4) Statutory Authority: Implementing Chapter 3 and authorized by Section 2-104(b) of the Illinois Vehicle Title & Registration Law of the Illinois Vehicle Code (Ill. Rev. Stat. 1987, ch. 95 1/2, pars. 3-100 et seq. and 2-104(b))

5) A Complete Description of the Subjects and Issues Involved:

92 Ill. Adm. Code 1010.425 and 1010.426 are the guidelines establishing who may sue and who may issue the Non-Resident Driveway permit and 5-day permit, respectively.

92 Ill. Adm. Code 101.740 addresses the legislative changes in 3-403 of the Illinois Vehicle Code concerning trip and short term permits.

6) Will this proposed rule replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Do these proposed amendments contain incorporations by reference? No

9) Are there any other amendments pending on this Part? No

10) Statement of Statewide Policy Objectives: This rulemaking will have no effect on local units of government.

11) Time, Place, and Manner in which interested persons may comment on this proposed rulemaking. Written comments may be submitted within 45 days to:

Robert B. Powers
Assistant Counsel to the Secretary
Office of the Secretary of State
298 Centennial Building
Springfield, Illinois 62706
217/785-3094

SECRETARY OF STATE

NOTICE OF PROPOSED RULE(S)

12) Initial Regulatory Flexibility Analysis: After careful consideration, the Secretary of State does not feel that this rulemaking will have any adverse effect on small businesses and so this rulemaking was not submitted to the Small Business Office of the Department of Commerce and Community Affairs.

The full text of the proposed amendments begins on the next page:

Reg. 19066, effective November 15, 1990; amended at 15 Ill Reg. _____, effective _____.

SECRETARY OF STATE

NOTICE OF PROPOSED AMENDMENT(S)

Section 1010.425 Non-Resident Drive-Away Permits

a) For the purpose of this Section, the following definition shall apply:

"Authorized Agent" - A licensed remittance agent or dealer who has made application for and received Drive-Away Permits from the Secretary of State for issuance to subsequent permit purchasers.

"Non-Resident Drive-Away Permit" - a temporary registration permit as provided in Section 3-603 of the Illinois Vehicle Title & Registration Law of the Illinois Vehicle Code (Ill. Rev. Stat. 1987, ch. 95 1/2, pars. 3-603) which allows a vehicle to be operated on the highway for the primary purpose of allowing the vehicle to be driven from the place of acquisition to a destination outside of Illinois within a ten (10) day period. The permit can be issued by a licensed dealer, remittance agent or at most Secretary of State facilities.

"Permit Purchaser" - an Illinois resident or non-resident purchasing a Non-Resident Drive-Away Permit for a vehicle to be driven to a destination outside of Illinois.

"Secretary of State" - Secretary of State of Illinois.

b) If a permit purchaser obtains a Non-Resident Drive-Away Permit at a Secretary of State facility:

1) The permit purchaser shall complete a Vehicle Permit Application. The appropriate fee must accompany the application.

2) The permit purchaser shall provide proof that he/she owns the vehicle. Acceptable ownership documents include, but are not limited to:

A) a title issued in the permit purchaser's name;
B) a title assigned to the permit purchaser;
C) a Manufacturer's Certificate of Origin issued or assigned to the permit purchaser;
D) a registration identification card which has been expired less than one (1) year; or
E) verification through the Secretary of State computer file.

SECRETARY OF STATE

NOTICE OF PROPOSED AMENDMENT(S)

3) The Secretary of State employee shall attach a photocopy of the proof of ownership to the second part of the permit (the agent's copy). If ownership is verified through the Secretary of State's computer file, the information shall be written on the agent's copy.

4) The permits shall be issued in numerical sequence and completed in full containing the following information:

A) the expiration date of the permit;
B) the name and address of the permit purchaser (must show out-of-state address);
C) the year, make and vehicle identification number of the vehicle;
D) the name and address of the Secretary of State issuing facility; and
E) the signature of the Secretary of State employee.

c) If a dealer or remittance agent wishes to obtain permits for issuance as an authorized agent of the Secretary of State:

1) The dealer/remittance agent shall submit an application accompanied by the appropriate fee for each permit to the Secretary of State which contains the following information:

A) the name and address of the authorized agent and his/her license number;
B) the type and quantity of permits being requested; and
C) the signature of the authorized agent.

d) The sale of permits by an authorized agent is as follows:

1) If a permit purchaser obtains a permit from an authorized agent rather than a Secretary of State facility, he/she shall provide proof of ownership to the authorized agent as provided in subsection b) 2), A) through D).

2) The authorized agent shall attach a photocopy of the proof of ownership to the second part of the permit (agent's copy as provided in subsection b) 3)) and complete the Drive-Away Permit in full as provided in subsection b) 4). The only difference being that the permit will contain the name, address, and signature of the authorized agent rather than the Secretary of State facility address and the Secretary of State employee's signature.

3) The authorized agent shall issue the permits in numerical order. The authorized agent shall maintain records of the

SECRETARY OF STATE

NOTICE OF PROPOSED AMENDMENT(S)

permits issued for three (3) years. The Secretary of State or his representative shall have free access to the records of any such authorized agent issuing Drive-Away Permits.

e) The permit shall be displayed in the lower left side of the rear window of the vehicle. License plates are not to be displayed on the vehicle if the permit is being used. The permit can be issued to both First and Second Division vehicles. When properly displayed, the permit is an official document recognized by law enforcement agencies. (However, if the owner plans on carrying cargo in a second division vehicle, they will need to check with the various states for special requirements.)

f) Non-Resident Drive-Away Permits may be issued for a variety of situations including, but not limited to, the following:

1) a non-resident of Illinois who purchases a vehicle from an Illinois resident;
2) a non-resident of Illinois who purchases a vehicle from another non-resident of Illinois within the State of Illinois;
3) an Illinois resident who has expired Illinois registration or Illinois registration that will expire in less than ten (10) days and who has or will be establishing residency in another state, if the out-of-state address is provided on the application; or
4) an Illinois resident who was issued an Illinois title, but was not issued license plates because he/she is moving to another state, if the out-of-state address is provided on the application.

(Source: Added at 15 Ill. Reg. _____, effective _____)

Section 1010.426 Five Day Permits

a) For the purpose of this Section, the following definition shall apply:

"Authorized Agent" - A licensed remittance agent or dealer who has made application for and received Five Day Permits from the Secretary of State for issuance to subsequent permit purchasers.

"Five Day Permit" - a temporary registration permit as provided in Section 3-403 of the Illinois Vehicle Title & Registration Law of the Illinois Vehicle Code (Ill. Rev. Stat. 1987, ch. 95 1/2, pars. 3-403) issued to an Illinois resident for operation of a non-registered vehicle within the State of

SECRETARY OF STATE

NOTICE OF PROPOSED AMENDMENT(S)

Illinois for up to five (5) days. In addition, the permit can be issued to a person whose registration is suspended for non-compliance with the Emissions program. This will allow the person to drive to an emissions testing station or repair facility. The permit can be issued by a licensed dealer, remittance agent or at most Secretary of State facilities.

"Permit Purchaser" - an Illinois resident purchasing a Five Day Permit for his/her non-registered vehicle.

"Secretary of State" - Secretary of State of Illinois.

b) If a permit purchaser obtains a Five Day Permit at a Secretary of State facility:

1) The permit purchaser shall complete a Vehicle Permit Application. The appropriate fee must accompany the application as provided in Section 3-403 of the Illinois Vehicle Title & Registration Law of the Illinois Vehicle Code.

2) The permit purchaser shall provide proof that he/she owns the vehicle. Acceptable ownership documents include, but are not limited to:

A) a title issued in the permit purchaser's name;
B) a title assigned to the permit purchaser;
C) a Manufacturer's Certificate of Origin issued or assigned to the permit purchaser;
D) a registration identification card which has been expired less than one (1) year; or
E) verification through the Secretary of State computer file.

3) The Secretary of State employee shall attach a photocopy of the proof of ownership to the second part of the permit (the agent's copy). If ownership is verified through the Secretary of State's computer file, the information shall be written on the agent's copy.

4) The permits shall be issued in numerical sequence and completed in full containing the following information:

A) the issuance date and expiration date of the permit;
B) the name and address of the permit purchaser;
C) the year, make and vehicle identification number of the vehicle;
D) the name and address of the Secretary of State issuing

SECRETARY OF STATE

NOTICE OF PROPOSED AMENDMENT(S)

facility; and
E) the signature of the Secretary of State employee.

c) If a dealer or remittance agent wishes to obtain permits for issuance as an authorized agent of the Secretary of State:

1) The dealer/remittance agent shall submit an application accompanied by the appropriate fee as provided in Section 3-403 of the Illinois Vehicle Title & Registration Law of the Illinois Vehicle Code for each permit to the Secretary of State which contains the following information:

A) the name and address of the authorized agent and his/her license number;
B) the type and quantity of permits being requested; and
C) the signature of the authorized agent.

d) The sale of permits by an authorized agent is as follows:

1) If a permit purchaser obtains a permit from an authorized agent rather than a Secretary of State facility, he/she shall provide proof of ownership to the authorized agent as provided in subsection b) 2), A) through D).

2) The authorized agent shall attach a photocopy of the proof of ownership to the second part of the permit (agent's copy as provided in subsection b) 3)) and complete the Five Day Permit in full as provided in subsection b) 4). The only difference being that the permit will contain the name, address, and signature of the authorized agent rather than the Secretary of State facility address and the Secretary of State employee's signature.

3) The authorized agent shall issue the permits in numerical order. The authorized agent shall maintain records of the permits issued for three (3) years. The Secretary of State or his representative shall have free access to the records of any such authorized agent issuing Five Day Permits.

e) The permit shall be displayed in the lower left side of the rear window of the vehicle. License plates are not to be displayed on the vehicle if the permit is being used. The permit can be issued to both First and Second Division vehicles, but second division vehicles shall be operated on empty weight. When properly displayed, the permit is an official document recognized by law enforcement agencies.

SECRETARY OF STATE

NOTICE OF PROPOSED AMENDMENT(S)

f) Five Day Permits may be issued for a variety of situations including, but not limited to, the following:

1) test driving a vehicle being sold by a non-dealer without current registration;
2) driving a vehicle which has its own license plates suspended because of failure to comply with the emissions requirements to an EPA testing station; and
3) if the registration of a vehicle has expired.

(Source: Added at 15 Ill. Reg. _____, effective _____)

Section 1010.740 Trip and Short-term Permits

a) One-trip permits: 72 hours or 3 calendar days.

1) Interstate Movements by "Commercial Vehicles".

A) One-trip permits for the operation within Illinois of "commercial vehicle" whether for-hire or not-for-hire, when such are not eligible for reciprocity, may be issued on an occasional basis for a specific short-term or emergency use. However, such permits are not available for:

i) Vehicle eligible for Reciprocity and which must possess in their cabs Illinois Reciprocity Permits.
ii) Vehicles eligible for apportionment unless, in the discretion of the Secretary, it is impractical to apportion or prorate a particular vehicle.
iii) Qualifying a "not-for-hire" vehicle for a "for-hire" movement.
iv) In lieu of required registration except as herein provided.
v) To qualify a vehicle for intrastate movements unless otherwise provided for in this rule.

B) Permits may be issued in advance of a movement in the name of the applicant, and the applicant may then complete the vehicle data required in advance of the movement. However, data must be typed in before the movement commences to prevent re-use of the same permit.

C) A permit is valid for only one trip or one round-trip by one vehicle or combination but once. Copies of used

SECRETARY OF STATE

NOTICE OF PROPOSED AMENDMENT(S)

permits must be retained for four calendar years and be available for audit.

D) A permit shall be valid for only one proper use within 90 days after issuance and shall be void thereafter.

E) A "carnival" vehicle properly registered in a reciprocal jurisdiction which has come to rest at a point in Illinois and which is then to be moved to another point in Illinois in an intrastate movement shall be eligible for a one-trip permit for carnival purposes only. No blank permits will be issued.

F) No permit is required for a semitrailer or trailer if the motor vehicle drawing or towing the same has a valid permit including the gross weight of the trailing vehicle.

2) Other Limitations and Restrictions. Limitations and restrictions affecting permits are as follows:

A) Reclassification of any permit is not permissible.
B) Transfer of any permit is not permissible.
C) Refunds for an unused permit are not available.
D) Replacement of a lost permit is not permissible.
E) Vehicles required by law to be registered in Illinois for a calendar or fiscal year are not eligible for any permit.

b) One-month ~~or three month~~ Registration Permits.

1) A registration permit for one calendar month~~, or for three calendar months comprising a normal quarter of a year,~~ may be issued to vehicles of the second division, only on an occasional basis or for a specific and special short-term use. Such permits may not be issued to vehicles which are required by law to be registered on an annual basis.

2) Therefore, such registrations shall be limited to the following situations:

A) Carnival vehicles registered in other States and used only temporarily in Illinois in intrastate movements.
B) Itinerant farm trucks registered in other States, leased by an Illinois farmer, and the owner thereof picks produce and delivers it to the point of first processing.

SECRETARY OF STATE

NOTICE OF PROPOSED AMENDMENT(S)

C) School buses displaying an Illinois school bus plate, for charter operations within Illinois~~ during the summer months.~~

3) All such permits shall be restricted as follows:

A) No refunds will be accepted or granted.
B) Reclassification of a permit will not be permitted.
C) Transfer of a permit from one person to another or from one vehicle to another will not be permitted.
D) Replacement of a lost permit will not be made.
~~E)~~ ~~The number of such permits in any fiscal year shall be limited as follows:~~
~~i) One 3-month permit per vehicle, or~~
~~ii) Two 1-month permits per vehicle, or~~
~~iii) One 1-month permit plus one 3-month permit per vehicle, or~~
~~iv) One 1-month permit plus one 3-month permit plus one 1-month permit per vehicle, and~~
EF) The permit shall be subject to revocation for a violation or if it is not affixed permanently to the vehicle.

DEPARTMENT OF CONSERVATION

NOTICE OF ADOPTED AMENDMENTS

1) HEADING OF THE PART: Sport Fishing Regulations for the Waters of Illinois

2) CODE CITATION: 17 Ill. Adm. Code 810

3)

SECTION NUMBERS:	ADOPTED ACTION:
810.30	Repealed
810.35	New Section
810.37	New Section
810.40	Repealed
810.45	New Section
810.50	Amendments
810.70	Amendments

4) STATUTORY AUTHORITY: Implementing and authorized by Sections 1.4, 1.5, 1.10, 2.1, 3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.7, 3.9, 3.10, 3.12, 3.14, 3.18, 3.19, 4.11, 5.1, 5.7, and 6.1 of the Fish Code of 1971 (Ill. Rev. Stat. 1989, ch. 56, pars. 1.4, 1.5, 1.10, 2.1, 3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.7, 3.9, 3.10, 3.12, 3.14, 3.18, 3.19, 4.11, 5.1, 5.7, and 6.1)

5) EFFECTIVE DATE OF AMENDMENTS: March 18, 1991

6) DOES THIS RULEMAKING CONTAIN AN AUTOMATIC REPEAL DATE? No

7) DO THESE AMENDMENTS CONTAIN INCORPORATIONS BY REFERENCE? No

8) DATE FILED IN AGENCY'S PRINCIPAL OFFICE: March 12, 1991

9) NOTICE OF PROPOSAL PUBLISHED IN ILLINOIS REGISTER: November 30, 1990, 14 Ill. Reg. 18905

10) HAS JCAR ISSUED A STATEMENT OF OBJECTIONS TO THESE RULES: No

11) DIFFERENCES BETWEEN PROPOSAL AND FINAL VERSION:

In the Main Source Note and all Section Source Notes, "14" Ill. Reg. was changed to "15".

In Section 810.37(b)(4), "will" was changed to "shall".

In Section 810.37(b)(12), "may" was changed to "shall" in two places.

In Section 810.37(b)(18), "will" was changed to "shall".

DEPARTMENT OF CONSERVATION

NOTICE OF ADOPTED AMENDMENTS

In Section 810.45, the following changes were made:

Defiance Lake, "State" was misspelled.

Dixon Springs, a period was added following the first "Ag".

Fox Ridge, "6 Fish Daily Creel Limit" was replaced with "14 Minimum Length Limit".

Hillsboro Old City Lake, City of Hillsboro, "Large or Smallmouth Bass (14) - 12-15" Slot Length Limit (3)" was added at the end of the paragraph.

Horseshoe Lake, Madison Co., was removed entirely.

This paragraph was changed to read as follows: "Jackson Park, Jackson Park Lagoon (including Columbia Basin) Chicago Park District".

McCullom Lake, "McHenry County Conservation District" was replaced with "City of McHenry".

Mississippi River (between IL and MO), "Walleye or Sauger" was changed to "Walleye and Sauger".

Montrose Lake, "Effingham" was replaced with "Cumberland".

Otter Lake, "Large or Smallmouth Bass (14) - 3 Fish Daily Creel Limit" was added at the end of the paragraph.

Pana Lake, "Christian County" was changed to "Shelby and Christian Counties".

Pocahontas Park Pond, "County" was misspelled.

In Section 810.50(a)(3), all the language was removed and replaced with "Aquatic life protected under 17 Ill. Adm. Code 1010 - Illinois List of Endangered and Threatened Fauna may not be taken for any purpose including bait fishing".

12) HAVE ALL THE CHANGES AGREED UPON BY THE AGENCY AND JCAR BEEN MADE AS INDICATED IN THE AGREEMENT LETTER ISSUED BY JCAR? Yes

13) WILL THESE AMENDMENTS REPLACE AN EMERGENCY RULE (AMENDMENT, REPEALER) CURRENTLY IN EFFECT? No

DEPARTMENT OF CONSERVATION

NOTICE OF ADOPTED AMENDMENTS

14) ARE THERE ANY AMENDMENTS PENDING ON THIS PART? No

15) SUMMARY AND PURPOSE OF AMENDMENTS: This Part provides necessary protection and conservation of the fisheries resources present on State-managed waters in the face of increasing fishing pressure and angler usage of aquatic resources statewide as well as individual sites. Based on the results of biological surveys and subsequent data analyses, the Division of Fisheries has determined that these amendments are necessary for the maintenance and/or production of quality fisheries in State-managed waters.

16) INFORMATION AND QUESTIONS REGARDING THESE ADOPTED AMENDMENTS SHALL BE DIRECTED TO:

Jack Price
Department of Conservation
524 S. Second Street, Room 485
Springfield, IL 62701-1787

(Source: Repealed at 15 Ill. Reg. 4699, effective March 18, 1991)

Section 810.35 Statewide Sportfishing Regulations - Daily Catch and Size Limits

a) CHANNEL CATFISH

There are no daily catch or size limits except in those waters listed under Site Specific Regulations.

b) LARGEMOUTH BASS, SMALLMOUTH BASS, SPOTTED BASS

Daily catch limit is 6 bass, either singly or in the aggregate, except as specified under Site Specific Regulations. There is no size limit except in those waters listed under Site Specific Regulations.

c) MUSKELLUNGE, NORTHERN PIKE AND THEIR HYBRIDS

1) All muskellunge and muskellunge hybrids (tiger muskie) taken must be 30 inches in total length or longer.

DEPARTMENT OF CONSERVATION

NOTICE OF ADOPTED AMENDMENTS

2) No more than 1 muskellunge or muskellunge hybrid (tiger muskie), either singly or in the aggregate may be taken per day.

3) All northern pike taken must be 24 inches in total length or longer, except in the Mississippi River where there is no size limit.

4) No more than 3 northern pike may be taken per day, except as specified under Site Specific Regulations.

d) CRAPPIE (BLACK AND WHITE CRAPPIE)

There are no catch or size limits except in those waters listed under Site Specific Regulations.

e) BLUEGILL AND REDEAR SUNFISH

There are no catch or size limits except in those waters listed under Site Specific Regulations.

f) STRIPED BASS (OCEAN ROCKFISH), WHITE BASS AND HYBRIDS

There are no daily catch limits or minimum size limits for striped bass (ocean rockfish), white bass, and their hybrids which are less than 17 inches in total length, except in those waters listed under Site Specific Regulations. For these fish 17 inches in total length or longer, the daily limit is 3 fish, either singly or in the aggregate.

g) TROUT AND SALMON

Daily catch limit is 5 trout or salmon, either singly or in the aggregate, not more than 3 of which may be lake trout.

h) WALLEYE AND SAUGER

Daily catch limit is 6 walleye or sauger, either singly or in the aggregate, except in those waters listed under Site Specific Regulations. There is no size limit except in those waters listed under Site Specific Regulations.

(Source: Added at 15 Ill. Reg. 4699, effective March 18, 1991)

Section 810.37 Definitions for Site Specific Sportfishing Regulations

a) Site Specific Regulations are listed by water area affected. The coverage of the regulation is dictated by the extent of the water area listed and not by the county. In some cases, regulations for a given water area or site may extend beyond the county(ies) listed. The county(ies) listed refer to the location of the dam or outfall for impoundments or mouths of small streams. Since large rivers or streams usually flow through many counties, the term "Multiple" is used rather than listing all counties where the large stream or river flows.

DEPARTMENT OF CONSERVATION

NOTICE OF ADOPTED AMENDMENTS

b) The subsections listed below are referred to by number in Section 810.45. Each water area listed in Section 810.45 has numbers in parenthesis which explain all of the definitions in this Section which apply to that water area.

1) Anglers must not use more than 2 poles and each pole must not have more than 2 hooks or lures attached while fishing, except that legal size cast nets, (in accordance with subsection 810.50 (a)(1)) shad scoops, and minnow seines may be used to obtain shad, minnows, and crayfish to use as bait, provided that they are not sold.

2) Includes black and white crappie, singly or in the aggregate.

3) All largemouth and smallmouth bass taken must be less than 12 inches in total length or greater than 15 inches in total length.

4) Except that sport fishermen shall be allowed to use trot lines, bank poles and jugs, and except that the use and aid of underwater breathing devices for the purpose of taking channel catfish and flathead catfish is prohibited.

5) Except that carp, buffalo, and bowfin may be taken by pitchfork, bow and arrow devices, and gigs.

6) Including the Fox River south of the Illinois-Wisconsin line to the McHenry Dam.

7) Except that carp, buffalo, suckers and gar may be taken by bow and arrow devices or spears during May and June.

8) Except that sport fishermen may take carp by means of pitchfork, bow and arrow devices and gigs during May and June.

9) Except that all fishing is prohibited in any area from Monday's Bridge upstream to the state property line east of headquarters, and in an area from a point 300' upstream of trail marker 0, upstream to trail marker 4.

10) It shall be illegal to possess trout during the period of October 1 to 5 a.m. on the third Saturday in October (both dates inclusive) which were taken during that period.

11) It shall be illegal to possess trout during the period of March 15 to 5 a.m. on the 1st Saturday in April (both dates inclusive) which were taken during that period.

12) Daily catch limit for largemouth or smallmouth bass, singly or in the aggregate, shall not exceed 6 fish per day, no more than one of which shall be greater than 15 inches in length and none of which shall be greater than 12 inches and less than or equal to 15 inches in length.

DEPARTMENT OF CONSERVATION

NOTICE OF ADOPTED AMENDMENTS

13) Except that jug fishing is permitted from the hours of sunset to sunrise, and except that carp and buffalo may be taken by bow and arrow devices during May and June. All jugs must have owner's/user's name and complete address affixed.

14) Daily catch limit includes all fish species (either singly or in the aggregate) caught within each of the following fish groupings.

A) Largemouth or Smallmouth Bass
B) Walleye or Sauger
C) Bluegill or Redear Sunfish

15) Daily catch limit includes black and/or white crappie either singly or in the aggregate.

16) Daily catch limit includes Striped Bass, White Bass and Hybrid Bass either singly or in the aggregate.

17) Daily catch limit shall not exceed 10 fish daily, no more than 3 of which may be 17 inches or longer in length.

18) Except that sport fishermen shall be allowed to use trot lines and bank poles in the portions of the lake that lie north of the Davenport Bridge and northeast of the Parnell Bridge.

19) Except that sport fishermen may take carp, buffalo, gar, and bowfin by means of pitchfork and bow and arrow devices.

20) Carlyle Lake (including its tributary streams and those portions of the Kaskaskia River and Hurricane Creek up to the U.S. Army Corps of Engineers Carlyle Lake Project boundaries), U.S. Army Corps of Engineers, Bond, Clinton, and Fayette Counties.

21) Lake Shelbyville (including its tributary streams and those portions of the West Okaw and Kaskaskia Rivers up to Lake Shelbyville Project boundaries), Lake Shelbyville Project Ponds and Woods Lake, U.S. Army Corps of Engineers, Shelby and Moultrie Counties.

22) Rend Lake (including its tributary streams and those portions of the Big Muddy and Casey Fork Rivers up to the Rend Lake Project boundaries), Rend Lake Project Ponds, U.S. Army Corps of Engineers, Franklin and Jefferson Counties.

23) Lake Vermilion and the portion of the North Fork of the Vermilion River between the Lake Vermilion Dam and the Interstate Water Company's Pump Station Spillway, Vermilion County Conservation District, Vermilion County.

24) 10 Fish Daily Creel Limit of which no more than 6 may be walleye.

DEPARTMENT OF CONSERVATION

NOTICE OF ADOPTED AMENDMENTS

(Source: Added at 15 Ill. Reg. 4699, effective March 18, 1991)

Section 810.40 Daily Catch and Size Limits (Repealed)

~~a) Length is measured from the tip of the snout to the end of the tail with the fish laid flat on a ruler, with mouth closed and tail lobes pressed together.~~

~~b) No Person may remove the head or tail of fishes to which length limits apply while on the waters to which length limits apply. Regardless of where taken, no fish less than the specified minimum length or more than the daily catch shall be possessed on the waters to which length limits and/or daily catch limits apply.~~

~~c) Limits by type of fish~~

~~1) CHANNEL CATFISH~~

~~A) Statewide Regulations.~~

~~There are no daily catch or size limits except in those waters listed under Site Specific Regulations.~~

~~B) Site Specific Regulations.~~

~~Daily catch limit is 6 channel catfish in the following waters:~~

~~Allison Lake, City of Allison, Logan County~~

~~Andover Lake, City of Andover, Henry County~~

~~vi) Daily catch limit shall not exceed 1 walleye or sauger, either singly or in the aggregate, in the following waters:~~

~~Powerton Lake, Tazewell County~~

(Source: Repealed at 15 Ill. Reg. 4699, effective March 18, 1991)

Section 810.45 Site Specific Water Area Regulations

Fishing regulations, including species of fish, fishing methods and daily catch limits are listed for each water area. The numbers in parenthesis refer to the corresponding numbered definitions in Section 810.37 of this Part. The word "All" refers to the fishing methods allowed. If a water area is not listed or if a specific species is not listed, then state-wide restrictions apply. Check the bulletin boards at the specific site for any emergency changes to regulations.

NOTICE OF ADOPTED AMENDMENTS

Section 810.50 Bait Fishing

a) Statewide regulations.

1) Legal sized cast nets, shad scoops, and minnow seines may be used to obtain shad, minnows and crayfish to use as bait, provided that they are not sold or bartered. All cast nets shall be not larger than 8 feet in diameter or of a mesh size not larger than 3/8 inch bar measurement. All shad scoops shall be not larger than 30 inches in diameter or of a mesh size not larger than 1/2 inch bar measurement or longer than 4 feet in length. Minnow seines shall not be longer than 20 feet, deeper than 6 feet or contain mesh size larger than 1/2 inch bar measurement.

2) Persons possessing a valid sport fishing license or combination hunting and fishing license may take mussels~~, except those listed below,~~ only by hand to use as bait. The daily limit and possession limit is 25. All mussels taken shall not be less than 2 1/2 inches on the shortest line from the center of the hinge side and at a right angle across the shell to the outer edge. The season is April 15 to September 30, both dates inclusive.

3) ~~The following mussels may not be taken:~~

~~Fat Pocketbook (Potamilus capax)~~

~~Higgin's Eye Pearly Mussel (Lampsilis higginsi)~~

~~Orange-footed Pearly Mussel (Plethobasis cooperianus)~~

~~Pink Mucket Pearly Mussel (Lampsilis orbiculata orbiculata)~~

~~Rough Pigtoe Pearly Mussel (Pleurobema plenum)~~

~~Sampson's Pearly Mussel (Epioblasma sampsoni)~~

~~Tuberculed-blossom Pearly Mussel (Epioblasma torulosa torulosa)~~

~~White Cat's Paw Pearly Mussel (Epioblasma obliquata perobliqua)~~

~~White Wartyback Pearly Mussel (Plethobasis cicatricosus)~~

Aquatic life protected under 17 Ill. Adm. Code 1010 - Illinois List of Endangered and Threatened Fauna may not be taken for any purpose including bait fishing.

b) Site specific regulations.

None.

AUTHORITY: Implementing and authorized by Sections 1.3, 1.4, 1.13, 2.24, 2.25, 2.26 and 3.36 of the Wildlife Code (Ill. Rev. Stat. 1989, ch 61, pars. 1.3, 1.4, 1.13, 2.24, 2.25, 2.26 and 3.36).

SOURCE: Adopted at 15 Ill. Reg. 4777, effective March 18, 1991.

Section 660.10 Statewide Season

Season: One-half hour before sunrise on Friday of the third 3-day weekend in December to sunset on Sunday of the third 3-day weekend in December. Shooting hours are half hour before sunrise to sunset.

Section 660.20 Statewide Deer Permit Requirements

a) Illinois resident hunters must have a current, valid "Muzzleloading Rifle Deer Permit" ($15.00). A "Non-Resident Muzzleloading Rifle Deer Permit" may be obtained by non-residents of Illinois provided that they shall be charged the same fee as an Illinois resident would be charged for a deer hunting permit by the State in which the applicant resides except in no case shall the fee be less than $50.00, and if the State in which the applicant resides does not provide for deer hunting by Illinois residents, then the fee shall be $100.00. A permit is issued for one county and is valid only in the county stated on the permit. For permit applications and other information write to:

DEPARTMENT OF CONSERVATION

NOTICE OF ADOPTED RULES

Department of Conservation
(Muzzleloading Rifle)
Deer Permit Office
524 South Second Street, Room 210
P.O. Box 19227
Springfield, IL 62794-9227

b) Applications shall be accepted through April 30, of the current year. Applications received after April 30 shall not be included in the lottery. Permits shall be allocated in a computerized random drawing in which the first choice of hunt areas or counties shall be allocated before the second choice areas are considered. Each applicant must enclose a separate $15.00 fee (check or money order) payable to the Department of Conservation.

c) Counties with unfilled quotas after the drawing shall be allocated in a random drawing procedure August 1 through October 31. Applications for the random daily drawing shall be accepted beginning August 1 of the current year. A list of unfilled counties shall be announced prior to the August application dates. Applicants must apply on a current year "Muzzleloading Rifle" Deer Permit application form. All applications for the random daily drawing shall be processed individually.

d) In-person and mail-in applications shall receive equal treatment in the drawings. For the random daily drawing, applications received one day shall not be processed until all applications received for that day are mixed proportionately (mail and over the counter receipts). All applications received on a specific day shall be processed before processing applications received for a subsequent day.

e) Applicants must complete all portions of the current year permit application form. Incomplete or incorrect applications shall be returned along with the applicant's permit fee for correction or completion if received in this office prior to April 30, of the current year. No more than 6 single applications per envelope shall be accepted. Each applicant must submit a separate personal check or money order. Separate envelopes must be used to send permit applications to the Deer Permit Office for regular firearm, muzzleloading rifle, archery, and free or paid landowner/tenant permits.

f) Applications for non-resident muzzleloading rifle firearm

DEPARTMENT OF CONSERVATION

NOTICE OF ADOPTED RULES

permits shall be accepted beginning October 15.

g) Applicants may apply as of November 1 for a regular season firearm permit ($15.00 fee), issued in a random daily drawing, for any permits left over from the county quotas to hunt the firearm season. Applicants may be anyone that:

1) is applying for their first permit;

2) was previously issued one firearm or one muzzleloading rifle or one archery permit;

3) was previously issued one firearm or one muzzleloading rifle and one archery permit; or

4) was previously issued two archery permits.

h) Hunter preference in obtaining a permit shall be given to unsuccessful lottery applicants from the previous year who were unsuccessful due to the county of their choice being full. The following criteria must be met to obtain a preference in the permit lottery.

1) The applicant must apply using the official agency preprinted data-mailer application.

2) The applicant must be a resident of the state, be eligible to receive a Muzzleloading Rifle Deer Permit, and not had deer hunting privileges revoked pursuant to Section 660.50.

3) The applicant must apply for the same first county choice which he/she listed on the previous year's application. Preference for a permit is valid only for the first county choice.

4) Where applicants apply as a group, preference for the entire group shall apply as it does above for the individual. All first county choices for the group must be identical.

i) Applications shall be accepted at the counter window of the permit office; however, permits shall be mailed.

j) Permits are not transferrable. Refunds shall not be granted unless the Department of Conservation (Department) has erroneously issued the permit after the

quota has been depleted or where the applicant was successful in obtaining a permit.

k) A three dollar ($3.00) service fee shall be charged for replacement permits issued by the Department, except when permits are lost in the mail, then there shall be no charge. Monies derived from this source shall be deposited in the Wildlife and Fish Fund.

l) Each applicant must enclose a separate $15.00 (check or money order) payable to the Department of Conservation, or the application shall be returned. Applicants should not send cash with their applications. The Department shall not be responsible for cash sent through the mail.

m) Persons with lottery preferences (i.e., who did not receive a separate Muzzleloading Rifle Deer Permit during the previous year's lottery) shall have first chance at receiving available permits the following year.

Section 660.21 Deer Permit Requirements - Landowner/Tenant Permits - Paid and Free

Unfilled landowner and tenant firearm deer permits, either paid or free, issued pursuant to 17 Ill. Adm. Code 650.21, shall be valid during the muzzleloading rifle season. However, the only valid weapon during the muzzleloading rifle season is a muzzleloading rifle which meets the requirements of Section 660.30.

Section 660.25 Deer Permit Requirements - Group Hunt

a) Up to six individuals may apply to hunt as a group. If applicants are applying in a group, all applications for the group must be sent to the Department in the same envelope. All applications for the group shall be processed together only if they are received in the same envelope. Any applications indicating participation in a group that are not received in the same envelope shall be processed separately.

b) Each individual must sign his or her own application.

c) In order to receive preference of the group, all members must have preference for the same county choice. If any member does not have preference for the group's first county choice, the entire group shall not receive preference. The group leader's hunter number is the number identified in the hunter number field on the group

leader's application mailer. If the application mailer is lost, the applicant should contact the Permit Office for the lead number.

d) Applicants applying as a group shall be rejected if they do not list the same first and second county choice and complete the group leader information listing the identical group leader.

Section 660.30 Statewide Muzzleloading Rifle Requirements

a) The only legal hunting device is a muzzleloading firearm of at least .45 caliber shooting a single projectile through a barrel of at least 16 inches in length.

b) All other firearms are illegal.

c) The standards and specifications for use of such muzzleloading firearm are as follows:

1) The minimum size of the muzzleloading firearm projectile shall be .440 caliber (wad or sleeve is not considered part of projectile).

2) Black powder or Pyrodex only may be used.

3) Removal of percussion cap or removal of prime powder from frizzen pan and attachment of a leather sheath or frizzen stall to flintlocks will constitute an unloaded gun.

Section 660.40 Statewide Deer Hunting Rules

a) Bag limits: one deer per legally authorized permit.

b) Totally white, white-tailed deer are protected pursuant to Section 2.24 of the Wildlife Code (Ill. Rev. Stat. 1989, ch. 61, par. 2.24) and are illegal to kill.

c) The Muzzleloading Rifle Deer Hunting Permit shall have signature, date of birth, Firearm Owners Identification number, hunting license number and physical description recorded on the permit and be worn on the back while hunting with hunter's name and address plainly visible.

d) The leg tag shall be attached and sealed to the leg of the deer at the kill site before the deer is moved or transported. Such leg tag shall remain with the deer

carcass while being processed for consumption or other purposes. The leg tag can be discarded only after the deer has been processed, prepared for consumption, and is at the legal residence of the person who legally took or possessed the deer. The head/antler or hide tag shall be attached to the head/antler and hide when detached from the carcass. The head/antler and hide tags shall remain attached to the head/antler or hide as long as the head/antler or hide remains in green state, or when in a commercial business for the purpose of taxidermy, tanning, or other manufacturing processing. Deer shall be checked in by the hunter in person by 7:00 p.m., the same day it is killed; either at the county check station or the nearest check station to the kill site.

e) Hunters shall not have in their possession, any deer permit issued to another person, during deer hunting hours (permits are non-transferrable).

f) Permits shall not be re-issued in cases involving deer taken which are found to be diseased or spoiled due to previous injury. Disposal of unfit deer taken shall be the responsibility of the hunter.

Section 660.50 Rejection of Application/Revocation of Permits

a) Any of the following shall result in rejection of an application:

1) Using hunting rights lease, or mineral rights lease or other lease for land which does not evidence a genuine farm tenancy to obtain a landowner or tenant firearm deer permit:

2) Submitting more than one application in the same name or by the same person for a Muzzleloading Rifle Deer Permit. This will also result in the forfeiture of application fees submitted.

3) It is illegal to apply for a muzzleloading rifle deer permit if you have applied for and received a regular shotgun firearm permit or have received two archery deer permits.

4) Providing false and/or deceptive information on the deer permit application form.

5) Submitting an application when the applicant has a

license or permit currently revoked pursuant to Section 3.36 of the Wildlife Code.

b) Any violation of Section 1.1, et seq., of the Wildlife Code or administrative rules of the Department, in addition to other penalties, may result in revocation of hunting licenses and permits as per 17 Ill. Adm. Code 2530.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF EMERGENCY AMENDMENTS

1) Heading of the Part: Health Facilities Planning Procedural Rules

2) Code Citation: 77 Ill. Adm. Code 1130

3) Section Numbers: Emergency Action:

1130.420 New Section

4) Statutory Authority:

The Health Facilities Planning Act
Ill. Rev. Stat. 1989, ch. 111 1/2, par. 1151 et seq.

5) Effective Date of Amendments:

March 18, 1991

6) If this emergency amendment is to expire before the end of the 150-day period, please specify the date on which it is to expire:

Not Applicable

7) Date Filed in Agency's Principal Office:

March 11, 1991

8) Reason for Emergency:

In 1990 the Department of Public Health, through its regulations on long-term care facilities, altered its requirements to allow 15-bed and under Intermediate care facilities for the developmentally disabled to add a 16th bed and still receive reimbursement under state regulation. The purpose for this revision was to expand the number of available beds in light of the number of fully utilized facilities and a growing waiting list for developmentally disabled placement.

In Illinois, the Health Facilities Planning Board has established regulations which prevent the addition of beds to facilities which have been operational for less than two years unless a permit for such addition is approved. To obtain a permit a fee of $700 is required, an application must be prepared and submitted and a public hearing held. This process takes up to 120 days. Facilities seeking to add the single bed under the revised state requirements are currently subject to this review. The delay caused by the permit process prevents the immediate establishment of these beds in areas where bed availability is of crucial concern to the families of developmentally disabled patients.

9) A Complete Description of the Subjects and Issues Involved:

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF EMERGENCY AMENDMENTS

The proposed emergency rule would exempt 15-bed and under facilities from the permit requirements associated with the addition of a single bed to reach the revised facility size maximum of 16 beds.

10) Are there any Proposed Amendments to this Part pending?

Yes X No ___

If Yes:

Section Numbers	Proposed Action	Ill. Reg. Citation
Appendix A	New Section	15 Ill. Reg. 428 1-18-91

11) Statement of Statewide Policy Objectives:

This rulemaking will not create or expand a State mandate.

12) Information and questions regarding this amendment shall be directed to:

Gail M. DeVito

EXECUTIVE ORDER
91-7
REVOCATION OF EXECUTIVE ORDER NUMBER 6 OF 1979

On September 27, 1979, Executive Order Number 6 entitled "An Executive Order Transferring the Office of Consumer Services, from the Governor's Office of Manpower and Human Development, to the Office of the Governor" was filed with the Secretary of State by Governor James R. Thompson. This order provided for the Office of Consumer Services within the Governor's Office to assist consumers in relation to proposed public utility rate changes and other proposed regulatory actions.

The Office of Public Council law subsequently was enacted by the General Assembly by P.A. 84-617, effective January 1, 1986. This office was given the power to intervene in and initiate proceedings deemed necessary to promote or protect the rights and interests of consumers of public utility or telecommunications services.

I believe that the services of the Office of Consumer Services can and should, insofar as possible, be consolidated within the Office of Public Counsel. This will improve efficiency in State government while reducing expenditures.

Therefore, I hereby revoke Executive Order Number 6 of 1979 and abolish the Office of Consumer Services, effective immediately.

Issued by the Governor March 18, 1991.

Filed with the Secretary of State March 18, 1991.

PROCLAMATION

91-085
NATIONAL ASSOCIATION OF WOMEN BUSINESS OWNERS MONTH

Whereas, the National Association of Women Business Owners (NAWBO) is the only organization in the state exclusively devoted to women business owners; and

Whereas, one-fourth of the businesses in our nation are owned by women, and their businesses contribute an estimated $100 billion to the economy; and

Whereas, NAWBO gets things done for women and small business owners at city, state, and national levels; and

Whereas, NAWBO helps its members grow increasingly strong and successful in business and supports the needs of emerging women business owners; and

Whereas, NAWBO encourages and develops leadership skills to move business owners into positions of influence; and

Whereas, NAWBO members impart public policy through active participation in the political and legislative process;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim March 1991 as NATIONAL ASSOCIATION OF WOMEN BUSINESS OWNERS MONTH in Illinois and encourage all citizens to recognize the contributions of women business owners to the economic development of our state.

Issued by the Governor March 7, 1991.

Filed with the Secretary of State March 18, 1991.

91-086
AGRICULTURE WEEK

Whereas, the State of Illinois remains a leader in production agriculture, with a strong supporting structure of ag-related businesses; and

Whereas, Illinois is a leader in the marketing of agricultural products, both domestically and internationally; and

Whereas, industry leaders and farmers are vigorously working with Soviet and Eastern Bloc countries in efforts which have worldwide implications; and

Whereas, the productivity of American agriculture is a vital ingredient in our strength as a nation, both at home and abroad; and

Whereas, in order to maintain this healthy agricultural environment, it is necessary that all Americans understand how agriculture affects their lives and well-being; and

Whereas, current issues relating to food safety and protection of the environment have further emphasized the importance of cooperative relations between consumers and production agriculture; and

Whereas, it is important for all Americans to be aware of their personal stake in an abundant food and fiber supply;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim March 17-23, 1991, as AGRICULTURE WEEK in Illinois. I urge all citizens to observe this week with appropriate ceremonies and activities, including a special emphasis on March 21, the first day of spring, which has been proclaimed "National Agriculture Day."

Issued by the Governor March 8, 1991.

Filed with the Secretary of State March 18, 1991.

91-087
DRINKING WATER WEEK

Whereas, an abundant supply of safe, high-quality water is as essential to the economic growth and productivity of our state as it is to our health, comfort, and standard of living; and

Whereas, the American Water Works Association, which represents more than 45,000 members, wishes to focus public attention on the services and goals of the water supply industry through Drinking Water Week; and

Whereas, through its dedication to advanced knowledge of design, operation, and management of water utilities, the association strives to continue providing better water for everyone--when and where they need it;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim May 5-11, 1991, as DRINKING WATER WEEK in Illinois and encourage our citizens to broaden their understanding of the goals and services of the water utilities in our state.

Issued by the Governor March 8, 1991.

Filed with the Secretary of State March 18, 1991.

91-088
PARKS AND RECREATION MONTH

Whereas, Illinois has had a long tradition as a state dedicated to the promotion of recreational opportunities for all its citizens; and

Whereas, Illinois is recognized as a national leader in the local delivery of park and recreation services; and

Whereas, the active use of leisure time develops personal skills, adds balance to life, engenders individual growth through physical fitness, and provides group interaction through participation in organized team sports; and

Whereas, the "Take Time for Fun" theme line and the accompanying State of Illinois logo are the federally registered trademarks of the recreation industry in Illinois. These trademarks signify a philosophy that active, rather than passive, use of free time creates opportunities for achievement and self-fulfillment; and

Whereas, strong local park and recreation services and quality park areas promote Illinois as an ideal state for visits

and vacations;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim July 1991 as PARKS AND RECREATION MONTH in Illinois. I urge all residents and visitors to take advantage of our state's beautiful parks and to participate in the special events being conducted by local park agencies throughout Illinois.

Issued by the Governor March 8, 1991.

Filed with the Secretary of State March 18, 1991.

91-089
PHI THETA KAPPA DAYS

Whereas, Phi Theta Kappa International Honor Society was founded in 1918 at Stephens College in Columbia, Missouri, to promote scholarship, fellowship, and leadership among students in two-year colleges; and

Whereas, Phi Theta Kappa is the only international honor society for two-year colleges that has membership extending as far as the European continent; and

Whereas, the theme for Phi Theta Kappa's 73rd annual national convention is "Civilization at Risk: Challenge of the '90s." The convention will be hosted by Illinois chapters, with special help from the Chicago chapters; and

Whereas, the Phi Theta Kappa hug, more common than a handshake, has become a symbol of spirit and brotherly love among its members;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim March 14-16, 1991, as PHI THETA KAPPA DAYS in Illinois and urge Illinoisans to be cognizant of the events arranged for this time.

Issued by the Governor March 8, 1991.

Filed with the Secretary of State March 18, 1991.

91-090
SEED MONTH

Whereas, the abundance of Illinois crops relies on fertile soil, diligent farmers, and high-quality seeds; and

Whereas, to ensure that seeds are of the highest quality, there must be agricultural-minded seed producers, conscientious inspectors, skilled technicians, and concerned dealers; and

Whereas, the seed industry in Illinois significantly contributes to the state's agricultural diversity as well as its economic integrity and, therefore, serves as a model enterprise for value-added products; and

Whereas, the Bureau of Laboratories of the Illinois Department of Agriculture tests the purity and germination of seeds and validates correctness of labeling. The official seed-certifying agency in the state is the Illinois Crop Improvement Association, an independent, nonprofit organization;

and

Whereas, the Illinois Seed Dealers Association, in cooperation with educational and regulatory agencies, has developed an effective seed program. The association also informs its membership of latest research developments, current legislation affecting the seed industry, and the availability of quality seed;

Therefore, I, Jim Edgar, Governor of the Secretary of State of Illinois, proclaim April 1991 as SEED MONTH in Illinois, in appreciation of the efforts to ensure that seeds planted in our soil will help supply food to the hungry people of the world.

Issued by the Governor March 8, 1991.

Filed with the Secretary of State March 18, 1991.

91-091
OPERATION DAY OF CARE

Whereas, the State of Illinois fosters a sense of caring and concern for the individuals involved in Operation Desert Storm and all those who have maintained an armed presence in times of conflict and peace, both at home and abroad; and

Whereas, our concern needs to be conveyed to those veterans who are handicapped, hospitalized, hungry, or homeless and those Americans still held hostage in the Middle East, the jungles of Southeast Asia, or prisons in foreign lands; and

Whereas, Operation Day of Care has been initiated to emphasize the great extent to which Illinois communities care about our service people and veterans; and

Whereas, Mattoon, Charleston, Greenup, and at least 11 other central Illinois cities are taking part in observing Operation Day of Care by planning ceremonies and activities; and

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim March 16, 1991, as OPERATION DAY OF CARE in Illinois and encourage citizens to participate in appropriate ceremonies and activities.

Issued by the Governor March 13, 1991.

Filed with the Secretary of State March 18, 1991.

91-092
METROPOLITAN PIER AND EXPOSITION AUTHORITY
EMPLOYEE LONGEVITY DAY

Whereas, the Metropolitan Pier and Exposition Authority (MPEA) is a political subdivision--a unit of local government charged with the duty to promote, operate, and maintain fairs, expositions, and conventions in the Chicago metropolitan area; and

Whereas, in addition, the Metropolitan Pier and Exposition Authority is charged with the responsibility to provide for the recreational, cultural, commercial, or residential development of

Navy Pier; and

Whereas, on April 6, 1991, the Metropolitan Pier and Exposition Authority will pay tribute to those employees who have served the authority for five years or more; and

Whereas, with more than four million annual conventions, trade show, and corporate meeting travelers visiting the McCormick Place Complex and Navy Pier, it is the veritable meeting marketing place of the world; and

Whereas, MPEA employees who perform the myriad of tasks needed to make meetings and shows run smoothly have consistently contributed to enhancing the image of the State of Illinois, City of Chicago, McCormick Place Complex, and Navy Pier;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim April 6, 1991, as METROPOLITAN PIER AND EXPOSITION AUTHORITY EMPLOYEE LONGEVITY DAY in Illinois, in recognition of the many years of commitment to public service these employees have demonstrated.

Issued by the Governor March 14, 1991.

Filed with the Secretary of State March 18, 1991.

91-092	Metropolitan Pier & Exposition Authority Employee Longevity Day	4798

The Sections Affected Index lists, by Title, each Section of a codified Part on which rulemaking activity has occurred in this volume of the Register and is divided into two parts: the first lists the Sections on which rulemaking occurred in the previous issues of this volume year; the second lists the Sections on which rulemaking activity occurred in this issue of the Register. (The headings at the top of each page indicate the two parts: the first part shows the previous issue numbers inclusively and the date of the last published issue; the second lists the current issue number and date.) The columns in both parts indicate the type of rulemaking activity and the action taken along with the page number on which the first page of the notice of rulemaking activity appeared. If a Section on which action is being taken in the current volume (calendar year) of the Register was proposed in a previous volume, the last two digits of the previous volume's year appear immediately after the page number separated by a slash. (e.g. 1 Ill. Adm. Code 100.280 was proposed last year and adopted this year. The action entry reads: (P-8577/89; A-724) The codes for both columns are listed below. For a complete listing of the Titles of the *Illinois Administrative Code*, please refer to 1 Ill. Adm. Code 100.140 or contact the Administrative Code Division.

TYPE OF RULEMAKING

am = amendment to existing Section
cc = codification changes
n = new Section
r = repeal of existing Section
rc = recodified
= renumbered

ACTION CODES

A = Adopted rule
C = Correction
CC = Codification Changes
E = Emergency rule
F = Failure to Remedy Objections
M = Modification
O = JCAR Objection
P = Proposed rule
PF = Prohibited Filing
PP = Peremptory rule
R = Refusal to Modify or Withdraw
RC = JCAR Recommendation
S = Suspended rule
W = Withdrawal of Proposed rule
